> LAST OF OLD BOND ISSUE PAID City's Experience with Cedar Blocks Expensive.

The last of the special assessment bonds saued by the city from 1884 to 1895 was taken up yesterday by City Trensurer True. The bond retired was for \$100 and was held by a New Hampshire bank.

Between the years 1884 and 1896 the city issued special assessment bonds for paving. grading, sewering and curbing amounting to \$717,300, carrying interest at 6 per cent. These bonds were issued against the abutting property benefited by the improvenents and although the city was in fact rimarily responsible for this indebtedness he property benefited had to bear the asessment, and as a result many property wners were completely swamped, this being particularly true in the case of the owners of lots on lower Broadway, hundreds of which reverted to the city by foreclosure for nonpayment of these spedal improvement assessments.

The issue of \$717,300 bonds was made up as follows: Paving, \$503.100; grading, \$117, 300; sewer, \$92.700; curbing, \$4,200. Of the amount expended in paving \$190,000 repregented the paving of Broadway and Main street with granite block, which is still eable, although badly needing relay ing. The large sum of \$313 represented the expense of the "cedar block" pavements, which have proven a total loss to the property owners who were called upon to

Kidnsping Story Flattens Out. The sensational story of the young wife of J. E. Coffin, an employe of the Bloomer fence factory, having been kidnaped by a gang of itinerant horse traders received a setback yesterday evening when the young woman and Charles Etherton, the supposed kidnaper, were brought back from Emerson, where they were located Thursday night camping on the outskirts of the

own in a covered wagon. The young woman when brought back last evening by Detective Callaghan demanded that she be booked on the police register as Mary Rutherford and to the surprise of Chief Richmond asserted that she was not Coffin's wife, as she had never been married to him. When Coffin called at police hendquarters to see the young woman he reluctantly admitted that the young woman was telling the truth. The oung woman declined to give any reason for going away with Etherton beyond that
