OMAHA, Aug. 26.—Wheat markets of the world opened with a decidedly weak tone and erraite. This did not last long and during the greater part of the day the movement was in the direction of higher figures. The bulls were the most condent of their position and took the markets away fruit the hears. The stories of rust continued unabated and the Canadian authorities admitted a serious loss in the Manitoba and Ontario crops. Railroad officials and the Modern Miller seem to be about the only friends of the hear element and these predict continuously and emphatically about as many bushels as ever, with admitted deterioration in quality. While the recovery from the weak opening was attended with considerable firmness there was none of the wild excitement of a week ago and despite persistent sirvles to acquire wheat the buying was not urgant enough to bring about more than a point recovery in Beptember and December futures with like on the May future, This delivery is a prime favorite with the speculative element because of the admitted danger of making too free with the nearby deliveries. The low point in Chicago on September was \$1.02%, or like off. December 10.0 and May \$1.00%. the nearby deliveries. The low point in Chicago on September was \$1.02\foxupers. or ligo off: December \$1.04 and May \$1.00\foxupers. or ligo lower. These declines were recovered and the additional advances mentioned above were scored before the neon hour.

MINNEAPOLIS.

September 59 Commercial Gossip.

Modern Miller—Winter wheat seeding is progressing steadily under favorable conditions. Late rains have put the ground in fine shape for receiving and starting the crop. Millers in the short crop sections of the Ohlo valley are aircady drawing supplies from the accumulative centers. Texas will increase acreage.

Broomhall says: 'Disappointment in action of American markets yeaterday caused quiet opening: prices 'dd lower. Further loss of 'dd occurred in December, but later both months advanced to 'sd over opening on good speculative buying caused by the sensationally small estimates on Manitoba and American spring wheat crops. a strong undertone developing.

Corn—Unexpectedly large Argentine shipments and pressure of Argentine parcels on market caused weak opening prices; 'id lower for September and 1d for December. Later months lost 'idd additional.'

Later months lost and additional.

The August report just issued by the Canadian Department of Agriculture shows immense failing off in estimated yield of fall wheat in Ontario. The yield is estimated at 9,827,760 bushels, compared with 17,86,363 bushels last year. This is the smallest yield of any year on record and the final figures will be more disappointing than above indicates. The Hessian fly is assigned as the chief cause of reduced yield and the severe winter is given as secondary cause. A decrease of over 5,000,000 bu, is given in cats and \$11,000 bu, in rye. Altograther the yield has been one of the most disastrous for the farmer in the history of Ontario.

Total receipts...... 67 101 20 1 The disposition of the day's receipts was as follows, each buyer purchasing the num-ber of head indicated:

Omaha Packing Co..... Swit and Company.... Armour & Co..... Cudany Packing Co..... Cudany from a. C.... Swift & Co. from St. J. 318 Ager rucking Co......

CATTLE-There were only about 40 cars CATTLE—There were only about 40 cars of cattle on sale this morning, a large proportion of the arrivals being consigned either direct to local packers or onled through. Using to the light receips and to a good demand from packers, it only look a short time to effect a cierrance. The market on corn-fed steers could rafely be quoted steady and active on desirable grades. Some sales, in fact, may have been a trifle stronger. The light cultie, however, or those that were of only fair quality were none too brisk and only about 18.851.923 3.0 heavy cattle and such kinds are fully log or later than the week. Light cattle have higher for the week. As would naturally to expected with light receipts and a rapidly advancing market.
1.051.751 16.4 There were hardly enough western grass beef steers on sale this morning to make a test of the market, but they could be 49.122 9.0 quiet steady. Owing to the moderate of ferings all the week, prices on westerns have improved fully as much as on corn feds.

Wool Market.

BOSTON, Aug. 26.—WOOL.—The po ition of wool in the Boston market is firm, although the demand is not heavy. The milis are well supplied with stock for the present, but dealers believe that the goods market will be favorable and that the mill owners will be obliged to stock up again. Values are generally well maintained on all grades of wool. The prices of domestic wool in this market are based on actual sales, as follows: California—Northern, choice, 220 23c; middle counties, 17618c; southern, 150 14c. Idaho—Territory, fine, 19620c; fine medium, 18618c; wyoming—Fine, 16617c; fine medium, 174618c. Utah and Nevada—Fine, 17617c; fine medium, 18616c; coarse, 18617c.

The Commercial Bulletin will say tomor-

The Commercial Bulletin will say tomorrow: The week in wool has been a big one in point of sales and a very busy one in sorting and delivering supplies. Bome of the big mills have been buyers of large blocks of territory, especially Montanass largely in the original sacks. The price is said to be ile on most of the business, but a range of 2014025c is given. The worsted mills have been heavy operators. A sale of very choice Pennsylvanis XX was at 13c, the highest price for that grade for a long time. Domestic scoured wools are 10 3c higher. Fine merino Australian wool is attracting attention after weeks of neglect. The European situation is very strong especially on merinos. The shipments of wool from Roston to date from December 21, 1963, according to the same authority TOW: Cows. bulls wood from Boston to date from December and rearrings, \$2,5007.25. The same authority are 13,005.29; bulk, \$5,2007.25. Thigher, selling at \$5,1005.29; bulk, \$5,2007.25. Thigher, selling at \$5,1005.29; bulk, \$5,2007.25. The same time last year. The receipts to date are M2.721.945 lbs. against 150,005.78 lbs. at the same time last year. The receipts to date are M2.721.945 lbs. against 201.450.155 lbs. for the same period last year.
