JOHN HUSSIE HARDWARE CO.

Acorn Base Burners

Why is it that you so seldom find an ACORN BASE BURNER in a second-hand store? Simply because an ACORN is never parted with by the owner except from necessity—and then a buyer is easily found, and at a fair price, too. You see, ACORNS do not firecrack and are always good as new, except actual wear. No matter what stove you have used, we will prove to you that the ACORN gives more heat, uses less fuel and is more easily controlled than any stove made. Mark this—it is more easily controlled, can be run lower without fire coming out than any other.

OUR PRICES are always lower than others on like quality of goods.
