FIRE RECORD.

BOONE, Neb., Oct. 28.—(Special.)—Fire started in the drug store of J. E. Hill about

12 o'clock last night, burning the building

and spreading to the store building of the

Boone Improvement company, occupied by

M. E. Dunning as a general store, burning

both buildings to the ground. The Improvement company building cost about \$1,-800, and the drug store about \$800. Mr. Dun-

ning saved a few goods from his store, but his loss will be about \$7,000; insurance,

\$4,500. Mr. Hill's loss is \$400 on the building and \$500 on stock; his insurance is \$1,300 on building and goods. The Improvement company's building was two stories, was well built and has been the pride of the town.

The company will probably rebuild. Its total insurance was \$1,200 on the building.

HURON, S. D., Oct. 28,--(Special.)--The

large barn on the Stonebreaker farm eight

miles southwest of this place was destroyed by fire, together with several head

of cattle and horses, and a large amount of feed and small grain. Loss, about \$1,500.

School Teacher is Injured. HURON, S. D., Oct. 28 .- (Special.)-Miss Irene Gordon, who teaches school a few

miles south of the city, was thrown from her horse Sunday evening, suffering severe injuries. One arm was broken near the elbow and the wrist was dislocated.

Missouri Valley Vs. Boyles College.

The Boyles Commercial college foot ball team will entertain the Missouri Valley team on the Creighton campus gridiron Saturday, October 29. The game promises to be a good one, as both teams are of about the same avoirdupois and speed. The Boyles men are rapidly recovering from the bruises received in the Ashland game and will be in good condition by Saturday, Game called at 2:30 p. m.

BELLEVUE IS IN POOR FORM NOW Three of Best Men Out and Others Not

Doing Well.

BELLEVUE, Neb., Oct. 28.—(Special.)—
The supporters of the college foot ball team are somewhat disappointed at the way in which it lost out in the Creighton game and incidentally the utter disorganization the players allowed themselves to fall into the moment Captain Moore was removed from the field. The coach, too, has expressed himself as dissatisfied with the quarterback work of that game, Benson being obviously too slow in getting the oval to the backs on end runs, and the probabilities are that Brown will supersede him. Benson to rival Throw, the midget tackle, for right end. Moore, Throw and Clark are considered as good as out of the next two or three contests. Moore is suffering from a sprained neck received during the second half of the Creighton game; Throw is called home on government business, and Clark is on probation until he can make up some of the more practical college work in which he is behind. The week's practice has been devoted to developing a more perfect offense and establishing better organization and team work. Interference and line defense aiso have needed touching up and no doubt the men will be in better trim in these particulars than at any time since the opening of the season, despite the threadbare number of first team players.

The next two games on the schedule unfortunately are league games, and the first is with Grand Island, a powerful claimant for the pennant. The local college athletic authorities believe that a plucky game will be played with that college, but doubt that victory will crown Bellevue's banner under the present discouraging circumstances.

Coach Pipal thinks the loss of the Creighton game was an unnecessary event, inasmuch as Bellevue showed its superiority contains the present discouraging circumstances. Doing Well. Coach Pipal thinks the loss of the Creighton game was an unnecessary event, inasmuch as Bellevue showed its superiority constantly in the first half and only set her face downward when the four new players lost their wits and plunged the team into anarchy when Moore fumbled the ball to Creighton across the goal line, and again when an extra hard tackle laid him out of the game. Time, he says, will eradicate such tendencies if the boys have the spirit he credits them with, so there are ample hopes that Bellevue may win the later games on the schedule.

The only coming Omaha game in which Bellevue will take a hand is marked for Saturday, November 5. Bellevue plays the Dedge Light Guards at Vinton park grounds, and promises Omaha supporters another clean, well played event.

IOWA CITY, Ia., Oct. 28.—(Special.)—Iowa is making a desperate effort to get in shape to win the Ames contest Saturday and with it the college championshig of the state. The outcome of that game has been the subject of considerable comment in college circles and the state experts have predicted that Ames has the advantage this year that it has never had before. Iowa's great weakness is its lack of substitutes who can go into the game without weakening the team. Everything has been done to keep the regulars in good condition and yet they will enter the contest suffering from injuries that have been received during the last ten days. Iowa Team is Weak.

Meetings Held at Monett, Lebanom, Aurora and Other Points—Speaks at Louisville and Cincinnatif Today.

ST. LOUIS, Oct. 28.—Senator Charles W. Fairbanks of Indians, the republican nominee for vice president, arrived in St. Louis tonight and addressed an immense audience in Lemp's hall. The meeting was presided over by Judge Leo Russieur and a speech was also made by former Senator William E. Mason of Chicago.

Senator Fairbanks spoke in part as follows:

We find ausiembied at the Louisiana Purchase exposition the ruits of the genita, the energy and the enterprise of all nations. We learn here of the progress of the human race in the manifold avenues of the human race in the manifold avenues of the fine that we people, would be a speak thistoric event so har-reaching in its effect upon the welfare of the United States should be celebrated by the people of all countries.

They stimulate the energy, enterprise and intellect of the people of the United States in the cannot of the many the process of the people of the United States in all the vast field of their endeaver. We find assembled at the Louisiana Purchase exposition the fruits of the genius, the energy and the enterprise of all nations. We learn here of the progress of the human race in the manifold avenues of human activity. It is fitting, indeed, that a great historic event so nar-reaching in its effect upon the welfare of the United States should be celebrated by the peoples of all countries.

President McKinley well said in his last speech at Buffalo: "Expositions are the timekeepers of progress. They record the world's advancement. They stimulate the energy, enterprise and intellect of the people and quicken human genius. They go into the home."

The centennial exposition at Philadelphia was a hotable one; the World's fair at Chicag) surpassed its predecessors, and the great Louisiana Purchase exposition is far in the advance of those which preceded it. It records the highest point reached in the world's progress. It marks the highest development of the people of the United States in all the vast field of their endeavor. Great as have been our past achievement greater victories await us in the future if we but hold fast to the great policies under which we made such marvelous progress. The policies of the republican party stimulate the activities of our people, and much of the progress which we witness in this great exposition are the truits of republican policies.

Due to Republican Policies.

Due to Republican Policies.

We find about us on every hand evidences of prosperity, progress and development. We should beware that we adopt no policies which will arrest them. The present republican policies and republican administration give confidence to our people, stimulate trade and stimulate commerce. The nations of the world whose representatives are gathered here have no distrust of the United States. Our hospitality for them is generous. We welcome them to this neighborly competition in the display of the fruits of the progress of the nations of the world. The present republican administration is an assurance to all nations that their rights shall be respected. Our diplomacy was never more exalted than it is today. It never made more for international peace than it is making now. It is not distrusted by any. It is respected by all. Due to Republican Policies.

Our commercial and our social interests Our commercial and our social interests reach out into all quarters of the earth. Americans are extending their commerce everywhere. Americans are journeying overywhere, and it is of the utmost importance that we should be upon terms of good neighborhood with all peoples. We wish to expand our markets and we are expanding them under republican administration more rapidly than ever in all our history. We seek a larger participation in the world's trade. It is of the utmost importance that we should win and hold the world's regard. We must do this through an exalted diplomacy, one which does not rest upon physical force, but upon principles founded on international righteousness. A continuance of the administration of ples founded on international righteousness. A continuance of the administration of Theodore Roosevelt is an assurance to the American people and the world that its exalted diplomacy will be continued. We must safeguard American interests in the Orient, that vast field of future commercial achievements. The situation is one of great delicacy, yet no one doubts that the administration of President Roosevelt will successfully deal with it and that we shall be able to hold the privileges we now enjoy, not through an appeal to the sword, but through that wise diplomacy which has won signal victories in the past.

The senator's special train left at a late hour for Louisville, Ky., where it is said day evening meeting will be at cinnati.

First Speech at Monett. REPUBLIC, Mo., Oct. 28. - Beginning with a before breakfast speech to a large crowd at Monett, Mo., today, Senator Fairbanks' special train doubled back to Springfield on its way to St. Louis, where the evening meeting will be held. More than a dozen speeches were made during the day. At Aurora, where the principal industries are zinc and lead mines and UNION STATION-TENTH AND MARCY mills, he addressed a large crowd, dwelling particularly upon the effect of demo-

cratic policies upon wages. "There is a direct connection." he said, between governmental policies and our own prosperity. If our policies in the national government are unsound we suffer in consequence of that fact. We also realize that if our governmental policies are wise and sound we are all benefited thereby. We want continuous prosperity; we want continuous employment and a continuous demand for the products of the field and the products of the factory. If we change our policies there is fluctuation in the payroll; it goes down in the number of employes and the rate of wages. Here in Aurora is evidence of the efficacy of republican policies and republican administration. During the four years of the last democratic administration there was not as many men engaged in the mines and mills about here, I dare say, as there are now. Senator Fairbanks also made an earnest appeal for the election of Cyrus P. Walbridge, the republican candidate for goy- Illinois Central. ernor of Missouri.

LEBANON, Mo., Oct. 28 .- Senator Fairoanks' special train reached Lebanon somewhat behind the scheduled time. Here the Senator addressed a large and noisy crowd. At Springfield nearly 1,000 men turned out rom the car shops of the 'Frisco railroad to listen to speeches by Senator Fairbanks and former Senator Mason of Chicago. Both emphasized the beneficent efforts of republican policies, claiming that prosperity to farmers and factories was dependent upon protection and sound Beautiful weather characterized the day's trip through Missouri.

JUDGE PARKER PREDICTS SUCCESS

Tells Delegation of Farmers He Expects to Be Elected. ESOPUS, N. Y., Oct. 28.-Judge Parker today made his first public prediction as to the outcome of the election. In his speech to delegations composed largely of farmers from Orange and Rockland counties, New

York, he interpolated the following: Before taking up the subject I wish to discuss. I want to assure you that if we work hard enough, if we each do our part, we can win this fight. I have not felt like saying so until lately, but we are growing so rapidly that if our people do their best I do believe victory will be ours.

Judge Parker, after an extended discussion of the replies made to his former speeches by Senator Knox and Governor Wright of the Philippines, said in part:

I understand that the majority of you are farmers. As I was born and brought up on a farm and have lived on one for

number of years, as a matter of choice, think I understand something about the irdens they have to carry. I know some the difficulties that stand in the way a fair price for some of their prod-

After a long period of duliness there has been an advance of a fraction in foreign dry hides. Footwear orders for spring delivery continue to come forward, western wholesalers having begun to place tardy contracts, while eastern and southern jobbers added to their purchases. Conditions throughout this industry are better than at any previous time this year.

# DOCTORS FOR MEN

NERVO-SEXUAL DEBILITY.

What a vast amount of wretchedness, misery and sorrow this disease brings upon a man, and often due to his folly or his ignorance. It is a serious thing that men contract or inherit disease or weakness, but the most serious results are sure to follow neglect or improper treatment. It seems strange that some men will defer treatment day after day, racked in body and wrecked in mind, when there is a safe, certain and sure way of escape. We offer you this aid, this help, this certainty of restoration.

Private diseases and weaknesses of men have been the means of blighting the most radiant hopes, tendering marriage unhappy and business a failure. Weakness unfits a man for his home, where men should find their happiness. It unfits him for business, where men should find success. It unfits him for friendship, and leads him to shirk from companionship. The magnetism that wins men is absent. The maniness that attracts women is displayed by a shrinking weakness, and the victim, knowing this, seeks solitude.

Nervo-Sexual Debility numbers a mong its victims the best of men. Their youth promised success and their qualifications deserved it. Their manhood brought failure and poverty, and for no other cause. There are thousands upon thousands of men who would marry, save for this debarment. There are those who are married and whose keenest affliction lies in the feeling that they are disqualified and that the one whose admiration means most must know it.

For a speedy cure of the diseases that so insidiously destroy the intellect, strength and very manhood, secure the services of the eminent specialists connected with the State Medical Institute. They will stop these unnatural drains with their terrible results and restore to sound health the pitiable victim of nervo-sexual debility, brain fatigue and wecked manhood.

We cure quickly, safely and thoroughly.

Stricture, Varicocele, Emissions, Nervo-Sexual Debility, Impotency, Blood Poison (Syphilis), Rectal, Kidney and Urinary Diseases,

and all diseases and weaknesses of men due to inheritance, evil habits, self-abuse, excesses or the result of specific or private diseases. CONSULTATION FREE If you cannot call write for symptom blank, of the Hours-8 a. m. to 8 p. m. Sundays, 10 to 1 only,
