CHICAGO, Aug. M .- The efforts of President Donnelly of the butchers' union to spread the strike sgaine; the packers throughout all trades that are in any way connected with the packing house industry was only partially successful today. The first step was in calling out the men

mployed by the independent packers and the stock handlers that were still at work for those packers against whom the original strike was made. The total number of men who quit work today in response to the appeals of President Donnelly was about 3,000. It was also announced by rangements for a strike of the switchmen on the railroads doing business in the stock yards and that in a short time the packers would find it impossible to ship out their product. The switchmen, however, have refused to strike. After a long and 300 families are homeless. The members of the switchmen's union declared themselves ready to strike, but those switchmen who are members of the Brotherhood of Railway Trainmen declined to do so. When this was made known to the members of the switchmen's union they declared that a strike on their part would be useless unless the members of the brotherhood went out at the same time and they rescinded their action.

A telegram was sent today by officials President Samuel Compers of the American Federation of Labor, asking him to call a meeting to be held in Chicago of the executive committee of their organization for the purpose of devising means of assist-

ing the striking butchers. The manager of the Union Stock Yards and Transit company said that in anticipation of the strike of the stock handlers, places of deserting weighers and that a lot of such men are available at once. Orders have been issued for a genera strike of all butcher workmen throughout the country. They are expected to go out to that effect was accordingly rendered, The order will affect in all pendent plants. The order, if observed will also affect independent plants of large capacity in the following cities: East St. Louis, Omaha, St. Louis, Kansas City, Sloux City, New York, Milwaukee, Syracuse, Stickney, Ill., and hundreds of small plants throughout the country which employ from ten to twenty men. Altogether union officials assert that 15,000 men will go out, and the meat supply will be seriously crippled, leaving as the only supply the output of the big packers by the nonunion help. Today the pickets surrounding the yards were largely increased, the yards being watched for several blocks away. Strike breakers were warned not to leave the yards, as there is an ugly feeling existing against them.

At 10 o'clock the 600 stock handlers in the stock yards unions unsaddled their cov ponies, and, putting them in the barn, guit work. The men marched out of the yards and were greeted by cheers of the union

President Donnelly is said to be depending upon the union drivers for the success of his attempt to make meat scarce. What action the 3,500 grocery and meat market wagon drivers will take remains to be seen. Heretofore they have refused to handle meat from the strike-affected packers and their employers were forced to buy from the independents.

It is also said that an attempt will be made to shut off the ice supply from every retail market in Chicago, since all meat products are to be on the unions' "unfair

The first formal meeting of peace envoys will be held at the West Point Military academy, the delegates being conveyed thither from New York on a Hudson river steamer, where, upon their arrival, they by H. C. Taylor, acting secretary of the treasury. The day will be spent at West making and incidentally in showing the visitors the material from which America's future generals is made. In other words, the foreigners will doubtless be shown how Americans, though peaceably inclined toward all the world, are not backward in preparing its young men to successfully bear arms, if the necessity should arise. From West Point the party will return to New York, there to take a special train for an extended western trip. The western trip will be under the supervision of several prominent officials of the treasury, and they will visit a number of the leading cities between New York and St. Louis. The troops from all camps will be marched toward Weilington early on the morning of the 10th. They are all expected to be in their prescribed places at 10:30 o'clock in the morning, when they will be given an hour for rest and lunch. General Chaffee, chief of staff of the army, is to be the reviewing officer. With him will be Assistant Secretary of War Oliver, General Corbin and staff and perhaps other officers. It is expected that it will take four hours for the troops to pass in review. Each command will return to camp as soon as it passes the reviewing officer. Two high-power steam automobiles from Cleveland are scheduled to arrive at headquarters today. They are to be placed at the disposal of General Corbin for the use of his guests. About eighty guests of the general have been provided for at headquarters. The only obstacle to a perfect camp at headquarters, the lack of water, was removed today. A steel drill has been pounding away night and day for three weeks without result to sink a hole 350 feet into the ground. Today the water came. The flow is ample, being nearly twenty gallons a minute and good in quality and cold.

PEACE CONGRESS AT ST. LOUIS Distinguished Europeans Here, but There is Danger of Dearth

of Americans.

WASHINGTON, Aug. 31.-Arrangements have been practically completed for the reception and entertainment of the distinguished body of foreigners who will come to this country next month to attend the twelfth interparliamentary conference for the promotion of international arbitration, to be held at St. Louis in September, but recent developments have indicated that there is grave danger on account of the political campaign of an inadequate representation of Americans. Between 200

and 225 Europeans will attend. Speaking tonight of the situation Representative Bartholdt, who represents the American congressional committee and is chairman of the entertainment committee, sald: "There is great danger the American congress will not be well represented at the conference. I sent out a circular letter two weeks ago and many members of the committee have responded that owing University of Medelline, Mr. Herran was to the campaign they could not be present. "In my judgment, it would after having invited here distinguished members of all European parliaments, be a national disgrace if congress be not well represented at the conference and the foreign delegates would be sure to feel the matter keenly as a slight to themselves.'

> The report from Lieutenant General Sakharoff is as follows:

Sakharoff is as follows:

From 5 o'clock this morning until 2 tonight the Japanese forces attacked our
frontal positions before Lian Yang and on
the left of the Taitse river. Both their
artillery and rifle fire was intense. Their
main efforts were directed against our canter positions and left flank, but numerous
attacks were repulsed along the whole
line. Our troops made several counter 43tacks, cuiminating in hayonet fighting.
Many positions which had been occupied
by the Japanese were retaken at 4 o'clock
in the afternoon. During the artillery attack our batteries did very effective work.
About 4 o'clock this afternoon the enemy
was observed attempting to turn our right
