TIBBLES MAILS HIS LETTER

Nebraska's Vice Presidential Candidate Gives His Views on Public Questions. LOOKS FORWARD TO POPULIST SUCCESS Pays Glowing Tribute to Principles Upon Which Party is Based and Comments on Their Effect.

LINCOLN, Sept. 20.—Thomas H. Tibbles, nominee of the people's party for vice president, mailed his letter of acceptance to Hon. W. S. Williams, chairman of the nomination committee. The letter is in part as follows: "We look forward with confidence to the coming of the time, not far in the distance, when the principles of the people's party shall guide the rulers of this nation. The adherents of the people's party come from all classes, wherever a man is found who loves mankind and believes that governments are instituted among men, not for the purpose of enabling a few to gather gold and power to their heads, but for the purpose of advancing the human race, bringing gladness to the hearts of the people, enabling them through the development of the mind to enjoy the delights of the intellectual world and lay up treasures that all the cycles of time cannot take away from them. More than 1,000,000 have consecrated themselves. They are found among the wealthy and in the ranks of the proletariat, among the professional classes and among the wage earners, wherever a heart yearns to see our mountains and valleys, our cities and plains inhabited by a people whose heads are clear, whose hearts are loving and whose hands are adept at all things useful. They seek not the advantage of one class, but of all classes. They believe that the principles enunciated in our platform will furnish a foundation for the building up of such a nation and such a people."
