# My Offer to Strangers-

# **A Full Dollar's Worth Free**

# You Pay Nothing

I want no references-no security. The poor have the same opportunity as the rich. To one and all I say "Merely write and ask." I will send you an order on your druggist. He will give you free, the full dollar package.

This offer is only for strangers to my remedy. To those who have not heard, or hearing have not tried it.

My offer is as broad as humanity itself. For sickness knows no distinction in its ravages. And the restless patient on a downy couch is no more welcome than the wasting sufferer who frets through the lagging hours in a dismal hovel.

4 want strangers EVERYwhere to test my remedy.

For Stomach Troubles For Kidney Troubles

### Inside Nerves!

# A Bond of Sympathy

# You Promise Nothing

There is no catch in my offer-no mystery in my remedy. I can explain my treatment to you as easily as I can tell you why cold freezes water and why heat melts ice. Nor do I claim a discovery. For every detail of my treatment is based on truths so fundamental that none can deny them. And every ingredient of my medicine is as old as the hills it grows on. I simply applied the truths and combined the ingredients into a remedy that is practically certain.

But my years of patient experiment will avail you nothing if you do not accept my offer. For facts and reason and even belief will not cure. Only the remedy can do that.

# You Deposit Nothing

No one else has ever tried so hard to remove every possible excuse for doubt.

In eighty thousand communities-in more than a million homes-Dr. Shoop's Restorative is known. There are those all around you-your friends and neighbors, perhaps-whose suffering it has relieved. There is not a physician anywhere who dares tell you I am wrong in the new medical principles which I apply. And for six solid years my remedy has stood the severest test a medicine was ever put to-I have said "If it fails it is free"-and it has never failed where there was a possible chance for it to succeed.

## You Risk Nothing

But my liberality is of no avail to those who shut their eyes and doze away in doubt. For doubt is harder to overcome than disease. I cannot cure those who lack the faith to try.

So now I have made this offer. I disregard the evidence. I lay aside the fact that mine is the largest medical practice in the world, and come to you as a stranger. I ask you to believe not one word that I say till you have proven it for yourself. I offer to give you outright a full dollar's worth of Dr. 'Shoop's Restorative. It is the utmost my unbounded confidence can suggest. It's open and frank and fair. It is the supreme test of my limitless belief.

The idea of building into this country has been under consideration by the Northwestern for years, but definite action has been deferred from

### AN OBJECT LESSON

### In a Restaurant.

A physician puts the query; Have you never noticed in any large restaurant at lunch or dincor time the large number of hearty, vigorous old min at the tibles; men whose ages run from sixty to eighty years; many of them bald and all permaps gray, but none of them feeble or sentie? Perhaps the spectacle is so common as panies will get together about the first of to have escaped your observation or comment, but nevertheless it is an object lesson | 32 cents. which means something.

If you will notice what these hearty old fellows are cating, you will observe that they are not munching bran crackers or gingerly picking their way through a menu card of new fangled health foods; on the contrary they seem to prefer a juicy roast of beet, a properly turned loin of mutton. and even the deadly brolled lobster is not altogther ignored.

The point of all of this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live upon bran ernickers.

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank poisons, but these cadaverous sickly looking individuals are a watking condemnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural digestive juices in sufficient quantity, any wholesome food will be promptly digested; if the stomach does not do so, and certain food cause distress, one or two of Stuart's Dyspepsia Tablets after each meal will remove all difficulty, because they supply just what every weak stomach lacks, pepsin,

hydro-chloric acid, diastase and nux. Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not stricta medicine, as they act almost entirely upon the food eaten, digesting it thorough and thus giving the stomach a much needed rest and an appetite for the next meal.

Of people who travel, nine out of 'en Stuart's Dyspepsia Tablets, knoving them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard seminat indigestion in any form, and eating as they have to, at all hours and all kinds of food, the traveling public for years have planed their faith to Stuart's Tablets.

All druggists sell them at 50 cents for full-sized packages and any draggist from Maine to California, if his chinion were say that Stuart's Dyspepsta Tablets in the most popular and successful remedy for any stomach arcuble settlements without delay before the property is reached in the alphabetical order of

Besides a fine agricultural and grazing country the territory also is exceedingly rich in mineral wealth. Oil abounds; there is coal in abundance and gold and silver ore is known to exist upon the reservation but could not be prospected. One of the most valuable mines that has been marked off and which will be taken by the discovmine. Mica, owing to the scarcity of the

commodity, is worth almost its weight in Sugar Still Going Up.

If sugar continues to climb as it has in the past few weeks it will soon take on the characteristic of a luxury. Friday it again advanced three points in the open market, since the announcement several weeks ago that the supply is short. Raw sugar was the first to experience the advance. A scarcity in sugar beets has resulted in a shortage in saccharine and a corresponding increase in the price of the manufactured article. On Saturday sugar was kuoted at \$5.76,

with the expectation that it would show a further increase by Monday. Southern refining sugars have been drawn from the market entirely, and in London raw sugar is quoted 1/2 cent higher than in this country. Beet sugar has followed the eastern market, which practically governs the prices for the United States, although the New York figures are based upon the quo-

tations of the New Orleans market. Matters in connection with the plans of While the 20-cent rate between New Orleans and Missouri river points is still in the Commercial club for enlarged memberforce, it is expected the transportation comship, improved catering facilites and refurnishing club rooms are progressing encouragingly. Saturday three members handed the year and restore the former price of twenty-seven applications for membership. It is understood that when 500 mem-

dians shall receive any compensation for the timber already destroyed. However, the nature of the decision leaves the field open for a damage suit against the defendants, which may be filed later.

# SMITH DOES NOT ENTHUSE

Street Railway Manager Takes Little Interest in Proposition for "Seeing Omaha" Car.

The proposition originating with W. J. C. Kenyon regarding the introduction by the Omaha & Council Bluffs Street Railroad company of a "Seeing Omaha" car service and being forwarded by Commissioner Mc Vann of the Commercial ciub, is exciting some interest. Mr. McVann is of the opinion that it would be a good thing, and he has arranged a proposed route and asked General Manager Smith of the street car company to consider the matter and place a rate on the service suggested.

The proposed route is from the Tenth street stations via Harney and Fourteenth. Vinton and Twenty-fourth streets to South Omaha; thence to Florence via Vinton. Twenty-fourth and Thirteenth, returning to the starting point via Sherman avenue, Fourteenth and Harney to Tenth.

General Manager Smith is not especially favorable to the project, for the reason that he does not consider Omaha a tourist town, and therefore he doubts the success of the venture-still he would not be at all averse to making rates for any service demanded. Commissioner McVann claims Omaha has many strangers within its gates every day, coming by the roads without through connections and awaiting afternoon trains on the Rock Island, Union Pacific and BurlingThe county commissioners have agreed

RHEUMATISM IS NOT A SKIN DISEASE. Several years ago I was afflicted with what the doctors called Sciatic Rheuma-tism, or Lumbago, suffering the most in-tense agony at times, and being confined to my bed about a year, although four of the best physicians (one of whom was my father) attended me during my illness. They could give me only temporary relief, and I think they tried about all the remedies known to medical science, dosing me with strong medicine until my stomach got into such a condition that I could digest nothing, and neither myself nor my friends had any hope of my recovery. I was persuaded Several years ago I was afflicted with I was terribly afflicted with Rheuma-

my friends had any hope of my recovery. I was persuaded much relief I was able to relinquish the use of one crutch, and to try S. S. S., and before finishing the first bottle I found a faithful continuance of the medicine relieved me of the that I had the right remedy. I continued to take it until it cured me perfectly. This was about nine years ago, and I have been in splendid health ever since. J. O'MALLEY, J. D. MANSON 2135 N. Senate Ave. Murfreesboro, Tenn. Indianapolis, Ind.

Fiery liniments, drawing plasters and penetrating oils never cured a case of Rheumatism; because it is not a local or skin disease, but a disease of the blood caused by a sour, acid condition of that vital fluid. The kidneys and bowels get weak, the liver torpid, and the poisonous accumulations that should pass off through the usual channels of nature are absorbed by the blood and distributed into the muscles, joints and nerves through the circu-lation, producing inflammation and swelling of these parts, excitement of the nerves and other painful and disagreeable symptoms of the disease. Rheumatism sufferers look with dread upon the winter season with its damp, cold, changing weather, for the first slight exposure is liable to bring on an attack, and the sharp, cutting pains and feverish, swollen joints and muscles make life miserable with almost unbearable torture. Local applications will

often give relief for a little while, but can do no permanent good, because the trouble is not within their reach; and even while the symptoms are being re-lieved by such treatment the blood is becoming more heavily charged with the uric acid poison, and the next attack will be more severe. S. S. S. curc this disease by arousing to proper action all the sluggish organs and going into the blood, driving out all the acid and poisonous matter, renewing and strengthening it, and toning up the entire system by its fine tonic effect. It contains no Pot-

ash or other harmful minerals, but is purely vegetable and is recognized everywhere as the surest and safest blood purifier. Our special book on Rheumatiam will be mailed free to all who write, and our physicians will give medical advice to all sufferers, without charge. THE SWIFT SPECIFIC COMPANY, ATLANTA, GA.
