It is pretty safe to say that he will be disappointed, that the newspaper addressed will not heed the appeal to its induence and that the democratic candidate for the presidency will say nothing in regard to the Panama matter by way of rebuking the republican party. The pportunity to administer such rebuke was at the St. Louis convention and the representatives of the democratic party there assembled declined to improve it. although urged to do so by a few leaders like John Sharp Williams of Misssippl, who as temporary chairman of the convention denounced the course of the administration in regard to Panama is "shameful." The draft of the platform adopted by the subcommittee of the committee on resolutions did, it is true, express disapproval "of the methods by which, in disregard of the usages and obligations of international law and treaty obligations, the canal route has been sequired," but the full committee rejected this and substituted for it the simple declaration that "the democracy, when entrusted with power, will construct the Panama canal speedily, honstly and economically."

The full committee did not follow the ounsel of Mr. Williams and a few others who thought political capital could be made out of assailing the action of the republican administration because a majority of the committee knew that such advice was not in acord with the general sentiment of the party. A BIT OF W ... MAN.

Council Bluffs Nonparell. Council Bluffs Nonpareil.

It is afternoon. I am sitting on the bleachers with someone's feet in my coat pockets.

There are about me eleven thousand fellow men, with their mouths open, and pop bottles on the way to and from them.

Occasionally they shout.

I am stunned, deafened, confused by the mighty outcouring of sound vibrations.

mighty outpouring of sound vibrations. But I do not mind it. I am wedged between mountains of fiesh.

By a cushion. On the whole I am very happy. A man has stepped to the piste.

is homerunful.
he hits the ball I have won two bones
from the man beside me.

The multitude, intense, surging, wild-eyed, holds onto its breath with both hands. Suspense incarnates itself.

Someone has turned off the cheering. A thing called the umpire has brayed. The short, squat man is out.

I hear cries about me.

They indicate rage, anger, fury, frenzy, disguist, hate, loathing, repulsion, passion, aversion, despair—what you will.

I join in them.

They reflect my sentiments to a T.
I dash my cushion to the ground.
I climb to my seat and yell, "Lynch the black-hearted robber!" "Run him off the grounds" "Desicate him!"

These, with other expressions and epithets, of which I am now ashamed.
I boil with rage.

The fat man next to me has pocketed my money.

Hair Falling?

don't you use it? "A few years ago my hair got very dry and I could pull it right out by the handful. After using a few bottles of Ayer's Hair Vigor I got relief. My hair stopped falling and I received a new head of hair."—Mrs. G. Harrer, Milwanker Wis.
