acter. A herd of cattle and a few horses have been captured by Cossacks.

tape neck, all sizes, \$1.75 each.

2

According to information brought in by Russian scouts, the main Japanese forces are still concentrated along the Yentar branch ratiroad and reinforcements are still crossing the Taitse river, using two pontoons at Bensihu, five miles due east of Yental station. From the latter fact it would appear that the preparations for the Japanese advance are more backward than heretofore supposed.

The information received at the War office concerning the situation at Port Arthur is not reassuring. The blockade at last seems to be effective. Admiral Togo's ships are arresting all the junks which try to enter the harbor and are sending them to Port Dainy. It is feared that this complete isolation may react on the spirits of the garrison.

The report from Tien Tsin that a large force of Chinese bandits northwest of Mukden is preparing to cut the railroad is not taken seriously by the authorities here. Not the slightest doubt is entertained at the War office that the railroad guards will be quite able to protect the line. Un- McKinley suggested to allow the federal disciplined Chinese hordes, however, are numerous

Conditions at Port Arthur.

CHE FOO, Sept. 28.-10:30 p. m.-Russians residing here claim to have received information that the Japanese losses in the last assault on Port Arthur, which began September 19, were 7,000. A Chinese who left the fortress on September 25 says that the Russian losses were between 500 and 600. This Chinaman says that the Japanese were unable to remain in the three supplementary forts which they captured and that they retired at 4 o'clock on the afternoon of September 26 after enduring several days of tremendous firing from the inner forts. He adds that the Russians attempted to bury the dead of both sides at night, because the decomposing bodies seriously menace the health of the garrison. The Russians allege that it is the deliberate policy of the Japanese to undermine the health of the Russian greatness of their state. He paid his re- results, desires to test the value of the troops by means of the odors from the decomposing bodies, and that for this

reason they fire on the burial parties.

A resolution was introduced by Ferdicruiser of the Nitaka type, it is added, nand Shack of New York and adopted by the association, which expresses its deep gratification at the steps recently taken by CANNON TALKS IN THE RAIN the Interparliamentary union toward the settlement of controversies between nations

One Chinese, who was a member of a when he and other Chinese attempted about. to bury the dead. He adds that when the wind carries the odors toward the Japanese the latter retire.

Chinese say that the most severe attacks were made on the supplementary forts of the Itz and Anshu mountain forts. The Russians had undermined the ground and soveral hundred Japanese were blown up on September 23. Reports received from the Miaotao Islands mention a terrific report which shook the houses there on that dute.

The Russian ships, it is reported, took no part in the battle. From thirty to fifty shells fell daily in the Chinese new town. One shell tore the rudder from a torpedo boat destroyer. The Russians are now building a new fort

at Liaoti promontory bearing on the Island side. Its construction indicates that five large guns will form the nucleus of the battery.

Russians Pray for Victory.

MOSCOW, Sept. 28.-A great popular open-air prayer service was held here yesterday in the immense square fronting the Soukharoff tower, which was filled with devout crowds on bended knees praying for victory for the Russian arms. A resplendent marquee was erected at the foot of the tower, where clergy, in gorgeous vestments, celebrated a service of intercession amidst the singing of 1,000 choiristers.

Say Japanese Ships Are Sunk.

LONDON. Sept. 28 -A dispatch to a news agency from Vladivostok says that according to reports from Port Arthur the Japanose torpedo boats and a Japanese steamer have been sunk by mines ne Port Arthur

The Hon. Amos P. Atkins, who is one of the most prominent men in New Albany, Ind., and Treasurer of Floyd County, has this advice to give to those who are shut up within the narrow coufines of office or shop :

"Dr. Pierce's Golden Medical Discovery seems to take the place of hard training in developing strength, vigor and endurance of the system and expelling all impurities, with which the blood sometimes gets clogged. I have found by personal experi-ence that it enables me to do more hard work, and at the same time endure more physical strain and partake with greater vim in outdoor sports than anything I know of. It cau always be relied upon to Increase the appetite, induce healthful sleep, and tone and refresh a worn-out

system. "A number of my friends who have used it speak in the same high terms, and we have reason to consider it an office man's friend."

Dr. Pierce's Golden Medical Discovery is a blood - purifier and health - giving tonic that contains no alcohol, opium or other narcotic. It is a purely vegetable compound, made from roots and herbs in an up-to-date pharmaceutical laboratory, and has been used and recommended by thousands of people during the past thirty-seven years.

\$3,000 FORFEIT will be paid by the World's Dispensary Medical Asso-clation, Proprietors, Buffalo, N.Y., if they cannot show the original signature of the individual volunteering the above testimonial, and also of the writers of every testimonial among the thousands which they are constantly publishing, thus proving their genuinences.

He closed with an eloquent plea for the

Teacher Supposed to Be Negress.

CHICAGO, Sept. 28 .- Fifty boy pickets stationed about the MacAlister public school here prevented pupils from entering today. None of the pickets is more than 15 years old.

Outside the picket cordon a crowd of 700 boys and girls hooted and yelled at dent, Henry St. George-Tucke, of Lexingthe teachers looking from school windows. Every infant striker wore a badge to show that he or she belonged to a "union."

Some of the badges were morely scraps of paper with the word "union" scrawled across it. Others wore union buttons which their fathers had worn. Many of the strikers carried clubs. They threatened violence against any child daring to enter

the school yard. The picketing was the result of a "strike" which was caused by a mistaken belief of the children that an assistant kindergarten teacher was a negress.

After a detail of six policemen had been sent to the school to preserve order the "strike" was "settled." The committee appointed by the youthful "strikers" learned that the rumor of a colored teacher having been employed in the school was false. About 80 per cent of the strikers went back to their classes.

Truant officers began a search for the absentees.

TYPHOID FEVER EPIDEMIC Over Four Hundred Cases Reported in New York in the Past Three Weeks,

NEW YORK, Sept. 28 .- Greater New York is at present threatened with what may be the severest epidemic of typhoid fever in its history. For the three weeks just ended the total number of cases reported at the health department was 441. The fatalities number seventy-four, or a death rate of nearly 20 per cent. Last year during the worst month, that of October, the largest number of cases in New York was 324, and the highest death rate at any time during the year was 18.4 per cent.

The special committee on title and real ostate reported that it had not finished its work and asked to be continued an-other year. It was so ordered. The re-port of the special committee on the Louisiana Purchase exposition, relating to the arrangements completed preliminary to the convention of the association, was received and approved. A resolution was adopted tendering the thatks and appreciation of the association, the St. Louis Bar association, the board of lady managers and to the people of St. Louis for the hospitality extended during this session. Invitations for the next annual meeting were extended from Detroit, Mich., and

Proves a Pleasing Feature. A wave of enthusiasm which probably

has seldom been witnessed at an entertainment in Omaha swept through the galleries of the Auditorium like a conflagration yes terday afternoon and aroused the spectators to the wildest pitch of excitement. The matinee was by heavy odds the most interesting performance since the opening of the horse show for several reasons. It had more features than the preceding events. The numbers went off with greater dash. It was arranged better and th audience was the largest of the week.

Standing in the judges' box and looking up into the ocean of faces in the galleries of the great building it required no great stretch of the fancy to imagine what such a scene must have looked like viewed from the royal boxes during the chariot races and other sports at the Collseum of Rome. There were not so many expensive gowns present yesterday afternoon, but there was greater variety of bright colors. This human garden began at the gallery rails and pressed upward beyond the seats, because people had to stand up. More white dresses were worn and against this bank of white, tinted apparel appeared conspic us and in beautiful contrast.

In the decisions of the afternoon the judges had the galleries with them. Every announcement was received with a storm of cheers that swelled into a deafoning

oar of approval which sometimes drowned out the band. The commotion reached its height when the winners of the pony contests were announced. The noise rolled back and forth like the thunder of railroad trains and occasionally eased up until it resembled the patter of rain, to burst forth an instant later into another storm of approval. The applause began when the ponies appeared, and continued until the bugle sounded the retreat and the horses for the next number appeared in the arena

Another feature was the potato race for youngsters. There was no disguising the fact that this feature was the real thing. At times the event took on the appearance of a cavalry combat. As triumphant riders dashed across the arena their companions crossed sticks with them in the endeavor to knock off the coveted and impaled tuber It took considerable parrying and skillfu riding to escape the attack and save the

trophy. Another feature of the afternoon, alhough it was not by any means a pleasant me, was the rainstorm which set in while the final numbers were on. Few people ex. cept, perhaps, those nearest the roof, knew that it was raining owing to the commotion inside. It was not until the hurdle jumping contest was, over and people started for the entrances that they became aware of the storm. Richly appareled women with magnificent hats gathered their skirts about them and with pale, anxious faces looked into each other's eyes as if

listed much attention. It brought hearty applause. Mr. Ragan, the author, is a member of the Sioux City Tribune staff.

SUMMER COSTUMES ARE IN VOGUE

SUMMER COSTUMES ARE IN VOGUE Unwarranted Heat Interferes with Plans Laid for Horse Show. The fashionable women who have had much to wear seem not to have taken the possibility of warm weather into their cal-culation when their Horse Show gowns were ordered, and the warm afternoon and evening yesterday entirely upset the plans of many, and not a few airy summer frocks and silk shirt waist suits took the Magee.
