CINCINNATI IN THIRD PLACE

Final Game of the fesson and Good Weather Brings Out a Big Crowd-Second Shortened to Seven Innings.

ST. LOUIS, Oct. 9.-Cincinnati won both games from St. Louis today, shutting out the home team in each event. These victories give Cincinnati third place in the pennant race. The second game was shortened to seven innings by agreement. The winding up of the season and the fine weather brought out a crowd of 14,000. Score first game:

NEW YORK, Oct. 2.—George Arenta, jr., who was thrown from his machine at Queen's yesterday during the automobile race for the Vanderbilt cup, was somewhat better tonight than he was twenty-four hours ago when it seemed as though his death would be but a matter of a short time. A consultation of physicians resulted in the announcement that Mr. Arents was suffering from a fracture of the skull. He had several sinking spels during the night, but at 4 o clock this morning there was a slight reaction and although the gain has been slow it has been steady and Mr. Arents was in a semi-conscious condition tonight. His recovery is still somewhat uncertain, but those about him are hopeful. -Corrected Time of Race.

WOMEN'S GOLF CHAMPIONSHIP Eighty-Five Entries in Match Which

PHILADELPHIA, Oct. 3.—Elghty-five golfers will tee off tomorrow morning in the inneteen hole qualifying stroke play round in the competition for the women's championship of the United States on the links of the Merion Cricket club at Haverford. It will be an international championship tournament because Great Britain's champion, Miss Charlotte Dodd, will be on hand to measure strokes with some of the best women golfers in the country. General regret is expressed that the American title holder, Mrs. Bernard S. Horne, formerly Miss Bessle Anthony of Chicago, and Mrs. Charles S. Stout, formerly Miss Genevieve Hecker, a former national champion, will not take part in the tournament. Many of the contestants have been practicing at Haverford during the past week and familiarizing themselves with the links. Miss Dodd has been practicing there all of last week. Begins Today.

WHITE HOUSE. WASHINGTON, Sept. 24, 1904.—My Dear Sir: I have just been informed that you have won the President's match for the military championship of the United States of America. I wish to congratulate you in person and through you, not only the First regiment of the National Guard of New Jersey, but the entire National Guard of New Jersey. As a nation we must depend upon our volunteer soldier in time of trial; and, therefore, the members of the National Guard fill a high function of usefulness. Of course, a soldier who cannot shoot is a soldier who counts for very little in battle, and all credit is due to those who keep up the standard of marksmanship. I congratulate you both on your skill and upon your possession of the qualities of perseverance and determination in long practic; by which alone this skill could have been brought to its high point of development.

With all good wishes, believe me, sincerely yours, THEODORE ROOSEVELT.

It was forwarded to Mr. Gensch through General Bird W. Spencer, president of the National Rifle association. The President's match is shot for at 200, 300, 500, 600, 800 and 1,000 yards, and carries with it the military championship of America, a medal and a number of prizes. Private Gensch won the match with a score of 192 out of a possible 210 points. Promotion of Rifle Practice

A meeting of the National Board for the Promotion of Rifle Practice has been called for the 22d of this month. It will be held at the War department and a full attendance of the members is expected. The principal matters which will come before the board at this meeting will be the approval of the awards made at the recent shoot for the national trophy at Fort Riley, Kan., and the subject of what legislation will be sought for at the hands of congress during the coming session. At its last meeting the national board adopted a most comprehensive plan for the formation of a national marksman's reserve, including the encouragement of rifle practice in the state militia where necessary; in military and other schools, and among those individuals who may be called upon to serve in time of war. As a first step in this direction the national board desires an appropriation of \$1,000,000 per annum for five years to be expended under the direction of the secretary of war for the providing of ranges, their equipment and maintenance. The board desires that these ranges should be open to use by civilians on every holiday and Saturday and at other times when possible, of course, under appropriate regulations. As an inducement for rifle practice in the schools, the board proposes state championship badges and a national school trophy. recommending an annual appropriation of \$5,000 for the former and \$20,000 for the national trophy.

The national board has had this matter under consideration since its organization under the act of March 2, 1903, and for several years before that those who have been most actively identified with this project were engaged in mapping out the plans. At the coming meeting it is expected the national board will take up the question of legislation and a bill will be drafted to be presented to congress in December.

CAMPAIGN IS WARMING

People Throughout the State Just Beginning to Take Some Interest.

ONE MAN'S VIEW OF PRESENT OUTLOOK

Coming Session of Odd Fellows Will Decide Question of Permanent Home for the Order in State.

(From a Staff Correspondent.) LINCOLN, Oct. 9 .- (Special.)-During the last week reports received here indicate that some interest is being stirred up out in the state in political matters and that before election day rolls around the voters will begin to realize that a campaign is really on. This lack of interest noticed a few weeks ago is said to have been caused by the certainty that President Roosevelt would carry the state by from 50,000 to 65,000 plurality. This has taken all the ginger out of the presidential fight. Because of this fact it is not necessary for the republican leaders to carry on a campaign of educa tion, but merely to see to it that the republican vote is brought out.

Even in the race for state officers and for the legislature there is no brass band campaign being waged.

"Both the republicans and the fusionists are making their greatest fight for control of the legislature, and both are working quietly," said a prominent republican poli-"Neither side seems to be making tician. much of a fight on the state ticket, for so far as can be learned Governor Mickey seems to be the only republican nominee against whom the fusionists are concentrating at all. Inasmuch as their candidate, George W. Berge, cannot hope to secure the full democratic vote, it is generally conceded that this vote which will not go to Berge will offset any disaffected republican vote in the gubernatorial race. Consequently there is not enough fight in this race to make either side try to do any fine work.

"In Lancaster county the fusionists are trying to get some prominent business man or two to stand for the legislature, but so far without success. Joe Johnson, an erstwhile republican, is at the head of a movement of disaffected republicans who are working with the fusionists. The funny part of it is that Johnson is working on a platform of anti-railroad pass and antilobby. Johnson was turned down by Governor Mickey when he made application to be labor commissioner.

Congressmen Are Certain. 'As to the congressional fights, were the vote counted tomorrow the report received

indicate there would be a republican elected in every district, the only one in doubt being the Third, from which J. J. McCarthy halls. There is a fight in that district, but the leaders of the republican party there told Speaker Cannon during his recent trip through the district, that they had no fears of the result and they have promised him to return McCarthy to the house.

"As Speaker Cannon, at the conclusion of his tour of the congressional districts of the state, said, 'the only thing the republicans have to fear is overconfidence "For control of the legislature, however,

the republicans have no walkover. The revenue law is the basis for the fight and it is on this question that the fusionists hope to win. Every farmer and every business man whose taxes have been increased be cause of the law will be informed of his increase by the fusion leaders who have prepared a list of the men whose taxes have been increased, in every county. "To offset this claim of the fusionists.

Around the state house it is not known that the employes of the state committee are doing this, but nevertheless it is a fact that the man who has in the past turned in all his property to the assessor will have his taxes decreased under the new revenue law."

Permanent Home for Odd Fellows. At the meeting of the Odd Fellows here October 18 the question of selecting a permanent home for the lodge will be decided. Lincoln was proposed as the permanent home of the order last year, but as this requires an amendment to the constitution the matter was laid over for one year. As the\_committee has recommended Lincoln as a shitable place for the home it is believed the amendment will be carried at the coming meeting.

The meeting promises to be well attended. Swallow is Coming.

Lincoln is to be honored during this campaign by a visit from a presidential candidate. On the evening of October 27 Silas A. Swallow, the prohibition candidate for the highest office in the land, will deliver an address at the Auditorium in the interest of his candidacy. Arrangements are now being made by the state and local committees of the party to make this meeting the best that the prohibition candidate has had. An effort will be made to fill the Auditorium out of respect to the distinguished visitor and the effort probably will

More Work for Carriers.

The large number of apartment house that have recently begun to do business in Lincoln has made it necessary to either put on a larger force of mail carriers or to stop the delivery of mail to the various rooms in the houses. Postmaster Sizer, acting on the advice of the Washington authorities, has instructed his carriers that they are not required to deliver mail to the various rooms and in office buildings it is not necessary for them to go above the second floor where there is no elevator, Mr. Sizer has requested that letter boxes be placed in the lower halls of all apartment houses or that some one be delegated to take the mail from the carrier.

Mrs. Payne and members of the funeral party who accompanied the body from Washington took a farewell view of the departed at noon. At 3 o'clock the casket was placed in a hearse and under an escort of 200 letter carriers of the Milwaukee postoffice the procession moved to the church. The active pallbearers were eight letter carciers of the Milwaukee postoffice, who were employes at the time Mr. Payne was postmaster of Milwaukee. The honorary pallbearers included Secretary Paul Mor ton, Victor Metcalfe and James Wilson, States Senators Quarles and Spooner, Elmer Dover and Harry S. New.

Bishop Nicholson Officiates. A large delegation from Chicago post office, headed by Postmaster Coyne, was at the cathedral, as were delegations from various Milwaukee organizations with which Mr. Payne was connected. The funeral party was met at the church entrance by Bishop Nicholson, his assistants and a surpliced choir of forty voices, who preceded them to the chancel. The full Episcopal services for the dead were read by Bishop Nicholson. The services at the church over, the remains were replaced in the hearse and the funeral party, consisting of the family, Bishop Nicholson and the clergy and the honorary pallbearers and a few intimate friends, proceeded to Forest Home cemetery. The services at the grave were private.

Secretary Shaw Unable to Attend. Secretary of the Treasury Leslie M. Shaw arrived in Milwaukee this morning and left on an early afternoon train for Oswego, N. He accompanied Mrs, Payne and other members of the funeral party to the city hall at noon, when he looked upon the face of his dead colleague for the last time.

Secretaries Morton, Metcalfe and Wilson and other members of the Washington party, who remained for the ceremonies left on a special train for the east at ? o'clock tonight.

## CHILDREN TAKEN BACK EAST

Dr. Swayne Makes Statement About Attempt to Place New York Foundlings in Arisons.

ST. LOUIS, Oct. 9 .- Minus thirty-six of the fifty-seven children with which he came through St. Louis ten days ago, enroute to the southwest, Dr. M. Whitney Swayne, superintendent of the New York Foundling asylum, again passed through, this time bound for New York

Dr. Swayne denied in Union station, while awaiting a train, that any of the children were missing, but admitted his stay in Morenci, Ariz., had hardly been that which he anticipated. He said:

of our fathers, andamiliar with the community, had recommended that we place certain children in certain families. We had already established two "colonies" in Kansas and Arkansas, and had twenty-one children left. When about half of them had been placed in Morenci the unfitness of some of the families to raise children was brought to my attention and I at once started out to collect the babies, who range in years from 3 to 5. We soon had quite a crowd about our headquarters. Some of its members were those from whom I had taken the children and others were those who were attempting to dictate where the children should be placed.

They all presented a hostile appearance, and I thought it best to withdraw. As if to frighten me, they gathered about the coach in which we travel and flourished their guns. The children were not old enough to appreciate their danger and we had no panic. enough to appreciate their danger and we had no panic.

Some of the sisters were quite unstrung and we left as soon as possible. I am sure that we have record of all the children we took out and that none is unaccounted for. I shall take the remaining twenty-one to New York via Chicago and they will be placed in some other part of the country.

## WILD HORSES AS PLAYTHINGS

Fierce Bunch on Hand for Gleason Exhibition at Auditorium This Week.

A collection of wild and unruly horses, horses that shy at a street car, that jump over the dashboard every time they see an automobile, that run away because it is flatural with them and that do everything else that would make them undesirable companions-this is what Prof. O. R. Gleason, who opens a five-night series of exhibitions at 'the Auditorium Tuesday night, has been trying to get-and has got.

"Such miserable creatures are playmates or rather playthings to him," said Prof. Gleason's secretary. "He has got about the flercest collection on hand now that he ever has had and still he is ready to take any more treacherous animals that may came along. He'll take the worst one of these animals and make him as docile as a lamb, at least so any one can drive him. The horse that runs away when he sees an automobile will almost feel like hunting up the benzine buggles just to show them he isn't afraid of them."

Prof. Gleason has arranged for an automobile or two and a steam engine also, with which he proposes to try to scare some of his wild mustangs to death with

We believe in the money of the constitution. We do not bend in superstitious reverence to silver and gold. We believe that any currency which the government declares to be legal tender will be "sound money" as long as the government is declares to be legal tender will be "sound money" as long as the government is "sound." We have less fear that the government will ever issue too many paper dollars than we have that it will issue too many bonds. A government must govern, and the creation of money is a part of the soverigh power. The government must decide how many soldiers shall come to the flag; must decide how many battle-ships shall hold "the ocean lists against the sworld in mall." It is no more likely to make a mistake by issuing too much money than it is to make a worse mistake by calling too many breadwinners into the military service.

Public Ownership of Utilities.

Public Ownership of Ctilities

Public Ownership of Utilities.

The people's party favors the public ownership of public utilities. In nearly every civilized country the government owns the railways, the telegraphs and the telephones. The last two should be a part of our postoffice system, to which should be added the parcels-post, to free our people from the extortionate charges of the express companies. The people's party has always earnestly advocated the graduated income tax. This would not only throw the support of the government upon the rich, where it should be, but would, in a great measure, prevent the accumulation of huge, unnecessary and dangerous fortunes. We favor the eight-hour law, and the abolition of child labor in factories, where the unhealthy moral and physical conditions are almost certain to destroy the child. We believe it to be a part of a man's natural liberty and equality to labor for himself and not for a master, and that the laws should be so framed that there should be no monoppy of the land for either the living or the dead. Recently we have heard the insidious voice of those who tell us that "man is not born free." panies. The people's party has always carnestly advocated the graduated income tax. Recently we have heard the insidious voice of those who tell us that "man is not born free, but must earn his freedom." This persistent that they proved that the sentiments animating this letter are those which have controlled my life. I regret that my opportunities for doing work of that kind have been so few. Republicans and democrats united their votes to prevent me from serving more than one term in congress, even when the plainest evidence was presented of the frauds which deprived me of the clared that "The necessaries of life which the poor must have to live" should not be subjected to tariff tax, and that no man's

Generson, I am not whiting to change the creed at the dictation of Beimont, Pat Mc-Carren and Arthur Gorman.

Measured by the old standards of Jefferson, Jackson, Benton and Stephens, the party which calls itself democratic has no right to do so. It contains no democratic principles. It does not seek to accomplish any democratic purpose. It has no harmony of creed, no unity of action, no common legislative object. One and all, they would like to capture the offices; beyond that they do not agree upon any earthly subject.

In effect, the democratic party of today has no mission except to keep the people divided, in order that the corporations may have no substantial opposition. The republican party is one good horse; the

Whenever by voice or vote or deed I could be of service to those who were working in the cause of humanity, I have not failed to respond. The eight-hour law passed by congress had my hearty support. The official record will prove that I led the fight for the automatic car coupler bill against the corporation looby, led by Colonel Stahimar, or the Louisville & Nashville rallroad.

Against the resistance of Judge Hollman of Indiana, Mr. Loud or California and others, I passed through the house the first appropriation which this government ever made for the free delivery of mail to the people who live outside cities, towns and villages. That resolution, which was defeated on the first vote, but which I carried through on the second (February II, 1898), is the foundation of the present rural free delivery system which gives employment to 40,000 men, and which carries civilization to the remotest "neck of the woods." The farmers of America have seldom asked anything in the way of favors from the government; more seldom have they got anything even when they asked.
