RELIGIOUS NOTES. Wesley hospital, Chicago, has expended \$11,000 for free work in the last year. Bishop Earl Cranston, who has just gone to Washington to take the place of the late Bishop Hurst, has not been in the national capital since the civil war. A choir of 1,500 voices is in preparation in Denver to welcome the world's Epworth League at the convention of 1905. They will give Handel's oratorio of "The Messiah". Rev. Dr. McComb, professor of theology in Queens university, Kingston, Ont., has formerly Presbyterianism and joined the Anglican church. He will take a charge in the United States. Rev. Francis Aidan Gasquet, president of the English Benedictines, who is visiting this country for the first time, has written many books, including "Henry VIII and the English Monasteries" and "The Eve of the Reformation". When Rev. Charles Wagner, the Alsatian author and orator, lectures in Washington on November 25, President Roosevelt will introduce the distinguished divine to the audience. The Girls' Friendly Society in America is now at work in fifty-seven dioceses; it has 67 branches, 234 working associations, 12,553 members. It has raised during the past year for its great work \$66,321.25. The annual output of Sunday school periodicals in the United States and Canada amounts to about \$6,000,000 copies. The presses are already busy with material for 1905. This represents an immense industry. Dr. Elder's successor as Roman Catholic archbishop of Cincinnati is Rev. Dr. Henry Noeley, who will be third in the line. He was consecrated bishop of Columbus, August 25, 1900, and three years later was chosen coadjutor to Archbishop Elder, with the right of succession. He is a native of Ohio, was ordained in 1876 and was for twenty years chancellor of the Cincinnati diocese. Archbishop Messner of Wisconsin, at the synod of the diocese of Milwaukee this winter, will take up the questions of Catholics attending Saturday night or Sunday dances, forbidding Sunday funerals and to make maconkepers ineligible for church offices. Rev. Dr. Hainsford, the New York preacher, was arguing with a youth of his parish about the evils of young men smoking cigarettes. "What would you do, think," "if you met an angel coming along with a cigarette in his mouth?" Well, doctor, what would you think if you saw an angel with an umbrella and a pair of patent leathers? Mrs. A. E. McFarland of Alva, Okla., was the first American missionary to Alaska, whether she went some thirty years ago as a representative of the Presbytery or not. It is thought she was also the first American woman to go there in any capacity. Mrs. McFarland remained in Alaska until her health gave way, some lines ago. She has now returned to Oklahoma. Few 40 in the south transept of Grace church, was sold at the New York real estate salesroom recently by auctioneers for the trustees of the Ray estate. The bidding started at \$30 and after a series of 60 bids the new was sold for \$150 to Hamilton G. King, who is employed in the offices of the Rhinelander estate. Archbishop Elder of the Roman Catholic archdiocese of Cincinnati, who died in this city in his 88th year, was the oldest prelate of that church in this country. His death leaves the seniority in age and in tenure of office with John Joseph Williams, archbishop of Boston, who is 82, and whom those who know him, both in and out of the Roman church, will hope may live to be much older than Dr. Elder. William Henry Elder was descended from the oldest Roman Catholic stock in this country, that of Calvert's colony of Maryland. LABOR AND INDUSTRY. A dam is being built in Oregon in connection with the plans for irrigating 25,000 acres of land, which will require 5,000,000 feet of lumber. Morgan county, Colorado, has eleven irrigating canals, 25 miles in length altogether, with a capacity of 3,200,000 cubic feet of water. There are 44,000 hotels in the United States, representing an invested capital of over \$4,000,000,000. These establishments employ 2,500,000 persons. Tacoma stevedores, who believe they made record time, loaded the ship Peru last week with 154,877 bushels of wheat in seven hours, an average of 7,344 bushels an hour. The production of the Cripple Creek district, Colorado's famous mining camp, for September, 1904, amounted to \$2,041,000, with a gross tonnage of 62,500 tons. The average value of the ore shipped during the month was \$28 per ton, a gain of \$4 over the August output. The gross earnings of the railroads have increased \$75,000,000 since 1890, and the net earnings \$75,000,000. No wonder Bradstreet's annual calling of "laundry work" - Hannah Monroe, it is said, was born a slave. She threatened to become the Carrie Nation of the washwomen's movement and began a series of raids against the offending Chinamen. Available figures go to show that in the twenty years between 1880 and 1890 there were 25,798 strikes, which cost the country in wages, expense and direct loss of trade nearly \$60,000,000. In the same time there were a little over 1,000 lockouts, costing nearly \$10,000,000. These three times of loss by no means represent its full extent. It would be a fair computation to estimate an equal sum lost directly and indirectly by the general public because of the strikes. They would cost a total of \$100,000,000 for the twenty years, and would undoubtedly be within, instead of beyond, the mark. "oppressors," the "heathen Chinese," she says the male Chinaman, instead of doing men's work, are driving the honest and poorly paid colored women from their national calling of "laundry work."
