of Promising Dogs, Will Be Taken Up.

FRIEND, Neb., Oct. Z .- (Special Telegram.)-The heavy wind today made the racing uncomfortable for the visitors. In the enclosure both dogs and hares ran with the wind, and were not affected by the gale. The attendance was greater than that of yesterday, and the interest was greatly increased as the races proceeded, indicating that better pairs of dogs and those who understood the work better were chasing the ares, yet a goodly number of these safely made the escape. The second round in the futurity was run, with the following result:

HARNESS RACES AT MEMPHIS Two World's Record Broken by Teams

Driven by Mr. Billings. MEMPHIS, Oct. 21.—Two world's records were broken today at Memphis Driving park. C. K. G. Billings of Chicago was the driver in each event. Prince Direct and Morning Star, driven to pole, lowered the pacing record to pole for half a mile of 13014 by stepping the distance in 13024. The Monk and Equity to pole were sent sgainst the trotting record to pole of 2:08, held by them, and rounded the course in 25074.

A high wind was blowing up the stretch, which prevented Dan Patch, Major Delmar and Charley Mac from being sent against time, as scheduled.

After finishing the half in their attempt against the record, Prince Direct and Morning Star were continued around the course, rounding out the mile in 2:05½, unofficial, which equals the pole record for that distance held by Prince Direct and Direct Hal. Sweet Marie easily won the 2:06 trot in straight heats.

In the 2:11 trot, mile dash, The Questor finished first, but the judges placed him in third position for repeated breaking on the back stretch. Summaries:

BELLEVUE AND CREIGHTON TODAY

Two College Teams Meet on Gridiron

Two College Teams Meet on Gridiron at Vinton Street Grounds.

The local foot ball attraction at Vinton Street park today will be the game between Creighton and Bellevue colleges. Both teams have been practicing hard during the week, and though Bellevue has some new material in its ranks. Its supporters say Creighton will have to hustle some to avoid coming out at the tail end of the score. Donahue, who played fullback in the Creighton-Nebraska game, will play right halfback and Lundgren will play fullback. Thorne, who was injured last Saturday, is not playing for Creighton, his place being taken by Rogers. The following is the lineup:

NEW YORK, Oct. 21 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

week, while the feeling of optimism regard-ing the future is becoming general, with its customary disposition to discount comweek, while the feeling of optimism regarding the luture is becoming general. With its customary disposition to discount commercial prosperity wan street has litted the average price of the sixty most active railway shares above par for the first time since May of last year. Manufacturing plants steadily increase output, a particularly gratifying feature of the week being the late to innage of steel purchased by the railways and the advanced prices for pig iron suggest that the depression in that industry has run its course. Textile milis are doing more work, even the New England cotion centers reporting less procrastination among buyers, which is the more moteworthy because the new contracts were placed at a time when the raw material was deciling. Ship yards are more fully ergaged and structural work begins to assume normal proportions. Jobbing and wholesale trade in spring goods makes a better comparison with last year's volume and current retail distribution of merchandise is increasing. Payments are still somewhat irregular, yet there are comparatively fow complaints. Foreign trade at this port for the last week shows a gain of \$1,150,255 in imports over those of the same week in 1903, but a loss of \$1,148,275 in exports. A few freight blockades have occurred and traffic is very heavy in some sections, while all railways reporting for the first haif of October show an average gain of \$5 per cent over last year's earnings.

Revival of interest in finished steel and practically all departments of the iron industry has come so suddenly as to excite particular comment, although it is not surprising, considering the enormous tonnage for so many months, held back alone by the caution of buyers, who wanted to be certain that the market would go no lower. This new business is found practically in every department, notably those pertaining to the railways.

Hides have attained a still stronger position, large bales of branded cows giving holders the desired advance, and there is a wholesome demand at leading leathe

shipment.

Conditions are steadily growing more satisfactory at the woolen mills, except for the great strength of the raw material and all sections of this industry are in sound Failures this week numbered 215 in the United States, against 279 last year, and 39 in Canada, compared with 26 a year ago.

BRADSTREET'S REVIEW OF TRADE Good Feeling Dominates the Optional Trade Situation.

NEW YORK, Oct. 21.—Bradstreet's tomorrow will say. Good feeling. In some instances closely approaching optimism, dominates the optional trade situation, but the undertone is withal one of conservatism and there is a general desire to avoid over-trading. Past reports of good wholesale trade are reflected in an increased speeding of the wheels of industry, but except in portions of the west and southwest, where cool weather has helped retail distribution and in the south, where good prices for cotton induce free marketing of the crop, there is a disposition to restrict buying to present needs. Railway earnings turned the corner in August, the roads of the country showing a gain of a fraction of 1 per cent in gross and of 5 per cent in net over 1903. Collections have continued to hold the improvement noted last week, being especially good at the south.

Jobbing demand the country over is most active in staples, such as groceries, shoes, clothing, hardware and similar lines. A better demand for pig iron noted last week has gained in strength and has been reflected in further advances in prices. Finished material does not show as much activity, but the railways are buying material quite freely. Hardware is active in all lines and nails are seiling freely. The other metals are all stronger, copper, tin and lead being fractionally higher. There NEW YORK, Oct. 21.-Bradstreet's to-

The tendency of the cotton market is downward. The markets for other raw textiles, such as hemp, flax, wool and raw silk, are all strong and tend upward. At the east the strength of the wool market is notable.

OBJECTION TO FREE BOOKS Archbishop Glennon Issues a Letter

Opposing Proposed Change in

Missouri State Law.

ST. LOUIS, Oct. 21.-Most Rev. John Joseph Glennon, archbishop of the Catholic diocese of St. Louis, today issued a circular letter protesting against the passage of an amendment to be voted on at the coming election, providing for free textbooks for public school children. The letter states in part:

States in part:

Such an act, if put into operation, is extravagant, because all unnnecessary taxation is extravagant. Neither is it based on equity, because it will not apply to all the children that are being educated, but only to those who attend certain schools. It is dangerous because it is another step toward sociolism, implying, as a logical sequence, the giving later on of free clothes and free food.

Now, I submitthat such an order of things might be proper for a penitentiary, but not for a free people, especially one whose antecedents have made for the building of a healthy individuality and who deamed taxation without necessity and representation as unjustifiable and criminal. I am of the opinion that for these and many other reasons the amendment ought to be rejected.

In speaking of his letter Archbishop Glen-

In speaking of his letter Archbishop Glennon said today:

The sooner a consistent and determined stand is taken against measures, whose cloak of patriotism covers their real oppressive character, the better it will be for the tax paying public. This is not a political issue, nor is it one of religion, it is simply one of justice.

do not treat all diseases, but limit their practice strictly to diseases and weaknesses peculiar to men. To this class of diseases alone we have carnestly devoted all our professional life, and on them all our faculties are centered. Years of study and practical experience and thousands of dollars spent in researches and scientific investigations have taught us the secret of restoring perfect sexual strength and vigor.

A disease or weakness that robs a man of his spirit, ambition and force, should not be considered a trifling ailment. This trouble may be primarily induced from a variety of causes, such as debasing habits, excesses, overwork, dissipations, etc. The victim of weakness generally knows the cause. Loss of power gradually develops. Occasional weakness is usually the first sign of failing powers. The man who stops the cause and begins proper treatment then is restored so quickly by our method that he does not appreciate what he has avoided. Deferring an active and energetic course of treatment means greater weakness, leading to Nervo-Sexual Debility, night losses and day drains, atrophied organs and eventu in a complete loss of vitality. The evit results are both physical and mental. Private diseases or weaknesses when nestected or improperly treated have been the means of blighting the most radiant hopes, rendering marriage unhappy and business a fallure. If you are afflicted with any of these baneful, body-destroying, soul-blighting diseases or weaknesses, so prevalent among men, come to us and we will make a thorough and selentific examination of your aliment; an examination that will disclose your true physical condition, without a knowledge of which you are groping in the dark and without a thorough understanding of which no physician or specialist should be allowed to treat you.
