completion of another successful year of kindly fellow feeling and harmonious working together. Mr. Thomas Doliber, president and treasurer of the company, read the Thanksgiving proclamation of the president of the United States and that of the governor of Massachusetts; then, in behalf of the directors, he expressed his appreciation of the employes' work during the past twelve months. He said that the increase in the business had been large and even beyond the expectation of the most sanguine, that all records had been broken and that he was much gratified with the results obtained. He thanked all for their hearty co-operation in producing these results.

At the close of his remarks Mr. Doliber, beginning with the messenger boy who had most recently entered the employ of the company, and then in order, ranged according to years of service, gave to each, with the best wishes of the company, a large, fat turkey. More than half a ton of turkeys was required. More than two-thirds of those who received turkeys have been with the Mellin's Food company at least ten years, while with some the years of service range as high as 19, 21, 26, 27 and 30 years.

The soothing influence of relief. After suffering from Itching Piles, From Eczema or any Itchiness of the skin,

Makes one feel grateful to the remedy. Doan's Ointment has soothed hundreds

Here's what one Omaha citizen says: Mr. James Grace, lineman for the Thomson-Houston Electric Light Co., stalled during the occupation of the Island living at 207 N. 17th street, says: "If from using Doan's Ointment as I, I certainly advise them to use it. Doctors treated me, each and all guaranteeing a cure, but they did not relieve me. Doan's Ointment, procured at Kuhn & Co.'s drug store, corner 15th ANARCHY PREVAILS IN MACEDONIA

and Douglas streets, much to my surprise and more to my gratification, has up to date so allayed the annoyance

agents for the United State

ago. It is stated that there is practically no drainage and that water is allowed to stand in the streets for days at a time. It was said tonight that the communicagovernment regarding the frightful sanitary conditions at Santiago and elsewhere Jury in Case of "Home Development" is most emphatic in character and is intended to impress the Cuban government with the desire of this government for an

immediate remedying of this condition. Instructions Not Yet Presented. HAVANA, Nov. 3 .- No instructions have thus far reached the American legation here from the government at Washington to call the attention of the Cuban authoritles to the unsanitary conditions at Santi-

ago and elsewhere in Cuba, and to urge prompt and thorough remedy of those conditions, as reported in a dispatch from Washington today. Those who introduced the bili in the Cuban senate on October 15, appropriating \$2,600,000 to aid in the sanitation of the cities, say they were pleased to see that the United States is again directing the attention of this government to the urgent necessity of immediate improvement in the sanitary condition of the cities, particularly those on the eastern side of

the island, adding an expression of the belief that the action of the Washington government reported today will have the effect to hasten congressional action. Other senators and representatives say there will be no opposition to carrying out President

Palma's suggestions of government aid in cleaning the streets of the large cities. The mayor of Sanitago asserts that it will be mpossible for that city to alone bear the cost of cleaning the streets.

#### No Yellow Fever in Cubs.

NEW YORK, Nov. 23 .- The officials of the Cuban government today officially denied the reports published in this country that . there is yellow fever in Cuba. The denial was given out through the Cuban consul the state with rifles and ammunition with general in this city, who issued the fol- which to arm special deputy sheriffs that lowing statement: had been sworn in.

I have received today a cable from the Cuban government in which it is denied that there are four cases of yellow fever in Cuba

that there are four cases of yellow fever in Cuba. There is only one case of yellow fever in Cuba at the present time and that was im-ported. This case was reported in Santi-ago province, on a little island called Funta Sal. This case did not amount to anything on account of the energetic meas-ures taken by the sanitary department of the government. the government. Consul General Zayas said that his gov-

ernment was considerably disturbed over the widespread reports in this country that yellow fever had broken out on the island. Such reports, he said, had a tendency to keep away tourists and hamper the trade between this country and Cuba.

Mr. Zayas said the present Cuban government is carrying out the strict sanitary procedures and practices that were inby the United States.

It is learned tonight that the reason for ment was that the marine hospital service had reported that yellow fever had appeared in several places in the island of Cubn and it was feared there might be an outbreak in some of the large cities if

preventive measures were not taken.

NEBRASKA FATHER SHOOTS HIS SON Gus Stock is Killed for Refusing to

Assist in Theft.

BUTTE, Neb., Nov. 23.-(Special Telegram.)-Gus Stock, jr., a naval engineer from Seattle, who was visiting his father at Lynch, was shot to pieces by the latter in their yard.

Before dying the young man, aged 22, said: "Father proposed robbing a neighbor's chicken house; I objected. I said would tell if he did. He became enraged and shot me in the breast, and again in the back when I turned."

The father says he heard invaders in his chicken coop, seized a gun and ran out into the Jarkness. There were three. He shot at one, striking him in the lungs, and then fired again as the victim ran. The father is a drinking man, aged 60.
