BLOOMINGTON, III., Nov. 17.-Miguel Niedao, a young Filipino student who is being educated at the State Normal untversity at Normal by the government, has been reprimanded by W. A. Sutherland of Heston, the War department for attacking the friars and the methods of the Catholic church in the Philippines. Nicdao's articles first appeared in the Vidette, a stu dent publication at the university, and were then widely copied by the press of central Illinois.

Rev. J. J. Burke of St. Patrick's church of this city took the matter up with the War department and immediately received a letter, in which it was stated that the as the Cornhuskers' foot ball mentor, is abutterances of the Filipino were not approved and that he would be vigorously

CHIMORE COMMITS SUICIDE FILIPINO STUDENT CENSURED TALK OF NEXT YEAR'S COACH

Booth to Stay with Cornhuskers if He Will Give His Consent.

HAS EXPRESSED A DESIRE TO RETIRE

Westover and Hernstein o Haskell Indians Being Talked of in Case Big Princetonian Quites.

(From a Staff Correspondent.) LINCOLN, Nov. 17 .- (Special.)-The selection of a coach to succeed Walter C. Booth, who is rounding out his fifth year sorbing a major share of the interest at Nebraska university this week. Gessip emanating from Chicago has it that a rep resentative of Nebraska university had sounded Martin Heston, Michigan's famous halfback, on the subject of coming west to coach Nebraska next year, and that Heston had consented to consider a formal proposition. None of the members of the Nebraska Athletic board will admit that Heston is being seriously considered, but one or two have been found willing to state that Yost's sensational pupil is not an impossibility by any means, but that the matter of choosing a coach had not assumed tangible form and that it would be given prolonged consideration before the public was let in on their plans.

Regardless of all other considerations, there is a well-defined sentiment at Nebraska university in favor of the retention of Booth. The big Princetonian announced ast season that this year would be his last, as he desired to devote all of his time to the practice of law in New York City. The most influential members of the Nebraska board, however, feel that pressare should be brought to bear upon Booth to induce him to amend his decision and stay with the Cornhuskers another year Booth's ability is recognized all over the west. During his first year at Nebraska his pupils went through the entire season prior to the final Thanksgiving game with out having their goal line crossed, and while defeated by the champion Minnesota eam in the last clash of the year, they cored two touchdowns on their opponents and only lost by a score of 20 to 12. The next year Nebraska cleaned up every team in the west, the same as the previous season, and was defeated only by Minnesota and Wisconsin, the latter the indisputed champions. The season of 1902 was Nebraska's banner year, the Cornhuskers walloping Minnesota and going through the full schedule without any of their adversaries scoring a single point. Last year Nebraska was almost as successful, Booth's men winning every game they played.

Booth Not to Blame, Three defeats have been registered against Nebraska this season, but Booth s not blamed in the least for the reverses A botch job of schedule drafting has played in important figure; injuries to the strongest players have been a factor, and a dearth of good substitute material has also perated against Nebraska's success. Few western coaches have made a better showing than Booth, and because of this fact the desire to keep him is almost unani mous in Cornhusker athletic circles.

Meanwhile the friends of ex-Captain Westover are pressing his name as Booth's successor. Westover, besides hav-ing played four years at Nebraska, establishing a reputation as the greatest tackle ever donning a Cornhusker suit, has been Booth's assistant for two seasons, and h's take in selecting Westover. With Westover as coach it would be the first step toward the inauguration of graduate coaching, the system in vogue in the big eastern institutions and the goal for which many of those in the west are striving.

The mention of Heston has caused some gossip along the line of calling Coach Hernstein of the Haskell Indians to Nebraska. It is pointed out that Heston, although a great halfback, would necessarily be an experiment, while Hernstein had already had two years' experience and has won his spurs by developing the champion aggregation of the Missouri valley. Several of the most influential members of the Nebraska board, in fact, have expressed a preference for Hernstein over Heston although the election of either may properly be stated as being very much doubt. Booth will have the first call, while the others are in the dark-horse class.

ing of Washington Jockey Club.

BENNINGS. D. C., Nov. 17.—Ideal weather, a large crowd, representing every class of Washington society, and the defeat of every favorite attended the opening of the all meeting of the Washington Jockey club this afternoon. A large number of bookmakers were in attendance. Race King was the only second choice to score. The first race was won from the favorite in a close finish by Mary Glenn, whose odds closed at 100 to 1, and against whom 20 to 1 and 100 to 1 were freely affered at the opening. The track was heavy, but some good time was made in everal races, the fourth race clipping four-fifths of a second off the record for the course. The Columbus handicap and the Bladensburg steeplechase were the features of the card. Lavator, the favorite, and Perion fell at the jumps, but were remounted and finished far behind the bunch.

NEW RECORD FOR DAN PATCH

King of Pacers Lowers World's Mark for Half-Mile Track. for Half-Mile Track.

OKLAHOMA CITY, Okl., Nov. 17.—On the association track here today Dan Patch lowered the world's record for pacing a mile on a half mile track, the official time being 2:03 flat. The previous record, held by Dan Patch himself, was made at Birmingham, Asa, last year, being 2:03%. Time by quarters: 0:30%, 1:00%, 1:31%, 2:0%. The pacer broke in the three-quarter stretch and the pace setter ran considerably ahead. The recovery was phenomenal, and when the king of pacers finished under the world's record there was a great démonstration. Five thousand people witnessed the performance.

FREIGHT RATES ON STOCK!

Railway Agents Tell Why They Think They Are Not Too High.

COST OF HANDLING TRAFFIC IS HIGH

Other Trains Must Be Kept Out of Way of Stock Trains and There Are Many Claims for Damages.

CHICAGO, Nov. 17 .- Many reasons were offered by railroad officers at today's hearing of the Interstate Commerce commission on cattle rates why the present rates on livestock should be maintained. According to the testimony of C. F. Ressegule, district general superintendent of the St. Louis & San Francisco road, cattle taken from Texas to the northern ranches are so poorly fed that some of them are unable to stand on their feet while the train is in motion, and many of them die the cars. Mr. Resseguie declared that the railroads were held responsible for the safe delivery of these animals and therefore were compelled to pay heavy damages to the shippers.

Testimony of Rock Island Man. H. H. Embry, general freight agent of the Chicago, Rock Island & Pacific railroad company, in his testimony, gave a summary of the reasons furnished by rail road men for maintaining the present rates for livestock. These reasons are:

The requirements of shippers, such as arbitrary loading of cars at arbitrary hours, and the arbitrary unloading and return of the same cars; the liability to claims which materially reduce the gross earnings on this class of freight; the delay in other traffic caused by stock trains, which is much greater than that caused by any other kind of freight; the free transportation given to previous communications. transportation given to parties accompanying stock and their return; the enforced return of empty cars, greatly increasing the empty mileage on stock cars, and the extraordinary expense for equipment and maintenance required by this traffic.

Item of Free Passes. Mr. Embry continued:

These are some of the reasons for thinking the present rate is entirely reasonable and just. This matter of furnishing free transportation to men accompanying live-stock shipments alone is quite an item. The free transportation given in this way last year, figured at the regular rate of 2 cents per mile, would amount to \$68,000. Of course, this is not a direct loss, but many of these persons would have made the trip and paid the fare if the privilege had not been granted; besides this, they occupy space in our parlor and sleeping cars that might be occupied by paying passengers. These are some of the reasons for think-

When a child I had a very severe attack of Diphtheria, which came near proving fatal. Upon recovery, the glands of the neck were very much enlarged, and after the free use of iodine, the right one was reduced to its normal size, but the left one continued to grow-very slowly at first-until it was about the size of a goose egg, which began to press on the wind-pipe, causing difficult breathing, and be-came very painful. An incision was made and a large quantity of pus discharged. The gland was removed, or as much as could with safety be taken out. For ten years I wore a little piece of cloth about an inch long in my neck to keep the place open. During this time I had to have it cut open by the doctor every time I took cold or the opening clogged. In the Spring or early Summer of 1884 I was persuaded by my wife to use S. S. S., which I did, strictly in accordance with directions. I took twenty-six large bottles, and was en-tirely cured, for I have not suffered with the trouble since that time. B. S. RAGIAND.
