GRAIN AND PRODUCE MARKET

Wheat Weak, with Sharpest Decline in the December Delivery.

CROP SAFETY DISCOURAGES CORN BULLS

Large Reciepts, Disposition of Exporters to Hold Off and Liquidation of Long Lines Bear

OMAHA, October 6, 1904.

This was visiting day on the grain exchange over fity lows milers and a large number of farmers from Nebraska being on exchange. At the same time there was considerable business transacted both in cash grain and the futures. Values were lower all around in sympathy with the changed conditions for lower prices in the chief speculative markets. The wheat market has acquired a lassitude entirely foreign to the course of the last few weeks. Long are getting tired over the Indifference of the Exporters to the wheat and the former are holding back just as strongly for lower prices. The receipts are accumulating in a surprising manner at primary points and the longs disgusted with the tendency toward duliness are getting out, taking concessions. This is just as true of corn as it is of wheat. There may be a short crop of wheat and there are many who look for much higher prices than anything that has yet been quoted, but is an impossibility to convince the trade that there is anything the matter with the corn crop. The weather bureau may turn blue in the face with the chilliness of the frost and the dropping of the quicksilver in the Farenheit tubes, but the corn will not object nor will it shrink or shrivel before the chilly blast it is safe and far away from the possibilities of damage and there is practically a severe loss on the long corn held—more. over the farmers are dislodging an unusually large supply of old corn from some quarier and the offerings break values.

Liverpool was weak on corn and wheat. Shorts were indifferent as to the feelings of the bulls and pumped the cereals onto the market whenever hids were slightly raised. It is agood thing for the speculative market to have an evening up once in a while and to liquidate long grain. This is being done now.

In Omaha, May wheat was 2 cents lower; December was rathe firmer Corn was fractionally easier but there was some fractionally easier but there was some recovery, but at no time was there any great strength to the cereal.

The minister of agriculture o

Consols opened firm on investment prospects, but eased a fraction. Home rails suffered from realizations. Americans opened irregular and mostly slightly above parity, but afterwards became very firm, notably Afchison, Topeka & Santa Fe, Erie and Southern Pacific Operations were restricted in view of the feverishness of the New York market and prices eased later and closed quiet. Imperial Japanese government & of 1904 were quoted at 50%. BERLIN, Oct. & Business on the Bourse today was irregular, but prices were generally steady. Canadiar Farfic and Baltimore & Ohio were unifically active. PARIS, Oct. & The tone of the Bourse today was calm. Internationals had an upward tendency. Russian imperial 4y were quoted at 93.25, and Russian bonds of 1904 at 504.

CHICAGO GRAIN AND PROVISIONS

CHICAGO, Oct. 6.—Weakness of foreign grain markets and listes were causes of a break of 19489c in the price of wheat her today. The market closed aimout at the lowest point of the day. Corn is off 1949 in the price of wheat her today. The market closed aimout at the lowest point of the day. Corn is off 1949 in the market closed aimout at the lowest point of the day. Corn is off 1949 in the market closed aimout at the lowest point of the day. Corn is off 1949 in the market closed aimout at the lowest point of the day. Corn is off 1949 in the market closed aimout a condition, by comparison, of decided the price of the corn in the market of the previous days of this week and lassed into a condition, by comparison, of decided the price of the corn in the price of th

and Chicago reported receipts of \$78 cars, against \$61 cars last week and \$73 a year ago.

A fear that the government crop report, due Monday will indicate a big yield caused general liquidation of corn. An estimate made by a Cincinnti trade journal of 2,400,0000 bushels as the total yield was generally considered a faithful forecast of the official figures. The market was unable to resist the selling pressure and prices broke severely. December opened unchanged to be lower at 51c to 51@51½c, sold between 49½a and 51½a and closed at 49½c. Local receipts were 140 cars, with 7 of contract grade.

In sympathy with the weakness of other grains the oats market was subjected to considerable selling pressure. There was some demand from commission houses, but the buying was not sufficiently urgent to prevent a decline in prices. December opened unchanged to a shade lower at 31½@31½c to 31½c, sold off to 30½c and closed at the low point. Local receipts were 20 cars.

The decline in corn had a weakening influence on the provision market, but covering of January lard by shorts nearly offset this bear factor. At the close January pork was of 2½@5c at \$13.27½@13.30, lard was up 7½c at \$7.50, ribs were unchanged at \$4.50.

Estimated receipts for tomorrow: Wheat, 48 cars; coin, 78 cars; eats, 112 cars; hogs, 14,000 head.

The leading futures ranged as follows:
