ASKS A GREATER DIVIDEND

Pay Five Per Cent Now.

NO NEED TO KEEP LARGE RESERVE FUND

Points Out How He Thinks the Amount Necessary to Meet His Recommendation Can Be

Attorney J. J. Stewart, to whom the last report of Receivers Beresheim and Mur-phy of the Officer & Pusey bank was referred by Judge Macy of the district court for examination by him, yesterday filed a motion asking that the court order the receivers to pay a dividend of 5 per cent instead of 3 per cent, as recommended by

In making this application, Attorney estate of the late Thomas Officer, senior member of the defunct banking firm, states that his examination of the report leads him to the opinion that the funds in the hands of the receivers are ample to pay believes it unnecessary to retain a large balance in the hands of the receivers, and

The report of the receivers, filed recently when they asked for an order authorizing the payment of a dividend of 3 per cant, showed they had \$28,639.57 on hand. To this Mr. Stewart states there should be added the balance due from Leonard Ever- ber of school children in each follows: ett on sale of real estate, which can be collected at any time, \$1,500, making the sum available \$30,139.67. From this must be deducted, according to Mr. Stewart's figures, \$570.47 still due on former dividends, leaving the net amount available for payment of a 5 per cent dividend \$29,369.10.

Resourses and Linbilities. The total liabilities of the bank after deducting preferred claims, etc., was \$569,-682.69 and a 5 per cent dividend on this amount would be \$28,484.14. Deducting the 5 per cent dividend from the \$29,569.10 would leave a balance of \$1,084.96 in the hands of

In addition Mr. Stewart shows that there are other available assets certain to be realized as follows: Collection, E. A. Wickham. \$1,000; real estate, \$10,240, this estimate being \$2,700 less than the appraised value; due on good bills receivable, \$1,200, making a total of \$13,524.96, which the recelvers can make available at short no-

In addition to this, Mr. Stewart says that the administrator of the estate of the late W. H. M. Pusey has \$1,600 which, less a small amount for the expenses of administration, he is prepared to turn over to the receivers on order of the court. With this sum the total amount which could be soon in the hands of the receivers after paying the 5 per cent dividend would be \$15,125.96, which would be ample to meet all possible indebtedness of the estate.

that one of the receivers was paid \$1,000 in

In making these calculations Attorne Stewart states that all doubtful assets have been omitted and the value of the real estate still unsold reduced \$2,700 below the figures of the appraisers and that only good saleable real estate and personalty, which are certain to be realized on by the

Judge Macy took the recommendation of Attorney Stewart under advisement and is expected to make an order today.

> SCHOOL FUND APPORTIONMENT Pottawattamie County Receives Over Eight Thousand Dollars.

County Auditor Innes yesterday made the semi-annual apportionment of the school fund. The amount which will be distrubuted is \$5,314.51, which is 49 cents for each child of school age in the county. The \$8,314.81 is made up as follows: Interest on permanent school fund loans. \$2,410.61; regular school tax levy of one mill, \$5,798.90; fines in justice and district ourts, \$105.30.

In the state of Iowa this year there are 721,470 children of school age, of whom 16,969 are in Pottawattamie county. The amount of the permanent school fund, which was derived from the sale of lands years ago, is \$4,755,519.85 and the semiannual interest on this amounted to Stewart, who is also administrator of the 066.15. Pottawattamie county has \$54,405.69 of the permanent school fund which it has loaned out in this county, but the interest made by this county fell short by \$511.48 of its apportionment and this was made up by the state from the interthe larger dividend. He states that he est earned in excess of their apportionment by other countles.

Three countles in the state, Clinton, as the creditors of the bank have waited Lynn and Scott, have not a dollar of four years for their money, there should the permanent school fund to lean out, be the largest dividend possible paid at but they nevertheless receive their apthis time, while protecting the interests of portionment of the interest. STATE BOARD TO PASS ON EXAMINATIONS

Dedication of lows Monument a Mission Ridge Postponed on Account of Accident to Shaft.

(From a Staff Correspondent.) DES MOINES, Oct. 25.-(Special.)-The educators of Iowa have started a movement to bring about a complete reform in the manner of issuing teachers' certificates and conducting examinations, and State Superintendent J. F. Riggs will present the matter to the convention of the teachers of southwestern Iowa at Red Oak at the meeting next week for the approval of that body. The teachers at the convention held in Dubuque passed resolutions indorsing the movement, and it was favorably received at the meetings held in the other two corners of the state. It will also go before the State association at the meeting here next December, after which it is believed the measure can be got through the legislature. The plan is to have the teachers' certificates uniform and good throughout the state and to have the scholastic test for the teachers entirely by the State Educational board. The questions for the scholastic test are now prepared by the State board, but they are placed in the hands of county superintendents, who do the rest. Now it is proposed to have the examination papers returned and all be subject to examination 4,331, has the largest amount of the fund by the State board, so that the work will be entirely removed from all local and po-The apportionment among the school litical influences. Superintendent Riggs urged a bill to effect this before the last legislature. He contends that it would greatly increase the efficiency of teachers and raise the standard in the state. This would have the effect of compelling the districts to pay better wages, for the teachers would be more difficult to get. The fact that the teachers could go into any county of the state with their certificates would also be an advantage to them. "I want to see the time in Iowa," he says, "and I hope to see it very soon, when the strong, successful teacher can demand

Troubles of Fort Dodge Road. Attorneys for the Rock Island railroad are all out of the city and but little can stockholders of the Des Moines & Fort Dodge road against the Rock Island to re- guishing a blaze that threatened destruccover unpaid amounts alleged to be due tion to a \$14,000 building. The loss will not on account of the old contract and lease. It is asserted, however, that there is nothing new in the disclosures regarding the voting of the bonds of the company, as hese bonds were expressly given a vote the same as stock and have always been voted at the meetings held here. The con trol of the road passed to the Hooley syn dicate some years ago and there has been no effort on the part of the Rock Island to regain control. Rock Island interests control the bonds. It is not anticipated here that the threatened suit will in any way affect the status of the road.

The supreme court today decided a case in which the late James Callanan was much interested. He owned land on Tenth street and a street was cut through it, leaving him with narrow lots on either side, only eight feet wide. The cost of a sewer was assessed against this property by the front foot rule, and as the sewer cost more than the property was worth the contractor was given personal judgment against Mr Callanan for the excess of cost. The court today declared this illegal and in violation of the constitution as confiscating property.

EPISCOPAL CONVENTION ENDS

Bishop Potter Reads the Pastoral Letter to the Church at Large.

REVIEW OF THE WORK ACCOMPLISHED

Chief Features Are New Divorce Canon. Courts of Appeal and Arrangements for More Efficient Mission Work.

BOSTON, Oct. 25.-The triennial general onference of the Episcopal church, which has been in session here since October 5. was ended late today with a public service Trinity church. From the pulpit Bishop Henry C. Potter of New York read pastoral letter addressed to the church at large. The communication, which consisted of more than 3,000 words, considered the problems now before the country, Regarding divorce, the pastoral said that the facility with which the marriage relation may be taken on and put off is one of te menaces of American civilization, to the possible perils of which Christian people are as yet very imperfectly aroused. The letter made a plea for the permanence and security of the family. It also discussed the negro problem, stating that the church was taking steps to correct the sit-

tions were dealt with. Little business of importance was transacted at the final business session. A resolution permitting foreign congregations now in communion with the church to dreams, insomnia, undue sieepiessness, use forms of service in their own tongue was adopted after a sharp contest. This legislation was enacted for the benefit of

the Swedish congregations in Minnesota. New Canon on Divorce, The chief feature of the three weeks' convention, aside from the visit of the archbishop of Canterbury, were the discussions bearing on marriage and divorce Although a majority favored a canon which would prohibit the remarriage of any divorced person, the system of voting by dioceses and orders in the house of deputies enabled the opponents of the promuch discussion a compromise was arranged with the bishops whereby the innocent party la a divorce for infidelity is permitted to remarry one year after the divorce is issued, but the restrictions are so stringent that it becomes exceedingly difficult for such marriages to be solemnized.

The convention also decided to establish courts of review to which appeals from occean trials can be taken. It perfected such arrangements that the missionary work of the church will be carried on with more vigor and appointed a joint com-

is the south. Among the many negative actions taker was the decision not to change the name of the church at this time nor to act on the proposition to group the dioceses into provinces with a primate at the head of

mission to investigate the negro problem

The next convention will be held in Rich mond, Va., in 1867.
