sympathetic with the institutions of our re-public, and universally desire the recogni-tion of the principles of equality with the sovereign clustenanth of the United S as a. These rights they are eminently qualited to exercise; these rights they are entitled to, and it should be our aim to aid them in achieving them.

Union Solid.

Union Soliti, The union labels have been a source of people, it is at once an awarance and a people, it is at once an awarance and a structure that the conditions under which an article is produced have been comparatively fairer and better; that the labor of their instructure is the labor of the structure of

Colorado Situation.

Colorado Sinetion. The infunitous pointy of the so-called citi-gent's likances has had its fullest fruition in Colorado. In that state it has not only of itself had full sway, but if has been aided in the execution of the cilcus by the executive with the full pawer of the mili-tary. Indeed, the citizens' alliance had but the simple declaration to make as to its wishes and what in its judgment consti-tuted the law, to have the governor of the state order the troops to the most conven-ient point to execute what was accepted as a decree. Civil government has been set at raught, and constitutional and natural rights and guarantees wintofily trampled under foot.

In was the evident purpose of that unholy combination of the citizens' alliance with Governor Peabody to destroy the independ-ence and manhood of the workmen of Colo-rado by making an attack up in the effort to destroy organized labor of the state. Their declaration that their statick was not di-rected at the American Pederation of Labor is disproved by their bitter antagonism to, and assault upon, the affiliated coal in news of that state. That they will fail in their destructive factics, aye, that they have al-rado failed is evident from the fact that there are more workmen organized in Colo-rado today than at any time in its previous history, that organized formerly in ri-valy with each of unity and fraternity have been effected. It was the evident purpose of that unholy in which he dropped out of sight more than a wek ago. The fact that Macken had something like \$1,800 in cash, which he may have carried about his person, makes them apprehensive that he may have been robbed and perhaps murdered. Nothing has been seen of the old man, whose age is about 65, since a week ago Sunday night. He has no relatives in this part of the world and for a long time has lived at the Dugan boarding house. On the evening that he was last seen by his friends he was taken sick suddenly and a doctor was sent for. The friend who tried to get a physician was gone
