TOKIO, Sept. 15 .- 1 p. m .- The presence of the Russian warship in San Francisco is exciting keen interest here, although the notive of the trip is not understood. One theory advanced is that Russia is endeavoring to test the attitude of America upon the legal questions involved. Another theory is that the Lena, while engaged in scouting, called at Korsakoff and found the wreck of the cruiser Novik, and learning of the scattering of the Port Arthur fleet and the defeat of the Vladivostok squadron, took the Novik's crew on board and fled to San Francisco. The telegraphic reports of the Lena's crew and number of guns on board indicate abnormal conditions for a ship of its class.

The Japanese government, while watching the incident with close attention, has not expressed its attitude upon the case publicly.
