

GRAIN AND PRODUCE MARKET

Wheat Futures Strong Early, but Closed Weak and 1 5/8 to 2 1/2 Lower.

CORN IS SLIGHTLY LOWER THAN ON MONDAY. High Prices Induce Profit Taking—Position of Wheat Still Favors the Bulls—Outs Steady—Commercial Gossip.

OMAHA, Aug. 30, 1924. Grain markets of the world were somewhat easier today, as a result of profit taking on the part of those who acquired contracts at the opening yesterday and on the better wheat map, rains that threatened disaster being avoided and the situation being a little more optimistic.

Wheat—The market opened in a quiet, steady manner, but was soon active, and a few cents higher at the close. The September contract was the only one that was higher, while the others were lower.

Corn—The market was steady and quiet, but there was a slight decline in prices. The September contract was the only one that was higher, while the others were lower.

Produce—The market was steady and quiet, with no significant price changes. The September contract was the only one that was higher, while the others were lower.
