## BIG IRRIGATION PROJECT

Federal Government Asks Permission to Tap North Platte River.

## SUPREME COURT TO HEAR NEMAHIA CASE

Motion of County Clerk to Have Appeal Dismissed is Overruled—Registration at State University.

(From a Staff Correspondent.)

**MINCOLN, Sept. 20.**—(Special.)—The secretary of the interior has filed an application with the State Board of Irrigation asking permission to tap the North Platte river in order to carry out some of the big irrigation projects authorized by congress. By his application it appears that the secretary contemplates tapping the North Platte just below its junction with the Sweetwater in Wyoming, where a storage reservoir will be constructed covering 24,000 acres. It is proposed to construct a dam across the North Platte, which will be 350 feet long at the top and sixty feet long at the bottom. It will have a depth of 220 feet, and the water will approach within ten feet of the top, so that the maximum depth of the water in the reservoir will be 220 feet. The mean depth is given at sixty feet; which over the area stated would give a normal storage capacity of 1,250,000 acre feet. The proposed dam is to be ten feet thick at the top and 144 feet thick at the bottom, and to be built of solid masonry. The cost of this plant is given at \$1,500,000, or somewhat less than \$1 per acre foot of storage capacity. State Engineer Dobson says that its capacity will be sufficient to hold the entire flow of the North Platte in years wherein the stage of the water is low. Its purpose is for the collection of the surplus water in the seasons of moisture and to hold it for release in quantities sufficient to irrigate the lands below all along the course of the river. Definite plans for the irrigation works connected with this big dam and reservoir have not been made, but a meeting of consulting engineers is being held at Casper, Wyo., today to consider and determine the possibilities under it in Wyoming and Nebraska. The tentative plans contemplate lateral ditches below the reservoir leading the water away in parallel streams on both sides of the natural channel almost or quite down to the Nebraska line. It is in contemplation of this work that the government has withdrawn from entry large tracts of arid lands in Scott's Bluff, Banner and Cheyenne counties. These are the lands in Nebraska which this reservoir is expected to reclaim to cultivation. It is stated that they will aggregate approximately 100,000 acres. The application filed at the state house today indicates that the work is to be begun by December 31, 1912, and will be completed within four years.

## Nemaha Case to Be Reviewed.

In the supreme court this morning a motion was filed by the attorney for the county clerk of Nemaha county, asking that the Nemaha county tax case be dismissed, the motion setting forth that the clerk who brought the suit was satisfied with the decision of Judge Kelliger. The argument was made on the motion and it was overruled by the court, and the case will be argued some time later in the session. Following are the proceedings of the court:

On recommendation of F. Shepherd, attorney, Charles Clyde Barker of Alliance was admitted to practice.

On recommendation of the secretary of the Bar commission, John J. Snyder of Broken Bow was admitted to practice.

On motion of F. Shepherd, attorney, Henry Howard of Elk Creek was admitted to practice before the supreme court.

The following cases were submitted on oral argument:

Cleland against Anderson; Lusk against Riggs; Schwinge against Anthos; Kapp against Sarp; county Kime against Case county; Gourley against Prokop; Western Meatree company against Ostergaard; Smiley against Sioux Beet Syrup company; Council Bluffs & Vandalla Railway company against Roberts; Supreme Court of Honor against Tracy; Hacker against Howe; Adams county against Kansas City & Omaha Railway company.

The following cases were submitted on briefs:

State ex rel. Crandall against Chicago, Burlington & Quincy Railway company; T. C. C. against Omaha Auditorium company; Baker against Blair; Maurer against Gage county; Lincoln Safe Deposit & Traction company against Weston; Lebeck against State, ex rel. Nebraska Lumbering company.

## Cannot Pay Warrants.

For the first time since he has been in office State Treasurer Mortensen today was compelled to register warrants because of a lack of funds to pay them. The warrants were issued on the temporary university fund, but the fund had already been exhausted and from now until January 1 all warrants on this fund will have to be registered. Expenses lately have been unusually heavy, owing to the numerous warrants being presented, and there is no money coming into the treasury at this time. It will be January before the taxes begin to heap up in the treasury and until that time the treasurer will have to work overtime to make both ends meet. It is expected that the same condition that was brought about at this time last year will be repeated, but the stringency will be only temporary.

## Date of Hearing Changed.

Dr. Munk and Dr. Walker will not be given a hearing before the State Board of Health next Thursday, the date having been changed to November 19. This because Judge Post, one of the attorneys in the case, was unable to be here on Thursday.

## Many Prisoners to Be Released.

A wholesale release of convicts will occur at the state penitentiary this month, fifteen men having completed their sentences to walk forth free men. Among them is James B. Mosley, the pet of the Omaha police court. Mosley will go back to Omaha a different man from what he was when brought to the penitentiary. For years he has been a morphine and cocaine fiend, and with the possible exception of Boston Green, he has been arrested more times than any man in the state. He was brought here a physical wreck, his arms black from the sticks of his needle. He is now cured of his habit and announced several days ago that never again would he use the needle or snuff cocaine. He was sentenced for one year for daylight burglary. The other prisoners who will be released are: Warren Henley, Douglas county, sentenced for one year for daylight burglary; Edna Monroe, Douglas county, for cutting to wound, one year; Stephen Hootan, Douglas county, burglary, two years; Thomas Moss, Douglas county, forging a check, one year; William Holmes, Douglas county, burglary, three years; James Loveloy, Fillmore county, burglary, one year; Bert Butler, Lincoln county, forger, one year; William Scott, Dodge county, grand larceny, one year; William Howard, Saunders county, horse stealing, one year; John Jordan Hill, Dodge county, grand larceny, one year; John Leddy, Lancaster county, forger, two years; Michael O'Brien, Gage county, possessing burglar tools, two years; Guy Goldberry, Nemaha county, horse stealing, two years; George Wilson, Richardson county, criminal assault, seven years.

## NEBRASKA'S CROP CONDITIONS

No Damage Done to the Corn Crop by Previous Week's Frost.

MOST OF IT IS NOW OUT OF HARM'S WAY

Haying is Nearly Completed and a Large Crop Has Been Secured Generally in Good Condition.

Weekly bulletin of the Nebraska Section of the Climate and Crop Service of the Weather Bureau for the week ending Monday, Sept. 19:

Cool weather prevailed during the first four days of the week, the last three days were warm with southerly winds ranging from 50 to 90 degrees. The rainfall was confined to showers which occurred in the southeastern part of the state during Tuesday. The amount of rainfall was from one-half inch to slightly over two inches. Frost was general over the state Wednesday morning. It was light in the southern and western portions, and heavy in the northwest. Practically no damage was caused except to tender vegetation and garden truck. The weather has been favorable for maturing corn, most of which is out of danger from damage by frost. Frost is being secured in excellent condition. Fall plowing and seeding have advanced rapidly.

## Southeastern Section.

Butler—Light frost 14th on low ground, corn probably safe from ordinary frost; wheat, seeding delayed on account of dry ground; rain would be beneficial; shock threshing completed; stack grain being threshed.

## Fillmore—Sowing wheat in progress, corn maturing fast, not as good a crop as expected.

Hamilton—Corn out of way of frost; frost 14th, no damage; hay all out; potatoes being dug and fine crop; ground in good condition.

## Richardson—Corn is doing nicely; fall seeding commenced, some completed; fruit trees in bloom; ground in good condition.

Saunders—Ideal weather for farm work; corn ripening fast and pushing forward out of danger from frost for a very large crop of excellent quality; no damage from frost; wheat—threshing and plowing in progress.

York—Threshing and seeding in progress; ground in fine shape; light frost, no damage; corn doing well.

## Northeastern Section.

Antelope—Weather favorable for drying corn, but too dry for other fall work. Burt—About half of the corn is out of the way of frost; corn will be a fair average crop if it all matures; threshing progressing.

Dodge—Wheat seeding progressing slowly; corn ripening rapidly.

Douglas—Light frost 14th, no damage; corn doing well, late corn needs week or two more; potatoes being dug; fruit trees in bloom; winter apples scarce; threshing about finished.

Grant—Hay about all in stack; corn out of the way of frost; ground dry; no fall grain sown yet.

Stanton—Threshing and all other fall work progressing; some plowing has been done; corn maturing fast, and large part safe from frost.

Washington—Most corn out of danger.

Wayne—Three-fourths of corn out of

## Central Section.

Boone—Light frost 14th, no damage; haying progressing nicely, much corn being cut; corn in good condition and heavy crop; potatoes nearly ripe; good yield; threshing mostly done; small grain excepting wheat yielding well; progress.

Dawson—Corn maturing rapidly, fourth-fifths safe from frost; early sown wheat coming in; hay about cut.

Howard—Corn maturing rapidly, three-fourths safe; seeding nearly finished, rain needed.

Merrick—Corn maturing, one week without freeze will make all but very latest safe; much wheat sown.

Sherman—Corn nearly all safe; haying and threshing progressing rapidly.

Valley—Nearly all corn out of danger; seeding progressing; haying completed; fourth-fifths of alfalfa in progress.

## Northwestern Section.

Adams—Corn maturing, not all out of danger; third crop alfalfa and wild hay about all secured in good condition.

Harlan—Corn maturing rapidly.

Hays—Corn mostly out of danger; good crop of hay being secured.

Keosauqua—Corn maturing rapidly, nearly all safe; winter wheat sowing about half done.

Willow—Corn ripening rapidly; haying and digging sugar beets continue.

Webster—Hay about all secured in good condition.

## Western and Northwestern Sections.

Brown—Corn is mostly out of the way of frost.

Dallas—Frost badly injured corn and garden vegetables; threshing about finished; potatoes being dug; seeding progressing, some wheat up.

Keya Paha—Corn ripening fast and mostly out of danger; haying about done. As the growing season for the crops of 1904 is practically ended, the crop bulletin will be discontinued with this issue. The more reports are desired for the national bulletin.

With this last issue for the season the section director extends his thanks to the correspondents for their faithful and efficient work.

O. D. STEWART, Temporarily in Charge.

## MORE STUDENTS AT DOANE COLLEGE

Thirty-Second Year Starts Out with Bright Prospects.

CRETE, Neb., Sept. 20.—(Special.)—Doane college opened its doors for the beginning of its thirty-second year's work this morning. The year promises to be an unusually prosperous one. The attendance will be the largest in the history of the institution, the increase being already apparent in the crowded condition of the chapel. Many improvements have been made in the college buildings and about the campus. The commercial department will occupy rooms in a convenient dwelling house which is being fitted up for its use by the college. This department has been strengthened by the addition of an expert teacher of stenography, Mr. P. C. Swift of Omaha being the new instructor.

All former teachers in the college have been retained this year and two new ones added. They are Miss Mildred Vance, a member of the class of 1902, whose chief duties will be those of preceptress of Garland hall, and John W. Fuhrer, also a former Doane student and an athlete of some more than local fame, who will serve as physical director and foot ball coach. Mr. Fuhrer and in fact all former students, are enthusiastic over the prospects for a winning foot ball team.
