CHICAGO, Nov. 7 .- A special to t. eago Daily News from Dainy, date vember 6, via Kobe November 7, say, after three days of continuous bombardment of Port Arthur, which caused extensive destruction to the Shojusan and Niyirusan forts in the west center of the Russian line of defense, and also to Keekwan fort, the right wing of the Japanese army assaulted Shojusan yesterday after-Having carried the approaches to that height, the assailants intreached themselves under the glacis of the forts. In the evening the left wing delivered an assault on Keskwan, fighting its way to the lower parapet. Russian counter attacks. Having been reinforced during the night, the Russians charged down upon the Japa-nese and desperate hand-to-hand conflicts ensued. The Japanese beat back the enemy and destroyed two covered positions in the front moat. A Japanese sub-lleutenant with thirty volunteers then succeeded in making his way to the rear of the fort. There he engaged in a personal conflic with a Russian officer and killed him. Having discovered two more defenses in the rear moat, the sub-lieutenant withdrew his force with a loss of two men,

Later in the night the advanced position of the Japanese was taken and retaken twice. The besiegers succeeded in holding the approaches and constructing trenches connecting them with the army's front parallel. At dawn numbers of dead were visible on the slopes. Fort P, north of the new and old batteries in the left center of the line of defense, was captured by the severs fighting of the night. These operations have successfully driven an effective wedge into the Russian center. Savere explosions and extensive fires have

occurred in the fortress within the last few days. The total casualties of the Japanese in the late attacks were 1,100. Over 500 were killed up to October 29. The spirit of the man is magnificent. The firing of all the guns is wonderfully effective. The climax to the late bombardment came

At Huangshantse, the Russian center has thrown advance posts across the Boston and New York Men Ask for Shakhe river. Both armles are still strengthening their positions all along the line. The slightest movement on either side is the signal for firing which occasionally lasts all night. Th Russians are using six-inch guns on the railway, which must greatly harass the Japanese.

Undoubted'y the most decisive, if not the greatest battle of the year will be fought in the vicinity of the Shakhe river. The Russians are confident of their ability to hold their positions. The soldiers are building mud huts for winter quarters. The nights continue cold, but the days are bright and crisp.

The Japanese on Saturday night attacked some of the Russian outposts in considerable force, but the Russians had been warned and the Japanese were repulsed. They were not able to take away all their killed or wounded, leaving twenty-eight bodies on the field. The Russians lost only German or Italian on Board.

Republican Voters Close Their Campaign with a Good Meeting.

Sixth ward republicans held their last meeting before the election in Idlewild hall, Twenty-fourth and Grant streets, last evening. Major J. S. Miller was one of the principal speakers. On the national question he asked the voters to compare the conditions which prevailed under Mc-Kinley, Cleveland and Roosevelt and then see if any rational being could vote the democratic ticket. On the state ticket he

The chair called for an expression of views on the electric lighting plant question. Major Miller said he was at first opposed to the proposition, but he did not see how it would increase the taxes.

"To my mind." he said, "it makes no difference whether the taxpayer pays for lighting the city or pays for a plant. You are already taxed for lights. By putting the money into a plant, economically and honestly managed, you will acquire your own plant and secure cheaper and better lights. Cheaper lights will reduce the taxes and Omaha would reap the benefits."

Edward F. Moriarity said he believed in buying the water works plant and getting that proposition out of the way before the juestion of a lighting plant is taken up. W. G. Ure did not like the bonding proposition, because it does not give the city the right to build a plant which can furnish light and power to individuals as well as the city. He said the city pays \$90,000 for lights. "After paying \$20,000 interest on the bonds," he said, "there would still remain \$70,000 for lights if the city bought a plant. We are taxed for the street lights anyway. My principal objection to bonding for a lighting plant is that we are going to pay \$3,500,000 for a water plant anyway."

A howl for help went over the Western Union wires Saturday from Omaha to New York, in which a distinguished citizen of Omaha who is the "Big Finger" in local politics, informed the head officials of the water company that the combine ticket was gone unless \$46,000 additional was immediately dumped in here.

The response came this morning, after a hot telegraphic correspondence lasting all day Sunday. It was the transmission by telegraph of \$2,500 to supplement the \$15,000 previously put up from the same source to push through the election of the Rosewater-water works candidates. It seems that it was promised some time Sunday, and word was sent out for all the workers to come in Monday and get their "dough."

All day the "touching brigade" has been participating in a parade in and out of The Bee building and the paymaster has been working both hands and putting out the tens, twenties and fittles, with occasional century marks. A few have been able to put a strong enough talk to get even larger sums, but it takes a big showing of ability to deliver the goods to land the star prizes.

Every worker who has been around the Rosewater headquarters tells the same story about the atmosphere of demoralization that prevails and all agree that "the old man is craxy about the slump from Kennedy." The antis are being urged to be good and forget.

It is undoubtedly the work of the Hitchcock campaign committees, although it bears no signature, and indicates plainly the desperation to which the present congressman from the Second district is driven in his desire for re-election:

CITIZENS Rosewater has assured the corporations that if Kennedy is elected to congress he will serve their interests. Can Kennedy serve two masters, the trusts and the peo-ple, at the same time? In 1896 Kennedy serve two masters, the trusts and the people, at the same time? In 1896 Kennedy

From northern Pennsylvania over New York and throughout New England, or less cloudy weather and local rains, conditions arising from a moderate depression over the Ohio valley, which is now moving eastward. There will be no general storm over the area referred to. In northern New perature will prevail, with flurries of snow instead of rain. Throughout the south, dicted, with seasonable temperatures. NEW YORK, Nov. 7 .- From the poli-

managers to the voters; from the spellbinders to the ballot boxes, the presidential election of 1904 is now committed. For months the leaders have planned, for days and nights they have schemed and for weeks the people have waited for tomorrow, when they will make their choice. Right up to the hour when all effort ha! ceased the campaign managers of both parties confidently claimed success with a serenity which seemed remarkable in view

of the wide divergence of expressed optim-It is not to be expected that any person connected with a political campaign will surrender his right to claim all doubtful states, and no one in this campaign, even privately or in confidence, is willing to concede defeat. The confidence of the managers is shared by their followers and on every hand the stout declarations of partisans for their party candidates are heard. Tonight all is confidence, by tomorrow night the country will know whe

has been right.

Aside from the preparations for the receipt of the election returns there was little evidence of the close of the political campaign today, unless it might be in the absence of familiar faces about the national and state headquarters and hotels. There was nothing that indicated any excitement or undue interest, and, in fact, the political headquarters, both national and state, showed little of the activity that has been noticeable up to the end of last week. Nothing that either campaign committee could do at this late day, it was recognized, would affect the result, and this accounted in part for the quietude, 14 being well known that the case had gone to the great American jury. The extreme quiet of headquarters was also apparent at the hotels, and those haunts where pollticians often congregate to discuss the prospects of the different candidates, were doserted nearly all day by the men who are most interested in the election.

Election returns will be received at all the headquarters. Chairman Cortelyou will go to Hempstead, L. I., to vote, and upon his return will remain at the committee rooms all the evening. Vice Chairman Nicoll, Chairman Sheehan

of the executive committee and Secretary Woodson will receive the returns at demacratic national committee rooms. Chairman Cord Meyer and other democratic state committeemen will be at the

Hoffman house. William Barnes, jr., of the executive committee will be in charge at the republican rooms in the Fifth Ave nue hotel. Evidences of breaking up were apparent today when members of the various com-

mittees were observed clearing out their desks of things that have accumulated during the campaign. It looked very much as if the end was near at hand. Six to One on Roosevelt. Betting on the general election results was livelier tonight than at any time dur-

ing the campaign. It is estimated that nearly \$200,000 was waged on the Broad street curb and in the various hotels. The leading odds were six to one on Roosevelt on the general result, two to one that Roosevelt will carry New York state and two to one that Herrick will defeat Higgins Whaling Steamer Returns.

A Wall street house offered to bet \$5,000 even that Roosevelt will carry New York, New Jersey, Connecticut, Indiana and West Virginia, but there were no takers. Several private wagers are said to have been made against Parker at odds of seven to one, but no such bets were openly announced. One bettor placed \$3,000 against \$6,000 that Parker will carry New York state.

A Wall street firm put up \$2,000 at odds of two to one that the president will carry New York, and announced that it had \$10,000 to place at the same odds.

On national and state issues it is estimated that \$2,000,000 has been wagared in New York City. CHICAGO, Nov. 7.-The national head-

quarters in this city were practically closed tonight, all of the officials baying left for their homes. Harry S. New went to his home in Indianapolis tonight, but is ex-
