Pooling with Automobiles.

For the last three or four years we have been "pooling around" with automobiles for our own amusement.

We have paid rather close attention to the safe business and have sold quite many—more bank safes than any other safe dealer in the United States.

We think we would rather like the automobile business and wish to announce that we have now the agency for the best American cars in their class.

By November 1 we will have a full line of sample cars to show to prospective buyers.
