THAO YANG, Aug. 24 .- A big battle comnenced today twenty miles cast of Ling Yang. The Russian front from the Taitse river south was engaged.

LIAO YANG, Aug. 25.-The fighting which began yesterday continues today at Liandiansian, twenty-three miles southeast of Lino Yang. The Japanese are attacking. ST. PETERSBURG, Aug. 35 .- A dispatch from Lino Yang, under date of August 25, says the Japanese castern forces began a forward movement August 24, eight com panies going, on the main Line Yang road,

n the direction of Linndiansian. The Russian outposts held their position, the fight continuing yesterday. The result is not stated, but it is understood the Second and Twelfth Japanese guards divisions are participating.

Fighting Began Wednesday.

2:50 p. m.-After four weeks' interval the Japanese have resumed their advance against General Rouropathin's positions The opposing armies are in contact cast and south of Lino Yang and fighting has been in progress since Wednesday. The advices at hand are too menger to enable the officials to form a correct opinion as to whether it will result in a general engages ment, but the extent and character of the Japanese movement leads to that concluslon. Hince the rains ceased a week ago there have been continued intimations that General Kouropatkin was about to assume the offensive, but instead of that it was the Japanese who attacked the Russian commander's eastern and southern positions. A Japanese column 30,000 strong was reported on Tuesday to be marching up the right bank of the Lianhe river, which would seem to indicate that three Japanese armies are co-operating in enveloping three sides of Lino Yung.

From the more recent accounts received it appears that General Kuroki selected Tantzlapuday as the point for his attempt to drive the wedge into Kouropatkin's outer defenses at Anping and Liandiansian, which are situated respectively ten miles northwest and southwest of Tuntziapudzy, the latter being on the Linnhe river, eight willes No decision has been reached so far as above the confluence of the Tiatae river,

to the Neutral Powers. ST. PETERSBURG, Aug. 26 .- 7:45 a. m. The Russ today declares it is in a position

to state authoritatively that there is not the dightest foundation for the report that Italy has suggested to France an offer of its good offices on behalf of Russia.

An inspection of the cruiser Askold proves, according to the Russ, that the damage is irreparable and it is forced to disarm, thus closing one phase of the i cident. Protection of the cruiser now devolves upon China and, incidentally, upon the neutral powers having warships at Shanghal. The paper adds the warning:

This protection must be effective, as an-other breach of neutrality on the part of Japan will force Russis to regard China as a belligerent, and thus change the whole aspect of affairs in the far east.
