Broomhail-Car Argentine agent esti-mates the shipments of wheat this week will be about \$60,000 bp, and corn about

will be about \$60,000 bu, and corn about \$2,500,000 bu.

Price Current—Wheat crop fine, enlarged area. Corn husking not generally active. Results fully supporting crop estimate and better quality. Little interior trading in corn. Pastures good; hay movement enlarging. Wheat prices unjustinably high under supply and demand situation. Packing, \$70,000 hogs, against \$10,000.

The Northwestern Miller says: Minneapolis flour output last week decreased 10,785 barrels compared with the previous week. The total quantity turned out was \$22,855 barrels, against \$365,000 in 1963. One of the large milis closed down last Thursday afternoon, which accounts for the decrease. Minneapolis miliers did not find the flour demand very satisfactory during the past week. The rapid advance of wheat in the latter half of last week had a more detrimental effect on buyers in that

it frightened them from purchasing. Sales during the week did not, in the case of most millers, come up to the out-put, and the prospect is that unless the wheat market settles down flour sales will be small. Financial Gossip.

Foreign Financial.

LONDON. Oct. 27.—The money market was active today owing to it being Stock exchange pay day and the joint banks preparations for the month end increased the stringency. Discounts were affected by further withdrawals of gold for Germany. Prices on the Stock exchange opened weak and sensitive. Business was checked by the delay in the receipt of Russia's reply to Great Britain. The nervousness was intensified until the middle of the afternoon, when there was some recovery. The market closed rather disorganized, pending decisive news of the settlement of the North sen incident. Consols were flat. They touched \$7% at 1 o'clock, but improved later. Home rails generally were dull Americans responded to the relapse in New York and continued unsettled on free selling here. The movements were irregular. Prices recovered slightly in spots but closed flat. Foreigners were depressed. Imperial Japanese government 6s of 1994 were quoted at \$3%.

BERLIN. Oct. 27.—Business on the bourse today was depressed owing to the Anglo-Russian tension in regard to the North sea incident.

PARIS, Oct. 27.—Three per cent rentes, \$7f 65c for the account; exchange on London, 25f lic for checks. Foreign Financial.

SHEEP AND LAMBS—Reports from Chicago this morning were not very encouraging and that of course had some effect upon the market for fat stuff at this point. The supply of desirable killers was not large, however, while all the packers seemed to have liberal orders to fill. The market was perhaps not quite as active as an some days, but the prices paid showed little change from yesterday Wethers sold as high as \$4.25 and ewes of only fair quality brough \$2.55. There was also no quotable change in the prices paid for lambs and most everything that would do to kill was out of first hands in good season.

The demand for feeders continued as brisk as ever and the market could safely be quoted steady and active. Some sales in fact looked a little stronger.
