J. T. Evans of Lincoln, R. E. Roberts of Arlington, J. S. Campbell of Carson City, Ia., and W. E. Kinsella of Blairstown were on the exchange today. were on the exchange today.

S. A. McWhorter—A reliable banker and elevator man wires us from one of the best wheat districts of South Dakota as follows: "The wheat here is worse than we ever thought. There is nothing in 75 per cent of it and people are just beginning to find it out. Day county will not have enough suitable wheat for bread and seed. You do not realize the seriousness of the situation."

You do not realize the seriousness of the situation."

Edwards, Wood & Co.'s Chicago advices say: Broomhall's foreign crop reports say threshing returns confirm early reports of poor yields. Weather generally unfavorable. It is predicted that wheat shipments from Argentine will decrease sharply in October as old crop is simost exhausted. Minneapolls stocks of wheat in local elevators decreased 105,000 bus for three days. The weather in the northwest continues wet and cold, delaying harvesting and threshing. In Manitoba temperatures have been considerably below the freezing point, damage, it is agreed, has been very severe. There is probably 20 per cent of corn yet soft and green to suffer from last nights frost. Reports from Kansas indicate one-third of the area would be light crop; ears are short and poorly filled. The government's report on yield certainly looks very high and we are of the opinion that with the very large consumption we have had for the last two years there is going to be big deficiency between supplies and demand and prices are yet to go a great deal higher.

NEW YORK GENERAL MARKET Quotations of the Day on Various

heifers on sale, but the market could be quoted generally steady. As compared with some of the sales made at yesterday's best time when buyers were all anxious for stuff and there was not enough to meet their orders, the market today may look a little lower. As compared with yesterday's general market, however, the prices paid today were just about steady all around. Trading was fairly active and most everything was disposed of in good season.

season.

Bulls, veal calves and stags could all Bulls, veal calves and stags could all be quoted steady.

The demand for good heavy feeders and also for choice yearlings continued brisk and the prices paid were just about steady. In the case of medium weight and common cattle of all weights the market was a little slow and a trife lower. Common stockers were hard to move at any price. Representative sales:

RECEIPTS FOR THE YEAR TO DATE. The following table shows the receipts of cattle, hogs and sheep at South Omaha for the year to date, with comparison with last year:

1904. 1992. Inc. Dec. 108.599

packers or feeder buyers, the market held generally steady.

Packers started out in good season, and the market ruled fairly active on desirable grades of both sheep and lambs, with prices generally steady. Common stuff was neglected to some extent, but still the prices paid were just about steady. The bulk of the arrivals was disposed of at a reasonably early hour.

The feeder market was firm, the same as it has been for some time past, and anything decent, either in the way of sheep or lambs, met with ready sale at fully steady prices.
