CRITICISM FOR RUSSIAN ARMY

General Dragomiroff Quoted as Saying There should Be a Change. ST. FETERSBURG. Sept. 1-4 p. m.been rating down on the exact situation at the theater of war. The lack of news here concerning the details of the Russian retreat to Mukden and the movements of the Japanese armies may be described as complete. Even the meager reports pub-blished in fife foreign press are new fully conveniented to the Roadan papers and for three days practically no newspaper disparabes have been coming through from the frunt. It may be held for strategic reasons, but the public regards it otherwise, resulting in the circulation of the wildest reports, some of the Russian papers demanding is outspoken fashion the reorgantzation of the conditions at the front and also demunding that General Kouropatkin be, given, untrammeled control as commander-to-chief, evidently aiming at Vicercy Alexieft, who is supposed to be responsible for insisting latterly that the re-inforcements should go to Vladivoslok in view of the probability of early Japanese operations there or at Harbin, thus depriving Kouropatkin of thouse which might have turned the scale at Line Yang. The Russ is especially bold, considering the restrictions, placed on the Russian press. It declares that numerical superiority is

One advantage is that the rain has tactics will be superexcellent. The man checked the movements of the Japanese his country and I will guarantee that my tactics will be superexcellent. The man who will lay down his life is terrible. A bullet may stop one such man, but it will not stop a company. It is difficult to fight and more difficult to vangulab them.

What we need is an entirely new e-ganization of everything counseied directly or indirectly with the inflitary operations. A good deal is admirable, but a good deal aims is deployable. The fact that things have not gone well at the theater of war may be due to the fact that everything is not directly with a single aim. Deported Columba Miner Confesses Complinity in Outrages at Cripple Creek.

NAMES FIFTEEN ALLEGED ACCOMPLICES

Probable Solution of the Dynamiting of the Railway Studen at Independence and the Vindle enter Mine.

TOPEKA, Kan, Sept. 2.-An effort will be made by the Colorado authorities to secure the extradition of Robert Romaine, who confessed to the officers here that he had a part in the Vindicator and Independence explosions in Colorado. Before this can be brought about it will be necessary that Governor Bailey grant Romaine a pardon from the Kansas peritentiary. He was given an indeterminate sentence yesterday for burglary. Similar pardons have been granted before in Kansas and it is understood that Governor Bailey is willing to take like action in this case when the necessary papers are presented. The Topeka officers stated tonight that the Colorado authorities wish to arrest two of the men named by Romaine in his confession. It is for this reason that the two names were crased from the sworn confession of Romaine made public today. Romaine's Confession.

H. P. Slagel, alias Robert M. Romaine, a deported Colorado miner, under arrest here for burglary, has confessed to the county attorney to complicity in the Independence depot and Vindicator mine explosions, in the Cripple Creek district, last June, by which fifteen nonunion miners were killed outright and others injured. Romaine says he helped to place the dynamite and wires running beneath the depot and by which the charge was set off. Romaine gave the names of those whom he alleges were implicated with him in the plot.

Slagel, or Romaine, in his confession implicates twelve other men. Two of the names the local sheriff refuses to divulge. The others as given are: Jess Waters, Foster, - McKinney, Louis Tissell, Jim Hicks, Carl Nelson, - Davis, - Kennion, - Beck and - Campbell. Announcements of the Theaters, This afternoon and evening will witness the closing performances of "The Tenderfoot" engagement at the Boyd theater. The success that has been attained by this company is the best evidence of its merit. It is surely pleasing the people. On Sunday afternoon the Shubert company, direct from Madison Square theater in New York, will open its engagement of three performances in "A Girl from Dixie," the latest of the Harry B. GAINESVILLE, Va., Sept. 9 .- The secand maneuver problem ceased at 9 o'clock today with General Bell commanding the Brown army, demolishing General Grant, commanding the Blue army east of Bull Run. This result awards victory to the

attacking force in each of the problems and makes Grant the first victor and Bell the second, so far as results can be estimated without bullets. The maneuvering and fighting today was far the most spectacular and exciting of the campaign. The first day of the sec ond problem had developed nothing but a rearguard action on the part of General Grant, while General Bell had spent his time endeavoring to make a demonstra-

tion on the left wing or to the south of the Blue line. During the night the situation changed. General Grant's main position remained withdrew his first brigade, under General Wint, who had fought the rearguard action the day before at Stone Bridge across Bull Run, along whose eastern banks the trenches dug by the federal troops still remain, and in which General Grant posted General Wint's line after it had been driven across the bridge with the loss of one brigade. General Bell executed magnificent march with the forces which the day before were on the left wing of his enemy. He threw them during the small hours of the night from the left to

the right of General Grant's position. When daylight came they were put across Bull Run at the extreme north of the maneuver scene. His center remained practically the same and fought a brigade action at Stone Bridge. It was at this point that the fighting of the day began. The Brown forces charged up to the bridge, which was constructively blown up, but were repulsed and ordered back. A second charge likewise did not meet the approval of the umpires, but the third was accomplished by a most brilliant action. A part of the Brown force, a section of the Ninth infantry, had deployed in the woods, gone down

stream and waded across. They crept up on the east bank and got in position not twenty yards behind the Blue defenders. when the Eighth Massachusetts and Twelfth New York, which were making the charge on the west side, came up the third time. It did not take the umpires a second to rule out the entire Blue force at this point and the Brown army crossed the run at will. In the meantime the force which had crossed to the north at Sudley had been coming down toward the pike. They struck Grant's line to the rear and the maneuver ended when this force appeared in a flanking movement on a Blue line which was facing a Brown line that had crossed at Stone Bridge,

In relinquishing command of the maneuver force, General Corbin issued a general order tonight expressing his approval of the work done by each commander and the force under him.

The militia will be paid tomorrow after the review, which is to be held at Wellington at 1 o'clock. After the review 8,000 of the eastern militia will be entrained for home. The Southern rallway will run many special trains from Washington to Wellington tomorrow, as great crowds are expected to witness the review of boin the Blue and Brown forces

Herman Makes a Correction.

HERMAN, Neb., Sept. 2.—To the Editor of The Bee: We wish to correct a mistake handed in to the Daily News regarding the ball game between the Omaha Centrals and the Herman, Neb., teams played in Omaha Monday. They place the score at 17 to 5 in favor of Omaha Centrals, when the correct score was 5 to 1 in favor of Herman. The Omaha Centrals placed the pitchers' box four feet over the correct measurement in order to take advantage of the Herman team, who have defeated them two games previous to this. We placed the box back to its proper distance and the game went on.

The World's Greatest Skin Humour.

Affects Every Age and Condition.

The Only Sure Cure is Cuticura.

If there were not another external skin disease known, eczema would be a sufficient infliction on mankind. It pervades all classes, and descends impartially through generations. While some are constantly enveloped in it, others have it confined to small patches in the ears, on the scalp, on the breast, on the palms of the hands, on the limbs, etc., but everywhere its distinctive feature is a small watery blister, which discharges an acrid fluid, causing heat, inflammation, and intense itching, scaling and crusting.

The Cuticura treatment is at once agreeable, speedy, economical and com-prehensive. Bathe the affected parts freely with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, or Pills, to cool and cleanse the blood. This treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours, and points to a speedy, per-manent and economical cure of torturing, disfiguring humours, eczemas, rashes and inflammations, from infancy to age, when all other remedies and the best physicians fail.
