THE ART OF DRY CLEANING.
was invented in the sixties by a Frenchman named Jullien, in Warsaw, Poland; hence called French Dry Cleaning, or as some people call it, Chemical Cleaning. Since then the process has been improved upon, and low in use in the whole civilized world. It is the only way to clean fine garments or delicate materials. We are up-to-date in all departments of this business. If not a customer already, give us a trial and you will become one.
