HARRIMAN STILL ON TOP

Such is View of William R. Kelly, Who Returns From Meeting.

TALE OF GOULD DOMINATION DISCREDITED

While General Solicitor of Union Pacific Will Not Talk Speculatively, He Attaches no Importance to Report.

William R. Kelly, general solicitor for the Union Pacific, has returned from Salt Lake City, where he attended the annual meeting of the directors and stockholders. Mr. Kelly said that about 1,600,000 shares of the company were represented by proxy. The meeting of the stockholders of the Oregon Short Line was postponed. No reason was given for the postponement, but Mr. Kelly said no importance was attached to the action. Mr. Kelly would say nothing for publication regarding the stories to the effect that the Gould-Rockefeller combination had secured control of the Harriman lines. He attached no importance to the reports. It is pointed out that the mere fact that there was not in the meeting a full representation of stockholders and that the voting was all done by proxy is in itself assurance that there is nothing in the stories. Considerable Union Pacific stock has been bought in the open market and it has made good advances, but other leading stocks have done the same. The men on the board of directors of the Union Pacific, and who are known to be friendly to Rockefeller interests, it is asserted, are themselves men of great wealth and do not represent any combination of capital other than their own individual interests. It is asserted by those in a position to know that the situation with regard to the directorate of the Union Pacific is no different than it has been.

ous protests are being made against the reduction in the rate on sugar from Chicago to Missouri river points to 10 cents per 100 pounds. While every road has followed in the steps of the Great Western and Burlington in reducing the rate, Omaha jobbers are not making any loud plea for restoration of rates, for the reason that they were informed some weeks ago such a cut was probable, and have therefore been carrying just enough stock on hand to meet the demands from day to day. While the lead in cutting rail rates was taken by the Great Western and Burlington, the Mallory steamship line was the originator of the cut, making a great reduction in prices from New York to Galveston. Through the action of the Rock Island and Frisco system the Mallory cut was made effective in Missouri river markets. Then, in self-preservation, the western lines had to get busy. "It is to be hoped," said the head of a large grocery firm, "that the disturbance to general business and the uncertainty of rates for such a standard as sugar will soon end. I hope for a repeal of these rates by November 1 at the longest."

Rush on Settlers' Rates. No. 2, the westbound Burlington train which leaves the Omaha station at 4:55 p. m., left Thursday in two sections and will reach Denver in four sections. One section of the train starts from St. Louis and the other from St. Joseph. The two sections from Omaha had twelve coaches. The occasion for the rush is the settlers' rate of 25c to coast points. The rate expires on Saturday and people headed for California are taking advantage of the fact. This morning there was an unusually heavy sale of tickets and it was the intention to send out two more sections of No. 2. Chicago Great Western Terminals. It is expected the new freight terminals of the Chicago Great Western will be ready for use November 1. The depot building, which is located west of the Sixteenth street viaduct, is nearly finished, and it is believed will be ready for occupancy

at that time. A large force of men is still employed on the building and is rushing the work. The sidings and switches have not been begun and it probably will be some time before the grading can be done so that they can be put in place. Entrance to the yards will be gained at about Twenty-fourth street. A force of men is still engaged cutting away the bluff west of the freight depot and there is still much to be done at that end of the yards. Enormous piles also are to be made on each side of the depot near the viaduct.

BOND ORDINANCE DEFECTIVE

Measure Proposing Money for Sewers Calls for Issue This Year—New Ordinance Coming. It has been discovered that the ordinance proposing to submit the question of issuing \$300,000 sewer bonds to the voters calls for the issuance of the bonds in 1905. Inasmuch as the money will not be needed and cannot be used until 1905, it is said that to issue the bonds prematurely would result in the useless expenditure of from \$1,000 to \$2,000 in interest. The matter was called to the attention of Mayor Moore, who sanctioned the calling of a special meeting of the council to cancel the ordinance and to pass a new one. Special meetings, therefore, will be held this afternoon and Saturday morning in order that the mayor may get his proclamation into the hands of the printer before the 19th. The municipal electric light plant bonds as submitted must be issued in 1905 or 1906 and after the expiration of the latter year the authorization becomes void. Mayor Moore has signed this ordinance and expressed his satisfaction over the fact that the question is to be submitted directly to the people at last. President Nash of the Omaha Electric Light and Power company has gone east to confer with stockholders and officers of the company regarding the policy that will be adopted toward the proposed bond issue and municipal street lighting plant.

CAMPAIGN OPEN IN DOUGLAS

County and City Committees Establish Headquarters and Begin Work.

BIG MEETING IN SOUTH OMAHA BILLED

Chairman Burgess Comments on Letter From Democrats for Debate Between Erge and Governor Mickey.

Robert Cowell, chairman of the republican county and city committees, announced Friday that republican campaign headquarters will be opened today at 310 Farnam street in the Bee building. Mr. Cowell from now until the end of the campaign will give up his personal business and devote all his time to directing the work for the entire ticket. He and Secretary Tuttle will be at headquarters all the time. "I think I can promise as thorough and industrious a campaign as any ever conducted in this county," said Chairman Cowell. "We shall leave nothing undone to secure the election of every man on the ticket." Chairman Rigg of the state speakers' bureau has announced a big republican meeting for South Omaha on the night of October 20. It will be held in the Ancient Order of United Workmen temple. The principal speakers will be John L. Kennedy, republican nominee for congress from the Second district, Congressman Burkett of Lincoln, aspirant for United States senator. All the state and county candidates, with the possible exception of Governor Mickey, will be present. Chairman Burgess of the republican state committee has been asked what reply he would make to the letter of State Chairman Allen of the democratic committee challenging Governor Mickey to a joint debate with the fusion gubernatorial candidate, Erge, on state issues. "I have not received any such letter up to this time," said Mr. Burgess. "Until I have it in my possession I do not care to discuss it. No arrangements have been made for a reply. Personally, I would say, if the newspaper reports are correct, the alleged issues enumerated are not issues at all and there is no reason why they should be discussed by speakers."

clerk late Thursday afternoon. The county filings were made the day before, all as announced previously in The Bee. Contestants of the election had subsided.

LITTLE GIRLS AT CITY JAIL

Children Admit They Know Past Life and Mother Says She Cannot Control Them.

"They are two of the worst cases of juvenile depravity that have come under my notice," said Police Matron Anderson when speaking of the arrest of Ethel and Flora McLain, sisters, aged 11 and 12 years, respectively. On complaint of their mother,

Mrs. Ramge, 710 South Fourteenth street, the girls were arrested Thursday by Special Officer Parker and are charged at the city jail with incorrigibility. They are in the custody of Matron Anderson until their cases shall have been disposed of. The girls have been living with their mother and stepfather at the above number, and the mother says she cannot control her daughters. The girls probably will be placed in the Good Shepherd home. According to the statements of Mrs. Ramge to the police matron, the girls were not home for two weeks before they returned Thursday and were arrested. The mother said she did not know where they were, but had noticed they were going to the head at a rapid pace, and she had at

last resolved to take stringent measures to save them before it was too late. As soon as the sisters were given to the charge of the police matron she instructed them not to mingle with two disorderly women in the matron's department. "When I gave the sisters the instructions I was surprised to learn from their own lips that they guessed there was not much they did not know about a fast life, as they had been out with high school boys for the last two weeks. They would not tell me where they had been," said Mrs. Anderson. 18 K. Wedding Rings. Edholm, Jeweler. New Color Magazine with next Sunday's Bee.

GHIRARDELLI'S GROUND CHOCOLATE. The people who have to work need all the help they can get from the nerve tissues of body and brain. It doesn't matter whether you work with your head or with your hands, if your work is worth while doing, you require health and strength to do it. Ghirardelli's Ground Chocolate contains all the nutriment in the cocoa bean, (and cocoa outranks nearly every other food in nourishing value). And more than this, it has the strength and flavor of the best Breakfast Cocoa and the mellowness of sweet cake chocolate together with a delicious flavor of its own. It being in condensed form is stronger and more convenient than cake chocolate for beverages as well as baking. Lock for the patented hermetically sealed cans used only by Ghirardelli. All others are imitations. Made in California where its sale is double that of all other cocoas combined—a proof of its superiority.
