Onawa Horse's Good Showing.

ONAWA, Is., Sept. I.—(Special.)—In the 2:09 25,000 pace at Providence, R. I., yesterday, another one of the Onawa Park farm horses showed up to good advantage. Guy Caton, by Parker, was fourth four heats, in the fastest time recorded for the event in the first heat. The time of the heats was 2:04, 2:04%, 2:05% and 2:04%. Guy Caton was slred by Parker at the Onawa Park farm, and after being handled a little without showing much speed was sold to T. B. Skidmore for \$160, who in turn sold him for \$100. In 1903 he was campaigned very succeasfully in the west by Gill Harrhon, taking a mark of \$2:10%. In 1906 he was not campaigned, but this spring was taken east and is now handled by the veteran driver Charley Doble, and seems able to get a place in any kind of company in the Grand Circuit. He is still owned by Mr. Robinson and ought to be able to win a few "firsts and seconds" later on. With Frank Yoacum and Guy Caton making good down in the Grand Circuit and Ainsworth (2:10) at Baltimore, it would appear that Interstate Commerce Commissioner J. D. M. J. Sheridan of New York Lowers the World's Record for Discus Throw Over Four Feet.

ST. LOUIS, Sept. 1.-American athletes held the center of the stage today-the fourth of the Louisiana Purchase Exposition revival of the Olympic games-and to their pluck and grit belongs the credit for creating one world's record and three Olympic records. One of the greatest races of the 1904 Olympiad was the 800 meter run. The distance in American measure is 874.89 yards. Entered in the race were representatives of the United States, Germany, Canada and New Zealand, but the first four places were claimed by men running under the colors of Chicago, New York and Milwaukee Athlete clubs. James D. Lightbody of the Chicago Athlete association lowered the Olympic record by five and two-fifth seconds

The world's record for the discus throw was broken by W. J. Sheridan of New York, who made a mark of 132 feet. The previous record, which was held by Sheridan, was 127 feet 9 inches.

H. L. Hillman of the New York Athlete club maintained his reputation as the fastest man in the world over hurdles by breaking the Olympic record of 25% seconds made by A. C. Kranzelein, University of Pennsylvania, at Paris in 1900. Hillman went the distance in 34% seconds.

M. Prinstein of the Greater New York Irish Athletic association broke the Olympic record in the running broad jump on his fourth trial, with a distance of 24 feet 1 inch. The record was formerly held by A. C. Kranzelein, University of Pennsylvania, who jumped 23 feet 6% inches at the Paris olympiad in 1900.

GOLD STRIKES IN WYOMING and Dillon Each Report New

Discoveries of Pay Dirt. PEARL, Colo., Sept. 1 .- (Special.) -- One of the old time prospectors known in this section as Cherokee Charlle, came into town with some very fine specimens of bonite ore which, when tried in the assayer's furnace, made a very high assay. Charlie refused to tell where the claim was which he had staked out, but he has been seen working on a little creek three miles southwest of Pearl, and there has been a rush made to the district and numerous claims are marked out in that neighborgood. This is a rich find for the Pearl district, for the ore seems to be in good quantity and of a very rich kind.

# DOCTORS FOR MEN

Many men are working every day, who are not sick, but have a peculiar weakness. These men are weak, nervous, debilitated, slow, poky, languid and tired out. They lack courage, self-confidence and have lost the fire and strength of youth. Thousands of men are prematurely old and diseased through excesses or unnatural drains, which sap the very foundation of life, destroy their health and strength, leaving them a physical, mental and sexual

wreck.

Some men contract disease by being indiscreet and others inherit weakness and suffer for the shortcomings of their parents, dragging theruselves through a life of decrepitude because they are trying to conceal the serious errors committed. Strength can no more proceed from weakness than pure water from a polluted fountain.

Mental activity, muscular strength and vital power are essential to success in life. Nature intended you to be strong, robust and healthy. You have the physique, the constitution, but perhaps you have transgressed nature's immutable law and are paying the penalty and are not infiltrated with the vim, vigor and vitality to be expected in a person of your age.

For the speedy cure of the diseases that so insidiously destroy the intellect, strength and very manhood, secure the services of the eminent specialists connected with the State Medical Institute. They will stop these unnatural drains with their terrible results and restore to sound health the pitiable victim of nervo-sexual debility, brain fatigue and wrecked manhood.
