GRAIN AND PRODUCE MARKET

December Wheat Very Erratic, Prices Fluctuating Within Wide Range.

POINT UP, CLOSED NEARLY 2 POINTS OFF

Heavy Dumping of Long December Whent-Cash Wheat on Omaha-Corn and Onts Steady-Gossip of the Pits.

At the opening this morning there was a disposition on the part of shorts to gather in their profits and this buying caused a change of front in the two speculative grains. The covering for a time was quite lively and the market showed a tendency to higher prices. The receipts at northwestern points were neavy and but for the large short interest created during last week there could have been but little to hold prices on. True the drouth still continues, but there are signs of a breaking up of the unseasomable weather and more favorable growing reports. Liverpool was 146 lower and the advices were generally loss favorable to the bull side. The carly buying soon established a cent advance in both December and May wheat, the former going to \$1.6% and the latter to \$1.10%. Thus matters remained for a time then the shorts quit buying and long wheat was again dumped right and left. Aided by this and the natural-unfavorable character of the news the market turned right about face and went the other way with a rush. The advance was lost and then the silde continued the other way until December reached \$1.0%, or nearly three points helow the high price and then closed flat. The loss for the day was 18 points, and the slump was not stayed. In the final selling May broke from \$1.10%, the high point, to \$1.0%. Not much change in the closings on July, although it lost fits advance.

Omaha cash trade was very good, but again at easier prices, with the bulk of the sales before the display of great weakness in speculative markets. No. 2 northern, \$1 los, to \$5 los test, at \$86.951.02; No. 4 at \$4998c.

There was less irregularity in the speculative range than in wheat, but the \$2 point advance in sympathy with the early rise in the former was lost, but there was no actual loss as compared with yeaterday.

CHICAGO GRAIN AND PROVISIONS TRANSCONTINENTALS ARE Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, Nov. 21.—Under heavy profittaking December wheat today broke an even 3 cents from the high point of the day's quotations. A large part of the selling was said to have been done by eastern capitalists who were afixfous to get out of the grain market. The market regained part of the loss on covering by shorts, but at the close the December delivery showed a net loss of Pic as compared with Saturday's final figures. May is down is Corn is up is. Oats show a gain of a shade. Provisions are off 2½ to 7½c.

At the opening a firm undertone was manifested in the wheat pit December was up it to be at \$1.05\infty in 1.05\infty. May opened unchanged to it higher at \$1.05\infty in 1.05\infty. May rose to \$1.50\infty. Continued dry weather in the southwest had some influence in the early buige. Suddenly sentiment in the pit veered to the bear side. Following the lead of a large commission house, said to be acting from prominent wall street interests, pit traders turned active sellers of the December bad soid off to \$1.05\infty. A drop of an even 3c from the high point. May declined to \$1.65\infty. S loss of 2\infty. Shorts covered on the break was made more pronounced by the loosening of numerous stop-loss orders. Before the decline was checked December had sold off to \$1.05\infty. A drop of an even 3c from the high point. May declined to \$1.65\infty. S loss of 2\infty. Shorts covered on the break causling a partial recovery. The market, however, closed weak, with December at \$1.67\infty. May closed at \$1.63\infty. Clears ances of wheat and flour were equal to \$8.800 bushels. The amount on passage increased 1.02\infty. So on bushels. Compared with 1.63\infty. Gars last week and 1.042 a year ago.

In the face of the sharp break in sheat prices a remarkable firm undertone pre-

and Chicago reported receipts of 1.20 cars, against 1.60 cars last week and 1.01 a year ago.

In the face of the sharp break in wheat prices a remarkable firm undertone prevailed in the corn pit. An improved cash demand was largely responsible for the strength. A revival of export buying was an additional buil influence. December opened the lower to the higher at 47% to 45% c. sold between 47% c and 45% c and closed at 45% c. May ranged between 45% the same closed at 45% c. May ranged between 45% cars, with 1 of contract grade.

With only small scalping trade the oats market held steady through the entire session. Country offerings were light. December opened unchanged at 25% c. sold between 25% c and 25% c and 25% c and 25% c and 25% c. May sold between 34% and closed at 35%. Provisions were weak as a result of liberal receipts of hogs at the yards Trading, however, was light. January pork closed with a loss of 7% at \$12.40. Lard was down to at 35.95. Ribs were off 25% c at \$4.42% c. \$6.6.

The leading futures ranged as follows:

NEW YORK STOCKS AND BONDS Market is Less Active, but Values Are Well Maintained.

Decision in Northern Securities Case is Expected to Be Signal for an Important An-

nouncement.

NEW YORK, Nov. 21.—Aggregate gales of stocks at the Stock exchange fell off today, but notwithstanding the decline in activity, marking a shrinkage in the active demand for stocks, prices were well maintained. The inarket is best defined as quiet and stroits. The causes of the falling off in business were not very clear. The fact of a broken week ahead on account of Thanksgiving may have been a motive.

There were some intimations that the expectation of an immediate decision of the Northern Securities suit might be disappointed. Wall street clings to a conviction that the decision of that suit is to be a signal for some important announcements affecting the transcontinental railroad situation and the prospect of its delay discouraged some operations. Union Pacific was noticeably strong, however, as were St. Paul and the bonds in any way related to the Northern Securities adjustment.

The engagement of gold bars for export to Paris this week was added to by an amount of several hundred thousand dollars and inquiry for all available gold bars was urgent at the assay office. Foreign exchange made a further advance, thus bridging the interval which permits the shipment of coin and \$50,000 in coin was engaged for Germany. Call money loaned at 3 per cent, but did not hold at that until the closing. Chicago exchange rose to 20c premium, against 10c last week, marking the continuance of the flow of interior currency to New York, while the movement of the new corn crop was scarcely commenced, explaining the light interior needs of currency.

Railroad officials in different sections differ somewhat in their views of the extent of the increases in the freight movement, those of castern lines showing especial enthusiasm on the present volume of business. Lines in the west look more to the future, when the corn crop shall begin to move in force. The industrial department of the market continued relatively conspicuous and there was an occasional movement in that department on the part of the stocks a long time dormant. The more active industrials were strong. The United States Steel stocks and the railroad equipment stocks reflected the good reports from trade circles. Amalgamated Copper was strong in common with all copper stocks and metal stocks generally were benefited in sympathy. The large demand for copper is assumed to go largely into electrical improvements and the electric stocks made notable gains. The day's small changes in leading stocks compares with the narrowing of the dimensions of the market, and the closing was irregular and below the best. Bonds were firm. Total sales, par value, \$10.389,000. United States bonds were unchanged on call.

Quotations on the New York stock exchange vesterfay were as follows: ency. Railroad officials in different sections dif-

most of them were inferior, being only warmed up or short fed. Educate were slow about taking hold of them and it wou does safe to quote the general market on cornleds such as were offered just about a limit before of last week. Even the few good cattle that were offered changed hamis very slowly at weak prices.

A liberal run of western range beef steers was on sale, but, the same as with cornfeds the quality was common. A few cattle strived good enough to sell around \$4.00, and such kinds were rather slow and weak to a dima low-rather slow and such slower. Beccipts were quite liberal, and while the demands seemed to be in good shape, still packers were bearish, and sales were made all the way from steady to a dima low-rather slower. The butter grades seemed to buffer more thun canners in most instances, but still trees were cases where good cows sold fully steady, so that the general market could best be described by calling it uneven, with soles steady to 10c lower.

Bulls, yeal calves and stags were a little slow and weak.

A liberal proportion of the receipts con-

Bulls, yeal caives and selections and weak.

A liberal proportion of the receipts consisted of stockers and feeders, and as speculators were rather afraid there would not be many buyers on the market 'his week. their bids in most cases were a dime lower and some of the commoner kinds were as much as 15c lower. Representative siles.

BEER STIERS.

2 00 W. Cutzet, Neb.

Shoeber, Wyo. 00 2 feeders. 1234 2 35

| Cattle Receipts Liberal and Market Ruled | Steady to Ten Lower. | 18 cows. | 100 | 2 5 | 1 cow. | 500 | 2 60 | 2 cows. | 500 IN feeders. \$51 3 00 2 feeders. \$50 3 00 HOGS—The actual number of hogs on sale here this morning was only about normal for a Monday, but at Chicago there were \$5,000 hogs, so that prices continued their downward course at all points. The decline here amounted to about a nickel. The big bulk for the hogs sold at the one price, \$4.574. A few of the commoner kinds went under that and very few over it, though as high as \$4.6 was paid for some prime hogs. Trading was quite active at the decline, so that an early clearance was made. Practically no change in the market took place from start to finish. This decline takes the market to the lowest point reached since June \$5. Representative sales:
