COMMITTEES GO TO PANAMA Senator and Congressmen Propose to See Canal Site After Election.

(From a Staff Correspondent.) WASHINGTON, Oct. 1 .- (Special Telegram.)-Representative Hepburn of Iowa is in Washington to arrange for the trip of the interestate and foreign committees of the house to Panama soon after the elections. Sixteen out of seventeen members of the committee, including Burke of South Dakots, have decided to make the trip. The committee on commerce of the senate, which corresponds to the committee on the house side over which Colone! Hepburn presides, and of which William H. Frye of Main, president pro tem, is chairman, will also be largely represented, as will also the committee on interoceanic canals, of which Senator Hopkins of Illinois is chairman. Of the members of the interoceanic canals committee who have signified a desire to look over the canal soon, are Senators Millard of Omaha and Kittredge of South Dakota. It is proposed to use an army transport, which will start from one of the gulf ports. Mr. Hepburn stated that the trip was not to be a junket, as each member of the party will pay his own expenses.

The appointment of Stanwood H. Cosmey of Omaha as draftsman in the Indian bureau at \$1,500 per annum was announced today at the Interior department. Mr. Cosmey really took hold of his work in the department here several weeks ago, but not until today was his appointment announced officially. He was formerly inone of the railroad offices at Omaha and gained his government position through a civil service examination. Roy S. Ashton of Nebraska was today

promoted from a \$1,000 sierkship to \$1,200 per annum in the pension bureau. Howard Saxton, also of Nebraska, was promoted from the \$900 grade to \$1,000 a year in the pension office.

W. R. Pratt of Iowa has been appointed fourth assistant examiner in the patent office at \$1,200 a year.

Homer Smith, also of Iowa, was today promoted from \$1,100 to \$1,500 per annum. Major Howe, consul general at Antwerp, called at the White House today. An exceedingly pleasant incident attended his call on President Roosevelt. While Nebraska's able consular officer waited his turn to see the president, a member of the English parliament, Colonel Sir Howard Vincent of Sheffield came in. He saw Major Howe and rushed up to him with a pleased expression. What are you doing in America, con-

sul? I thought you were in Antwerp." "So I was until two months ago, when I obtained leave to visit my home," replied Mr. Howe,

Then the member from Sheffield, turning to Secretary Loeb and a dozen people in the office of the secretary to the president, said: "Major Howe, present consul general to Antwerp, is one man whom our people in Sheffield used to worship when he was stationed at that English post." Mr. Howe was visibly embarrassed, but

still could not object to so flattering a statement, especially from a prominent member of the English House of Commons Sir Howard Vincent is a protectionist and will deliver a speech to members of the American Tariff league in New York City next week. Mr. Howe's visit to the president was most agreeable. Nebraska politunately in expanding it forced one of tics being talked about as well as politics them off its foundation. But the owner generally, Mr. Howe will go to New York on Tuesday and expects to sail October 8 for his post, but may refer his return until later, as his leave is indefinite.

Pawnee Loses to Lincoln.

PAWNEE, Neb., Oct. 1.—(Special Telegram.)—In the foot ball game here this afternoon between the teams of Lincoln High school and Pawnee High school the former won by a score of 28 to 0. Lincoln did not win the game as a scrapout, but worked hard for every point made. Two touchdowns were made in the first haif. Twice Lincoln's man failed to kick goal. The Lincoln team averages about fifteen pounds heavier than the Pawnees, but several times they were held for downs. Lincoln's goal was never in danger and most of the playing was done in Pawnee's field. This was the first game of the season for Pawnee and on the whole was a very good game. GRAIN MEN ON THE WAR PATH

Assert Rock Island is Not Furnishing Cars te Move the Business.

FORMER NEBRASKAN GOES TO DES MOINES

Contest of Custodian of Ames College Grounds Settled by the Appointment of Senator Garat's Candidate. .

(From a Staff Correspondent.) DES MOINES, Oct. 1 .- (Special.)-If pres ent indications are fulfilled the near future will see a spirited fight between the grain shippers along the Rock Island and the ratiroad company. For weeks and months the company has been laying off men, reducing the forces and discarding operating fore's, always giving as the reason the general dull business of the season. At this time the conditions do not prevail, but the company is still short-handed and there are thirty-five trainloads of grain between Det Moines and Sibley waiting for the cars, to move it. The men owning the grain lave asked for cars and have

been unable to secure them. Dealers say that the same conditions prevall on the other branches of the road in this state and that they will appeal to the Railroad commission if matters are

not bettered in the near future. "The fact is," said a prominent grain buyer in this city today, "that the company is not working sufficient shop force to keep the rolling stock in repair. We have been going into the business and we find the yards in Des Moines and Valley Junction filled with bad order cars, while our agents report these cars in large numbers all along the lines. I do not believe it is an exaggeration to say that in this state the company has failed to deliver cars for the moving of 1,000 loads of freight in this state alone in the past six weeks.
