WASHINGTON TAKES COUNTY PRIZE Executive Committee of State Teach. ers' Association Decides to Hold

the Next Meeting in Omaha. (From a Staff Correspondent.)

LINCOLN, Sept. 1 .- (Special.) - The state fair will practically be over tomorrow afternoon and the indications now are that from a financial standpoint the fair will be a success. This morning it was figured that about \$1,500 or. \$2,000 taken in at the gate today would put the board on easy street and notwithstanding the threatening weather enough people passed through the gates to much more than make up this amount. In fact there could be no complaint about the attendance, though, of course, the crowd was nothing like what it has been the last two days.

Several little showers fell this afternoon but these were not sufficient to interfere with the good natured crowd. More attention today was paid to the exhibits than on any day this week, though the races were not neglected by any means.

Tomorrow morning at 10 o'clock will oc cur the stock parade and this promises to be worth seeing. The speed program to morrow also will be the best of the week. In the contests of county collective exhibits at the state fair today prizes were won by countles in the order named: Washington, Kearney, Howard, Saline, Ne maha, Brown, York, Franklin, Cuming Webster, Adams, Furnas, Gosper, Richardson, Sherman, Hitchcock, Thomas, Fron tier, Scott's Bluff and Dawes.

The attendance was 12.638, against 22,023 last year and to the grandstand there were 2,753 admissions, against 4,639 last year. Notwithstanding the statement of th manager of Dan Patch that the track was too heavy for the horse to make a go Tuesday afternoon as has been announced, the indignation of a disappointed multitude has not been appeased. Unless the feeling materially changes before the next state fair, it will be useless for the board of managers to advertise a fast horse for the first days of the fair. Hundreds of people came in from the west portions of the state merely to see Dan Patch make his race and these people had to come in Monday in order to be here Tuesday. Many of them who left Tuesday without having even see the horse said it would not have been such a disappointment if horse had been driven around the track. Instead of that, however, he was lead in front of the grandstand and even the blanket was kept on him.

The Impression was out yesterday that the horse would not make his supreme effort until today, consequently many people who really wanted to see Dan Patch failed to go out yesterday, but waited, hoping to see the big racer today.

FREE LAND NEAR HUMBOLDT

Richardson County Physician Secure Homestead Without Leaving Home. MUMBOLDT, Neb., Sept. 1.—(Special.)— In the scramble for the cheap Rosebud ands last month the citizens of Richardson county overlooked something pretty good in the way of homestead in their immediate vicinity, in the shape of a twenty acre piece of land valued at \$50 an acre, open to the homestead entry. The land is ocated near Preston in the east end of the county and has been farmed for many years by different owners of an adjoining tract, to which it was supposed to belong. Being of irregular shape and lying in th bend of the river it attracted no attention until quite recently, when Dr. Wells of Falls City discovered the situation and entered into correspondence with the government to ascertain what steps were necessary to perfect a claim to the land. He was forwarded the necessary blanks and short time ago went to the land office at Lincoln and filed on the piece as a homestead. As no one disputes that, the title rested in the government it looks like the doctor has made a pickup of a clean \$2,000 without going far from his dooryard, and it is safe to say the same condition does not exist anywhere else in

The executive committee of the State Teachers' association left town before announcing its decision in favor of Omaha, but the announcement was made by Secretary McVan of the Omaha Comrcial club, who was here looking after the interests of the big city. Yesterday a majority of the chicken men favored Omaha as a place for the show, and a flattering offer was made then. Lincoln, however, got busy today and landed the prize.

The revenue law is being used by the fusionists in the legislative fight, but I feel no uneasiness on that account. A number of parties in my county are pretty wrathy because they have to pay more taxes, but in a majority of cases those who are paying so much more are the people who heretofore have been escaping their just taxes. Military Observers from Seven Goveraments and Eight Governors to Be Guests of General Corbin.

GAINESVILLE, Ga., Sept. 1.-Squadrons of cavalry are bivouacked tonight throughout the maneuver sone. The conference in General Corbin's tent today participated in by both division con manders, Grant and Bell, and the four brigade commanders of each division, Colonel Wagener, chief umpire, and General Corbin's staff officers, settled all open questions. The conference revealed the keenness with which the opposing commanders are entering into the spirit of the game. Both wanted to know the minute they will be allowed to move, when the first problem is declared on. The time is fixed at midnight of the 5th and there is no doubt that daylight of the 6th will not be waited for by either commander There is no declaration of victory by Colonel Wagoner, the chief umpire. result of each day's operations are to be summed up by the umpires as accurately as possible and a statement made giving the disposition and use of forces made by each side. This is as near a determination of a military contest as is practicable when blank cartridges are used instead of lead. The residents of the district are to be protected during the actual maneuvers by guards if they so desire.

During the maneuvers General Corbin is to entertain the military representatives of seven governments at headquarters, the governors of eight states and other distinguished guests. His camp has been arranged with this end in view, and although the accommodations are those of the army officer in the field, there will be no lack of the necessities of life,
