WIDER MARKETS AND MORE CONSUMPTION

Purpose is to Send No Wheat Abroad, but Grind it Here and Let Flour Go for Export.

A special meeting of the lows Millers' club was held in Omaha Thursday, the purpose of which is to form a central organization with a view to ec-operating with the National Federation of Millers.

the Bemis Bag company. Prior to luncheon the visitors were invited to visit Commercial club building, which was availed of. The business session of the association is being held at the Bemis Bag company's establishment this afternoon and is executive in character,

Among the more conspicuous members at the meeting are President Charles Espenschied of the Millers' National federation of St. Louis and L. T. Jamme, secretary of the National federation of Chicago.

Purpose is Union. Speaking of the purposes of the meeting President Espenscheid sald: "The object of the meeting is to promote the welfare of the flour makers of the west through their affiliation with the national federation, to widen our markets and to encourage the consumption of wheat flour; to harmonize the differences which may arise between millers and flour buyers. We are in no sense a trust or combination to regulate the prices or output of flour. Our proceedings are open to the fullest publicity, The National Federation of Millers, as a body, represents 2,000 millers of the United States whose output is 400,000 barrels of flour daily, representing a consumption of 2,000,000 bushels of wheat each working day of the year. We are not here to undertake to promote any freight rates or reduce them. I may say we have hitherto succeeded in securing the same export rate for flour as has been exacted for wheat. Our slogan is 'Not a bushel of wheat for export, only flour for export.' What we wish to attain is that every bushel of wheat grown in the United States shall be ground into four in the United States, in order that our farmers may utilize the offal for dairy and feed

Stomach Paralysis

12 as Sloux City day at the fair.

Dyspepsia or Indigestion, properly named, is Paralysis of the Stomach. When you have water-brash, feel sick at the stomach, have gas or wind on it, or feel as though you had a ball or heavy weight in the pit of the stomach after eating, and the perves and muscles of that organ cease to act and digest your food, that stoppage in the process of digestion, to call it properly, is Paralysis of the Stomach, and should be treated as such. It is perfect folly to assist the stomach with dyspepsia remedies and stimulants to dissolve the undigested food. You may get relief, but at the next meal you suffer again. The proper treatment is to build up the worn out muscles and nerves of the stomach so that it can do its own work without assistance, and not only digest the food you eat to-day but tomorrow and forever after; as is done. by the use of Dr. Chase's Blood and Nerve Food and Liver Food, which have an immediate action on the nerves and muscles, that control digestion. The price of the Blood and Nerve Food, 50 cents; the Liver Food 25 cents. Book free,
