HIGHLY FASHIONABLE CLOTHING

Entire Sample Line Bought from a Rochester, N. Y., Manufacturer and Placed on Sale at About One-Half Its Genuine Value.

ROCHESTER CLOTHING is known from one end of the country to the other for its excellence. The suits and overcoats manufactured in that city are recognized of sterling merit. They can only be compared to high-class merchant tailoring. The terms of our private purchase forbid our mention of this particular Rochester firm, but the factory mark on the clothing will be readily recognized as a sign of excellence. It is only at the rarest intervals that such matchless clothing as this can ever be secured at a special price and this sale is a most unusual event.

No Store in America Was Ever Before Enabled to Make this Offer.
Men's \$18 \$20 and \$22.50 Overcoats and Suits at 12.50

The overcoats and suits that have been displayed in our show window from this stock have been admired by thousands—the styles are perfect in design—the materials are the best and most popular among good dressers—the workmanship is unexcelled.

Such suits and overcoats as these you would expect to pay \$18, \$20 and \$22 to buy—this clothing is a sample line and therefore shows the widest variety of style—you will find many that will appeal to your individual taste—Saturday at.....

BUSINESS STILL EXPANDS

Factories Make Contracts and Percentage of Idle Machinery Decreases.

LARGE DEMANDS FOR IRON AND STEEL

Retail and Wholesale Trade Better Than This Time Last Year—Increase in Railway Earnings.

NEW YORK, Oct. 14.—R. G. Dun & Co.'s Weekly Review of Trade will say: Business is slow but sure in the leading branches of manufacture, contracts being more readily placed for distant delivery, while the percentage of idle machinery steadily decreases. Satisfactory news from leading iron and steel centers tends to strengthen confidence elsewhere, as the consumption of iron has been found a good barometer of business conditions. Jobbing and wholesale trade in fall and winter wearing apparel expands gradually and such spring lines as are opened meet with a fairly satisfactory reception, considering the recent indisposition to provide for future requirements. At many points the return of warm weather checked the revival of retail trade in heavy goods, but as that movement had begun much earlier than usual, the net result thus far is better than last year. Building opera-

tions have expanded, at some cities establishing a noteworthy record for the month of September, and the permits recently issued promise well for the future. Labor is fairly well employed, according to the last official trades report, although the Fall River struggle has lingered longer than expected. Railway earnings in the first week of October were 6.9 per cent larger than in 1903.

All divisions of the iron and steel industry are making progress, tardy orders coming forward in greater number, and the aggregate tonnage is encouraging. More office buildings are being constructed, and the demand for steel is increasing. While the railways seek cars and other equipment with more interest than at any recent date, a big demand for agricultural implements is confidently anticipated. Exports of steel rails promise to be large and much foreign business is being negotiated. Little recovery has occurred as yet in the domestic demand for common goods, but export contracts cover shipments up to next May. Prices are firmly maintained. Woollens are the most active of the textile fabrics, shipments of men's wear going forward rapidly. Raw wool is in good demand at full prices. Recent large purchases of hides established prices in a firm position, but are followed by less activity.

BRADSTREET'S REVIEW OF TRADE
 Business Conditions as a Whole Show Improvement.

NEW YORK, Oct. 14.—Bradstreet's tomorrow will say: Despite irregularities, due to warm weather conditions or to reductions in crop movement, trade as a whole maintains a

satisfactory volume. Nothing of a boom character is to be noted, but many lines show gains over the corresponding period of 1903, confirmation of this being found best on record of September railway earnings and clearings cleared over last October's weekly totals. The underlying confidence is perhaps best shown by the increase noted in collections, reports as to which are better than for nearly two years past. The better than expected corn and wheat crop outputs, favored by exceptionally warm weather for this season, of the year, has induced freer buying from jobbers in the central west and northwest. Business is also better on the Pacific coast. This same warm weather, however, is a drawback to retail business, which needs the stimulus of sharp cold weather. Our foreign trade returns are irregular in that, while showing record common shipments for the season, our wheat export trade has practically disappeared, our flour trade has shrunk greatly and iron and steel exports show a shrinkage, but cattle, oil, copper, iron and steel and general manufactured exports show gains. Exports of leading agricultural products, despite the record shipments of cotton, are the smallest for nine months reported since 1897. The reports from leading industries are fully as good as recently made. Pig iron for foundry purposes is in especially good demand, and, in fact, all pig iron is stronger in tone and in better inquiry. In finished products the features are the improved demand for railway supplies and large orders for new cars reported. Hardware is active the country over. Domestic demand for anthracite coal is better as cold weather approaches, but manufacturing demand shows little change. Bituminous coal is reported selling better. Bituminous and steam coals are no longer oppressive. Lumber is active at the west but quiet at

the east. Copper is rather easier on reported withdrawal of export demand. Wheat, including flour, exports, week ending October 12, aggregate 1,377,175 bushels, against 1,023,110 last week, 2,362,610 this week last year, 2,240,038 in 1903 and 6,536,072 in 1901. From July 1 to date the exports of corn aggregate 4,947,550 bushels, against 15,240,661 in 1903, 1,484,182 in 1902 and 15,490,886 in 1901. Business failures in the United States for the week ending October 12 number 196, against 186 last week, 202 the like week in 1903, 203 in 1902, 188 in 1901 and 223 in 1900. In Canada failures for the week number 18, as against 19 last week and 17 in this week a year ago.

BUSINESS OF ASSOCIATED BANKS

Clearings of the Great Commercial Centers of Country.
 NEW YORK, Oct. 14.—The following table, compiled by Bradstreet, showing the bank clearings at the principal cities for the week ended October 13, with the percentage of increase and decrease as compared with the corresponding week last year:

Grand Island Man is Held.

Sherman Hinrichs of Grand Island, arraigned in police court on the charge of grand larceny, waived preliminary examination and was bound over to the district court on a bond of \$700. It was charged Hinrichs stole \$50 from the ill at the

Goos hotel, 110 Cass street, last Sunday evening. Hinrichs is said to have cashed a check for \$47 at a disorderly house, the check being part of the contents of the till. The prisoner has been employed at the Union Pacific shops and was a guest at the Goos for several months. He is said to have had but \$8 left when arrested.
