PREPARING FOR GAME WITH GOPHERS

Nebraska's Men Will Be Light, but Are Now Trying Tricks to Meet Opponents' Offensive Work.

LINCOLN, Oct. 26 .- (Special.) -- Coach Booth is putting on the finishing touches of Nebraska's preparations for the Minacsota game next Saturday behind closed gates. Secret practice is the order and only a chosen few are permitted to enter the enclosure. Guards patrol the outer fence, but in spite of their vigilance one spectator secured entrance by a bit of strategy which baffled Booth and his assistants in solving the mystery of how he worked his way in. The stranger declared that he was taking law in Nebraska, but hailed from Kansas. His confusion, however, was so apparent that he beat a hasty retreat, and Booth now suspects the presence of a spy, for a rigid inquiry disclosed that the man is not known in the university. Since the episode the watch has been doubled and only a written permit from Manager Davis

is recognized. holes and chinks in the fence is to the effect that Booth is drilling his pupils as never before in the tricks of detensive play. Looth has had visions of the mighty Gophers charging around or through the Cornhuskers line, and he is striving desperately to teach his Cornhuskers how to spear a Gopher and thus dispel the dream. To break up these formations is the object of the 'varsity, and so far they have had quite satisfactory success. Practically every minute of the practice is being devoted daily to testing the 'varsity defense and marked improvement is being a own. Naturally, the offense of the scrubs is not to be compared with the attack of the Gophers, but the 'varsity is charging the shifts and time: 1:49%.

fingly bolstered the 'varvity line to a marked forgree. Hunter is showing such aggressiveness that already he threatens to supersede Barta or Mills at one of the guard positions. Booth is now figuring upon using Hunter to lug the ball when on the offensive by switching him with one of the halfbacks. Cotton, another husky Lorman, will probably alternate with Hunter in this phase of the Nebraska attack.

#### CHARGE AGAINST FINANCIER

President Perry of Chicago Bank Accused of Setting Fire to Car Plant.

STATEMENT OF CORPORATION COUNSEL

Evidence Tends to Show that Factor; Was Over Insured-Banker Says He is Victim of Conspiracy.

CHICAGO, Oct. 26.-A mysterious fire at the plant of the Chicago Car and Locomotive company's plant at Hegewisch, Ill., has become the subject of a many-sided investigation, with sensational results. Corporation Counsel E. B. Tolman of the city law department today gave out a statement which says:

The evidence shows beyond any doubt that the fire was of incendiary origin. The testimony of the engineer in charge of the building, together with that of the former superintendent of the company, amounted to a direct charge that Mr. Isaac N. Perry, the president of the National Bank of North America, had become the owner of the property through sale under bank-ruptcy proceedings; that he had proceeded to manipulate the books and inventories for the purpose of making a largely increased showing as to the value of the plant; that he had ordered the insurance, then about \$100,000, to be increased to \$.00,000; that he had ordered all the cars, locomotives and other property of the company to be stored within the shops; that he had succeeded in obtaining access to the shops The evidence shows beyond any doubt succeeded in obtaining access to the shops alone and unaccompanied upon a Sunday afternoon, and that within an hour thereafter fire had broken out in four of the five buildings and resulted in the destruction of two of them.

Mr. Perry's attorney claimed that Mr. Perry had been the victim of a conspiracy; that it being known that he necessarily spent Sunday at this plant, a fire was planned to take place at a time when he should be present and all the circumstantial evidence would connect him with its origin. The attorney also offered to show that an arrangement was practically completed for the sale of this plant for a sum of money larger than the insurance, and that \$100,000 was deposited in escrow on account of this contract and that Perry, therefore, had no motive to commit the crime. We are using every means within our power to ascertain the truth, and are equally determined upon two points: First, that no guilty persons shall escape; and, second, that no innocent person shall be permitted to suffer from an unjust accusation. Continuing, Mr. Tolman's statement says:

President Perry said this afternoon: President Perry said this afternoon:

The charges against me seem to have been raised for the purpose of injuring my reputation. They may have come from men who wanted to rule or ruin the car company, and who had falled in their attempt at the former. I can conceive of no other motive for the attack upon me. There is absolutely no way in which I could prolit by the destruction of the property. The insurance money, when paid, will go to the company and not to the bank or me. Our interest would be best served by the preservation of the property and not by its destruction.
