The appointment of Mrs. W. S. Peabody, wife of the governor of Colorado, to membership in the Archaeological Institute of America, a clever woman has received a deserved compliment and a recognized authority has been added to the institute. For nineteen years Mrs. Peabody has been a student of anthropology, having been associated for nine years with the Bureau of Ethnology at Washington, D. C. Mrs. Peabody is a delegate to the International Congress of Arts and Sciences.

The Woman's Club of the Railway Mail Service of Omaha and Council Bluffs held its October meeting Wednesday afternoon at the residence of Mrs. Curtis Cook, 83 North Fifteenth street. Mrs. G. E. McConnell of Council Bluffs, the president, presided during the business session which preceded the social hour.

Mrs. F. H. Cole, the retiring president of the National Auxiliary to the Association of Railway Postal Clerks, was present, and with the club's delegates talked of the recent convention held at Boston. It will be of interest to Mrs. Cole's friends that though the nomination for the presidency was tendered her almost unanimously she refused to accept it. Mrs. E. S. Upham of Boston being elected in her stead.

The late James Callahan of Des Moines has bequeathed \$3000 to the Iowa Woman Suffrage association.

The Universalist state convention, held recently at Nashua, N. H., passed the following resolution by unanimous vote: To the end that the superior moral and spiritual power of woman may be given its legitimate influence in the promotion of the public weal, and justice and equity be maintained in the land, we ask, and we earnestly urge, that the political franchise of the women of our state and nation, and fully adorned with wisdom, intelligence and the highest moral and intellectual attainments, be granted to women in municipal affairs, believing that the cause of temperance, politics, morality and municipal progress and good order would be vastly promoted thereby.

An interesting fruit exhibit. During the past week there was displayed in one of the Bennett company's show windows a sample of Colorado peaches of the variety, which were large, beautiful, stock, running forty-two peaches to the box. There were over fifty cars of this class of fruit, consisting of pears and peaches, shipped by George W. Sawade, manager of the Colorado Fruit Growers' association, Palisade, Colo., to the O. W. Butts wholesale fruit house, one of Omaha's largest car lot receivers.

The sample of peaches displayed was grown by Mr. E. F. Gibben, one of Colorado's prominent and largest growers of fancy peaches, who estimates the value of his orchard from \$500 to \$1000 per acre, his yearly profits showing 10 per cent on this valuation.

The fruit is the largest and most successful peach belt in Colorado, the growers are up-to-date, growing the best varieties of all kinds of fruit, and making a specialty of the Elberta peach, which is now conceded by most fruit men to be the best grown.

This variety is raised mostly by people from Nebraska, and Iowa, and is raised by workers, all making money. An Elberta peach orchard in this valley is as desirable as a good gold mine in any part of Colorado, and there are thousands of young orchards coming in bearing. In the next few years, Colorado is forging to the front as a grower of delicious fruits. During their season they take the preference over all other fruits, owing to their general excellence of quality.

WOMAN IN CLUB AND CHARITY

An interesting art loan is being arranged by the members of the local chapter, Daughters of the American Revolution, which will consist of revolutionary relics, which will antedate 1812. The exhibit will be shown in the parlors of the First Presbyterian church November 22, 23, 24 and 25. There are known to be many articles of value and interest scattered through the homes of the city that will contribute to such an exhibit and all persons having such relics, pictures, furniture, firearms, prints, books or house ornaments or anything else is requested to communicate with any of the women on the committee.

The work of the pan-society convention held in Chicago late in the summer, is already beginning to bear fruit. Resolutions were adopted to investigate the condition of women students in co-educational institutions and the University of Michigan action has been taken to reform conditions under which the majority of women students have to entertain their men friends, in their rooms, if they entertain at all, as the rooming houses have not in the past provided a reception room. Next fall, it is said, no house admitting both men and women students or providing no general reception room will be admitted to the list of students' boarding houses. Michigan sanitoriums have also agreed to enforce the general reception room plan in their dormitory houses as well as their boarding houses.

STARVED OUT.

Many a garrison has been forced to give up the fight and hang out the white flag of surrender, when lack of food has weakened the men past all power to continue the struggle.

Many a man is similarly starved out of business. His digestion is impaired. His food does not nourish him, and for lack of

strength to carry on the struggle he turns his store over to another.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores strength to weak, nervous, run-down men and women.

"About ten years ago I began to be afflicted with stomach trouble, also diarrhea," writes Dr. Wm. Walters, of Astoria. "My food did not nourish me, and I was weak, nervous, and run-down. I was troubled so often that I could not sleep. I had only temporary relief in November, 1901, thought I would try Dr. Pierce's Golden Medical Discovery. I got six bottles and took the sixth bottle and I was cured. I have enjoyed the best of health since that time. I credit all I owe to your Golden Medical Discovery. I can express my many thanks to Dr. Pierce for his remedy, for it did so much for me. I can express how severely I suffered. I can express how much pleasure it has given me, and how it has restored to me all my strength. I can express how it has cleared the bowels and stimulated the sluggish liver."

Dr. Pierce's Pleasant Pellets cleanse the bowels and stimulate the sluggish liver.
