### Plain Business Talks ON BUILDING BRAINS FOR BUSINESS

No. 9. There are only a half dozen business colleges in the United States that have succeeded in meriting and attracting to themselves a patronage large enough to warrant the erection of a building to be used WHOLLY and SOLELY by the col-

Boyles College is one of the half dozen in the country. And it is the ONLY ONE in Nebraska. On December 1 we move into our large

college building, now being erected at Eighteenth and Harney streets. Every inch of the floor space of this building will be used by Boyles College. It will measure 105 feet in length and 66 feet in width, and will consist of two extra

high stories and basement. It will be a model business college building, for naturally we included every good feature of every business college building in the country and have added several new improvements.

This building ought to mean much to ness college. It will mean much to graduate from the only business college in Nebraska that owns and occupies a whole building.
