AFFAIRS AT SOUTH OMAHA

Little Bumpus in School Board Over the Assignment of Teachers.

SUPERINTENDENT RESENTS INTERFERENCE

Laverly's Change in Rules to Invest Himself with Authority is Now Likely to Be Repealed by the Board.

At last night's adjourned meeting of the Board of Education there was a lively tilt between members of the board and Superintendent McLean in relation to the assignment of teachers.

After the schools were closed in the spring this rule, which is found in section 25 of the manual, was changed at the suggestion of Laverly to read that teachers be assigned by the teachers' committee of the board.

Laverly replied to this by saying that such a question was drawing the rule too fine. J. C. Knight said that the new rule was dangerous and detrimental to the good of the schools and for one he wanted the old rule re-established.

"As the rule now stands," said Mr. Knight, "we are holding the superintendent responsible for something he is not allowed to do."

At this juncture Superintendent McLean asked if the members of the board had ever found fault with his assignments. All admitted that no fault could be found with the previous assignments.

On the matter of assignments one word brought on another and all of the members denied ever having interfered with the superintendent in the assignment of teachers.

When it came Laverly's turn he, too, denied. McLean jumped up and declared that the statement was far from being the truth.

Laverly still insisted and further talk on the subject was dropped for the time being.

After the meeting the majority of the board favored going back to the old rule and abiding by it and a change will most likely be made before the official assignment is announced.
