FIRST CORPORATION TO FILE

Nebraska Telephone Company Places Tax Schedule on Record.

TOTAL EXCEEDS LAST YEAR'S ASSESSMENT

Board of Review Convened Tuesday and W. I. Kierstead Probably Will Be Made Its Chairman.

The Nebraska Telephone company is the first public utility corporation to file its schedule with the city tax commissioner. The total valuation of personal property, including franchise, taxable in Omaha, is given at \$564,136, or \$66,136 more than the assessment of 1904.

For the present year the commissioner raised the return made by the corporation from \$493,800 to \$564,136. The voluntary return for 1905, therefore, is \$146,336 more than last year, and is presumed to be accounted for by reason of the new switchboard and other equipment.

The schedule gives the value of personal property assessable in Omaha at \$255,000, and the franchise at \$34,136, based on the gross receipts for the year. Of the receipts \$69,846 is accredited to toll lines and \$25,254 to the local exchange.

Amount of Capital Stock.

For the whole corporation the statement is made that capital stock to the amount of \$2,000,000 has been authorized, of which \$2,347,300 has been issued and paid up. Personal property is valued at \$2,077,100 and real estate at \$255,000. The latter item has caused Tax Commissioner Fleming to address a note to the company asking where the real estate is located, as the assess-
