APOLOGIZES TO MR. GURNEY

Fine of British Secretary Who Violated Massachusetts State Law Remitted.

STATEMENT MADE BY GOVERNOR BATES

Question Never Raised Before in His State and Asks that Ambassador Be Informed of the Facts.

BOSTON, Sept. 29.—After allowing time for communications in the Phelps-Gurney case to reach Washington, Governor Bates has decided to await the receipt of public various letters bearing on the subject.

The Governor informed the State department that the judgment against Third Secretary Gurney of the British embassy had been vacated and the fines imposed are remitted.

Section 7—No automobile or motorcycle shall be run on any public highway or private way within the limits of a city or town or district at a speed exceeding ten miles an hour.

Mr. Gurney refused to plead to the charge and I thereupon ordered a plea of "not guilty" to be entered, which was done.

Mr. Gurney refused to plead to the charge and I thereupon ordered a plea of "not guilty" to be entered, which was done.

As executive of this Commonwealth I deeply regret that want of knowledge of the law of Massachusetts has resulted in the inferior courts with relation to the immunity of representatives of a foreign government.

While the incident is greatly to be deplored, I venture to suggest, as in some cases, that the representatives of foreign governments should be held responsible for any actions conducted themselves with such regard for the laws of the Commonwealth.

I suggest that the attention of the ambassador of his Britannic majesty be invited to the breach of law of this Commonwealth disclosed in the statement of Judge Phelps accompanying his letter, leaving that if his attention is called to it, he will take such action as may be necessary to insure that in the future his subjects shall not permit the safety of the Commonwealth to be imperiled.

The letter of Judge Phelps to Third Secretary Gurney follows: Third Secretary of His Britannic Majesty's Embassy, Lenox, Mass., Sir: I have the honor to acknowledge the receipt of your letter of the 26th instant, and to express my profound regret that through a misunderstanding of the law of Massachusetts you were held liable for the commission of a crime under the laws of that State.

I beg further to express my profound regret that anything should have occurred which may have seemed to be, though not in fact, a reflection on the British representative of the government of his Britannic majesty.
