t co-operation with the striking livestock handlers. Comparatively few independent houses will be affected." "Stock handlers," said President Don

nelly, "are en strike only in Chicago and St. Louis." In Chicago only the independents within the stockyards inclosure will be of necessity affected. Union men employed in independent packing houses will not be permitted to dress cattle handled on the hoof by non-union men.

The fate of the ousted independent pack ers depends on their ability to secure stock without resource to the stockyards company.

Complications affecting board of trade op erations were feared as the result of the strike in the five independent establishnents affected by the strike. Dealings in lard, meas pork and ribs, the warehouse receipts representing the products, pass from hand to hand. September options fall due for delivery today, and the independent packers are without crews to make deliveries, where the product is actually demanded for shipment. If non-union men are brought in to do the loading the butcher workmen, who are cleaning up, preparatory to leaving, will drop their work at once, to the embarrassment and loss of the packers.

Orthodox Jews to Bar Meat. The Chicago Hebrew Butchers' associa tion has arranged to quit the sale of meat, commencing tomorrow. Many rabble sup-port the action of the butchers, and an appeal is being framed to the 170,000 orthodox Jews of Chicago to purchase no more meat until the strike ends. It is doubtful if it will be possible to secure "Rosher" meat in most parts of the city.

Representatives of the independent packing companies doing business at the stock yards had a conference with the Allied Trades Council and presented a request that the strike in their establishments be called off.

After several hours' consideration, the conference board of the Allied Trades Council refused to call off the strike.

"We have conditions well in hand," said Mr. Leonard, manager of the yards. "We have now 200 men to replace the strikers and by Monday we will be able to handle everything without difficulty."

> Kouropatkin heard of the passage of the Taltse at Sakankankwantun after 6 o'clock on the evening of August 31, and immediately gave orders for his men to fall back on the outer positions. This move is explained by the desire to collect a strong force with which to repel a flanking movement from the northeast.

The Japanese repeated the attempt to throw a pontoon across the Taitse near Lino Yang during the night of August 21, again under cover of a bombardment, and this attempt is believed to have been successful. Severe fighting may therefore be expected immediately northeast of the city. The action of the Japanese commander in throwing a force across the river in
