WAIT FOR THE GOVERNMENT CROP REPORT Receipts Shipments...33,600 164,670 17,690 22,000 6,000 Will Indicate Extent of Rust Damage-Features of the Trading and Closing Prices on Boards of Trade. Delication of the Committee of the Committe Pull Crop of Oats and Exact CHICAGO GRAIN AND PROVISIONS Conditions Generally-Peatures of the Trading and Closing Grist of Gossip. The grain markets were the scene of quite a contest between the bears and the buil element today, neither side making much headway, aithough the buils seemed to have a little the better of the position, so far as wheat was concerned. There are many of the opinion that the damage will not be as serious as the reports heretofore have suggested, but there is absolutly nothing in the news of the day to justify this 'opinion. The government crop report is due today, and there is much interest in its showing. That the market for wheat held as well as it did is an evidence that the buils feel considerable confidence in their position, and that shorts covered more or less freely, inclined to the same opinion in a measure. The government showing will be much nearer a statement of existing conditions than it was a month or even two months earlier, for the admitted reason that there has been materially less change in crop conditions during the last ten days than during the like period of August or July. More harvest returns are in, and this will sidd to the value of the reports. It is not expected by the wise ones that there will be much of a surprise on the part of the wheat traders in the crop news, but those who have been expecting a change from the \$7.3 condition of corn a month ago may be feeled. It will be difficult to convince the trade that corn has gone backward during August and September, although there were some cool days and cooler nights. August last year added 2,000,000 bushels of corn to the crop. The indicated crop of corn a month ago. Oats a month ago promised 70,000,000 bushels, and the showing this afternoon should practically indicate the correct harvest. When the market opened the shorts started in to cover their wheat contracts, not caring to go over the day with the possibility of the government showing making a radical change in sentiment. This was attended with an advance of %c for September wheat, %c for December and %c for May, this being the strongest future throughout the session. After the liveries. Cora was weak early in the session, and declines of about 1/2 point were sustained in September corn, with December a full point off and May 1/2 lower. The bears operated on the theory that the government report would be decidedly bearish, but they were not willing to stay short until the close, and the result was an advance that practically recovered the greater part of the earlier losses. | Color | Colo Siba. 97c: 1 car No. 3 wheat, 57 ba., \$1.00; car No. 3 wheat, 57 ba., \$1.00; car No. 3 wheat, 57 ba., \$1.00; l car No. 3 wheat, 50½ bbs., \$1.00; l car No. 2 wheat, 50½ bs., \$1.02; l car No. 2 wheat, 50½ bs., \$1.02; l car No. 2 wheat, 50½ bs., \$1.02; l car No. 3 yellow corn, 45c; l car No. 2 cars oats, \$2c; cars oats, \$2c; WHEAT—No. 2 hard, \$1.02; No. 3 hard, \$70 61.09; No. 4 hard, \$90; No. 3 spring, \$1.02. Commercial Gossip.

Grain clearances for the day: Wheat, 34,000; flour 24,000; corn, 49,000; oats, 27,000; wheat and flour, 143,000.

George Adams Grain Company: St. Louis says contract stock wheat decreased 45,000 again yesterday. All kinds increased 11,000; more wheat to go,out of contract grade.

Sunderland & Updike, Minneapolis, say: Baw some very bullish wires and letters from New York this morning on flour. They say there has been more flour sold for export than for months and stocks very low. Minneapolis says light receipts due to fact that country mills are not letting wheat get away from them. Elevator men just told me wheat that was headed this way is being shipped to country mills instead. Minneapelis Grain Market.
