The preparations for resistance at the northwest forts consist chiefly of the construction of trenches and redoubts for the outposts. The Japanese bombardments of the

As a customary incident in the daily life of a prominent man, Senator Forak r ran into an old-time friend in Lincoln, who knew him "before the war." This matter figured in the pro ceedings of the association's convention at San Francisco last year and involved th question of the organization entering into the fidelity insurance. The debate was fol

lowed by a proposed amendment to the constitution, providing for the appoint ment of trustees by the executive council of the body for the administration of fund to be termed, "The American Bank ers' Guaranty Fund," this fund to be devoted to the insurance of members against any dishonest acts by their employes. The convention eventually voted the proposal down. The report of Secretary James S. Pranch showed that during the last year the association's detective agents have captured in different sections of the country seventyfive professional bank criminals, and that fifty-four were convicted. The report stated for what he believed was right. He is that the work of the fidelity committee had made a saving in the year of the cost of fidelity bonds to the members to consideranyone knows. ## Cannot Admit the Contention of Panama.

NEW YORK, Sept. 14-Rear Admiral Walker, the head of the Panama co sion, declared today on his arrival from Colon that the United States intended to keep the two open ports in the canal zone in spite of any protests which might be made by the Panama government. He added that he did not anticipate any trouble over the making of Ancon on the Panama side of the isthmus and Christobal, near Colon, free ports of entry. The unfortunate part of the affair, ne said, is that it has got into local politics. Of course the outs have to protest against

what has been done by the ins. I do not think that the establishing of the free ports will mean that the Panama government will have to patrol both sides of the canal strip with custom officials.' I think an agreement will be made with them so that we will help them out. Goods brought into the strip will not be alowed to ente Panama territory.
