

GRAIN AND PRODUCE MARKET

December Wheat Weak and Points Lower on Large Receipts.

DEFERRED FUTURES SHOW STEADIER TONE

Corn Slightly Easier—Visible Supply Shows Its First Increase—Oats Steady—Good Cash Demand for Corn—Gossip of Plots.

OMAHA, Nov. 28. 1904. It was another busy day in the wheat pits of the country and the chief factor was the enormous receipt of a million bushels of December wheat here today. Part of the loss was regained on covering. At the close, however, the December delivery was 14 1/2c. Oats are off 1/4c and provisions 1/8c.

From beginning to end the bears were in the control of the situation in the wheat pit, practically every item of news being favorable to them. The weekly statement furnished the first disappointment to the bulls. World's shipments, which had been estimated Saturday at about 12,000,000. At the opening moderate sales by commission houses met with little demand. As a result, initial quotations were low, December being at 14 1/2c to 14 3/4c and January at 14 1/4c to 14 1/2c.

Notwithstanding extreme weakness of wheat the corn market held quite firm. The principal factor was the receipt of cables and smaller receipts than expected. Selling of May by cash buyers had been held off by a day, but sentiment soon became bullish. December opened low at 14 1/2c and closed at 14 3/4c. Corn was equal to 14 1/2c. The amount on passage increased 25,000 bu. and the visible supply 2,100,000 bu. Primary receipts were 1,347,000 bu. compared with 1,347,000 bu. a year ago.

NEW YORK STOCKS AND BONDS

Irregular Movement of Prices is Due to Mixed Profit Taking.

NEW SPECULATIVE CAMPAIGN BEGINS

Buyers Take Stocks as Rapidly as They Are Thrown on Market—Further Withdrawals of Gold Not Expected.

NEW YORK, Nov. 28.—An irregular movement of stocks today reflected the mixed profit taking and new speculative campaign going on. Stocks which were withdrawn from the market last week were sold to meet the new developments attracted by these developments. A new speculative campaign was inaugurated by the withdrawal of gold from the market.

The actual news affecting property values was not plentiful or important and was very little in the market. The general situation to which importance seems to be attached is the money market, but offerings seemed sufficient at the rate.

The buying of stocks according to procedure side by side with the selling to realize. The day's developments consisted of some times in a way to cause divergent movements in different stocks.
