SCENE IN SUPREME COURT

Judge Ryan, on Behalf of Land Commissioner, Opposes Attorney General.

Supreme Court Practically Declares Ramsey Elevator Law Constitutional in Case Brought Under Terms of Act.

LINCOLN, Oct. 19 .- (Special Telegram.)-Both Attorney General Prout and Robert Ryan pulled off coups in the supreme court this morning and a mild sensation resulted. By stipulation Mr. Prout and M. F. Harrington secured the advancements. Boyd county land cases and of the hearing began this morning. At the co the arguments Judge Ryan, on behalf of Land Commissioner Follmer, asked permission to file an affidavit made by Mr. Folimer, the affidavit denying many of the allegations admitted by the demurrer filed by the attorney general.

Attorney General Prout strenususly ob jected to the interference of Mr. Follmer and Judge Ryan and made the statement that both of them had harassed him ever since the cases were started.

Judge Ryan replied that he asked permission to file the affidavit in order that the case could go before the court on a true record and in answer to a question from the judge said he did not believe that the state's interest was being looked after as it should be. In attempting to keep Judge Ryan out of the case Mr. Prout was ably assisted by M. F. Harrington.

The court agreed to read the affidavit, and this afternoon decide whether it should become a part of the record of the case. It is feared by Judge Ryan and Mr. Follmer that should the demurrer be sustained it will be overruled by the United States court, and the opinion would have great bearing on the cases now in the federal court. Mr. Ryan contends that the true record in the case is not before the court.

Contention of Follmer. In his affidavit Mr. Follmer, after discussing the school lands of the state involved and that the land upon which the defendants now live, was taken by the state from the general government in lieu of other lands, has this to may of the de-

Afflant is informed and believes that in that part of the answer demurred to there are incorrect statements of fact as follows: First, that the defendant is the holder of the equitable title and the state holds the legal title in trust only; second, that the defendant was in possession of and was a resident upon the land in dispute before the passage of the aforesaid act by congress and before its approval on March 3, 1893; third, that the United States of America has other lands of any value which can be substituted or which the United States is willing to convey in lieu of the lands in controversy if the state will release its claim to said lands to the defendant; fourth, there was never duly executed or delivered to the secretary of the interior of the United States in his official capacity a deed by which the title of the state was affected; fifth, that the averment of the answer "That the state of Nebraska has not title or interest in said land," is false and that if this case is decided on a general dements to be true the state of Nebraska will have a trial on the merits or on the facts as they exist.

This afflant further says that the state

have a trial on the merits or on the facts as they exist.

This affiant further says that the state by demurring to the second defense in the answer fulls to present and take any sowantage of the fact that the defendant has appealed to the secretary of the interior of the United States of America from the ruling denying him the right to make a homestead entry and filing on the land in controversy and that by said appeals the ruling of the local land office was sussissed.

Heart says that if the demurrer to the sond defense in the answer in its present idition shall be sustained there may issue condition shall be sustained there may issue from the supreme court of the United States a writ of error to review the ruling of this court and that by reason of the general demurrer conceding that the defendant was a resident upon and in possession of the land in controversy for the purpose of making a homestead filing before the above act of congress in relation to the Fort Randail military reservation was approved there will be presented in the supreme court of the United States the proper construction and application of the provisions of said act to false issues; other and material issues being omitted entirely whereby defendant will have a decided and unfair advantage compared with what he is entitled to if the facts are properly presented to, and passed upon, by this court.

Affiant therefore, as an officer of the state of Nebraska, especially charged by the constitution and statutes of said state with the duty of caring for, protecting and lessing the school lands of the rights of the said state as to school lands claimed by it on false and insufficient issues.

THE VALUE OF CHARCOAL

Charcoal aweetens the breath after smoking, drinking or after eating onlone or other odorous vegetables.

Charcoal effectually clears and improves the complexsion, it whitens the teeth and further acts as a natural and iminently safs cathartic. It absorbs the injurious gases which

collect in the stomach and bowels; it disinfects the mouth and throat from the poison catarrh. All druggist sell charcoal in one form of another, but probably the best charcoal and the most for the money is in Stuart's

Charcoal Lezenges; they are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey. The daily use of these lozenges will soon

tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal, says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but 25 cents a box at drug stores, and although in some sense a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

a watch, a sewing machine, a plane or an organ, whose taxes have been decreased by the workings of the new law. This is shown by the records on file in the auditor's office.

The cattle returned this year number 2,857,559, or an increase in the number over last year of 544,064 head. The assessment of these cattle this year was \$9,994,990. while last year, with the number considerably less, the assessment was \$10,336,825, or a decrease in the valuation under the new law of \$341,835. This decrease in the valuation is due to a decrease in the average value per head. Last year every head of cattle in the state, taken on an average, was valued at \$4.46, while this year under the new revenue law the average value a head of cattle the state over was \$3.49 and a fraction, a decrease of 97 cents a head under the "iniquitous" revenue law.

As shown by the records in the auditor' office there were 2,140,416 head of hogs renumber over last year of 697,326 head. The total assessment this year was \$2,358,738, while last year the assessment was \$1,870,-162. The average assessment per head this year though was \$1.10, while last year the assessment was \$1.29 per head, or a decrease under the "iniquitous" revenue law of 19 cents a head.

The same decrease is shown in the valuation of many other items of personal property showing that the uncovering of much personal property that has not heretyfore been assessed is accountable for the increase in total valuations. Sheep last year were assessed at 56 cents, and this year at 50 cents; watches last year were assessed at \$1.69, and this year at \$1.34; carwere assessed at \$9.40, and this year at \$13.66.

In the meantime money and credits, etc., were assessed under the new law 317 per cent more than last year.

The accident occurred during a flerce thunder and lightning and rainstorm that passed over the city about 4 o'clock, which was of short duration so far as the electrical feature was concerned The temperature fell considerably during the night and this morning the first snow of the season fell, though it melted as quickly as it reached the ground.

Settlers Go to the Rosebud. NORFOLK, Neb., Oct. 19 .- (Special.) -- Another influx of people toward the Rosebud reservation has begun. It is not a repetition of the rush which took place last summer, but the trains between Norfolk and Bonesteel are just about as long. It is a soberer lot of settlers, however, moving in. This time they are people in earnest, who are going to the Rosebud not as a gambling lark, but for seriously settling and proving upon the claims which they drew from Uncle Sam.

Owing to the fact that the moving on, according to law, will come in the dead of a Dakota winter, those persons who drew are making every possible preparation ahead of time, in order that when the time comes for living there they will have comfortable quarters to occupy. Houses are sprouting

A charming autumn wedding was solemn ized at All Saints' church last evening at 8:30 o'clock, that of Miss Lucy Gore, niece of Mr. and Mrs. John S. Brady, and Mr. Benjamin W. Owing to a recent bereavement in Mr. Cotton's family, much of the formality incidental to the fashionable church wedding was eliminated. The guests were bidden by verbal invitation and aside from the ever impressive ceremony of the Episcopa! church, it was most simple. Asparagus fern, cosmos and autumn flowers were employed in the decoration of the chancel, the body of the church being unadorned. DOCTORS PAY COMMISSIONS

Chicago Medical Society Wrought Up Over Alleged Attempt to Buy Patients.

CHICAGO, Oct. 18 .- (Special.)-At the ext meeting of the Chicago Medical society an investigation will probably be ordered of the alleged practice of certain Chicago physicians paying commissions to doctors at a distance for sending them patients. A letter signed "J. C. Evans, M. D.," was recently sent to 100 city physicians stating that "Dr. Evans" had a wealthy patient whom he was anxious, for a consideration. to send to Chicago for special treatment, and that the receiver of the letter might have the case if he were willing to pay the commission. It now transpires that 'Dr. Evans" is a fictitious individual. Eighteen of the physicians addressed responded favorably, and this will form the basis of the proposed investigation. There is a strong disposition on the part of the profession to put an end to practices which are contrary to professional ethics. One physician who received "Dr. Evans" communication indignantly declared that it was "a direct insult," and another wrote "Dr. Evans" that he would better be "a ward-'heeler'.'

Meeting Postponed.

The meeting of the household economics department of the Woman's club, to have been held today, has been postponed until host of friends. Mr. Cotton is the son of home of the bride's mother, Mrs. Emma next Thursday morning at 10 o'clock.

Straight Talk.

in EVERYBODY'S MAGAZINE for November MR. THOS. W. LAWSON tell- how George Westinghouse, a world giant, fought the "System" to a standstill, and how President Roosevelt kicked "Standard Oil" out of the White House. The description of his meeting with Henry H. Rogers deserves a place in literature.

We wish you to compare the November EVERYBODY'S with any magazine published. Read HALL CAINE'S greatest Story "THE PRODIGAL SON." Read in "NEW FIGHTING MACHINES" how Americans are supreme in devilish ingenuity. Read EUGENE WOOD'S joyous satire, full of sense on "IS BATHING GOOD FOR US?" Look at the beautiful sketches of Washington by VERNON HOWE BAILEY.

Read the bright short story, "SOUVENIR NIGHT," of a bachelor destroying the souvenirs of his many courtships before his wedding day. Look at the stage beauties and the portraits of the people who are doing interesting things. Read "Straight Talk," edited by our readers. Read our modest department "With Everybody's Publishers." Read the short stories by HARTLEY DAVIS and "CHE BUONO."

Read-well, read the whole magazine and you will find it the best ten cent general magazine in the world, with MR. LAWSON'S article thrown in for good measure.

The Publishers of EVERYBODY'S MAGAZINE take this method of expressing their sincere gratitude to the public for the wonderful appreciation with which their efforts have been rewarded.

The November number of EVERYBODY'S MAGAZINE, out October 20, is sold on all news stands unless sold out.
