CRAWFORDSVILLE, Ga., Nov. 30. Thomas E. Watson, recent candidate for the people's party for president, today addressed a large crowd at this place, the former home of Alexander H, Stevens. His address was received with close attention, but with no marked enthusiasm. He spoke in part as follows:

Party's Secret Mission.

Party's Secret Mission. In other words, the secret mission of the democratic party is to keep up a sham battle. By keeping the people divided and deluded, they hinder the organization of real opposition to priveleged class legisla-tion and corporate greed. This the na-tional democratic party is the best friend of which the Autocratic republican party can boast, for the Beimonts, who call themselves democrats, are just as much in favor of special privileges as the Carne-gles and Morgans who call themselves re-publicans.

The set of the democratic party in 1985 and i make this prediction. Bryan will be the candidate of the democratic party in 1985 and i make this second prediction. When Bryan runs for president in 1965 as the Gandidate of the Parker Helmoni-Cleveland-Gorman combine, he will be a worse beaten man than Parker was. Does Mr. Bryan sincerely believe that he can commit the national democratic conven-tion to his recently replenished and re-patred populist platform? If so, he must see that the country would then have two populist parties. Such a contingent would be laughable were not the crisis so grave. Mr. Bryan must know that his program

SENIORS IN CONTEST Any Member May Compete for D. A. R Prize for Best Essay This Year.

ALL

At a meeting of the senior class of the

high school it was announced that the Daughters of the American Revolution offer the annual Daughters of the American Revolution medal to the member of the senior class who writes the best essay on the subject, "The Men Behind the Rail Fence." Last year this offer was restricted to the members of the American history class who desired to enter the competition; this year, however, the entire senior class has been invited to enter the contest. The length of the essay has not yet been determined. It is to be completed by April 1. The prizes probably will

be selected from Omaha's eminent men and women, and not from the faculty, as heretofore. The award of the medal is to be made with much more ceremony than last year and for this purpose the large assembly room of the Board of Education has been secured. Beside the award of the medal there will be six honorable mentions made. This competition promises to be entered upon with great zeal by all members of the senior class, as not only the medal is at stake, but the reputation of

the class. The best efforts and work will doubtless be enlisted. FIGHTING WAS RATHER KEEN

THE VALUE OF CHARCOAL

Few People Know How Useful it is in Preserving Health and Beauty. Nearly everybody knows that charcoal i the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system

for the same cleansing purpose. Charcoal is a remedy that the more yo take of it the better; it is not a drug at all but simply absorbs the goses and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smok ing, drinking or after eating onlong and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which col lect in the stomach and bowels; it disinfects the mouth and throat from the poisor of catarrh.

All druggists sell charcoal in one form torney brought a reiteration of the stateor another, but probably the best charcoa ment that in each of the seven cases cited, and the most for the money is in Stuart's where the papers were sent into the land Charcoal Lozenges; they are composed of office without Mr. Montague having seen the finest powdered Willow charcoal, and the entrymen, Horace McKinley brought other harmless antiseptics in tablet form, or rather in the form of large, pleasan The silence in the court room as the tasting lozenges, the charcoal being mixed words, connecting Horace McKinley with

with honey. The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from

their continued use, but on the contrary, great benefit.

A Ruffalo physician in speaking of th benefits of charcoal, cays: "I advise Stuart's Charcoal Logenges to all patients suffering from gas in stomach and bowels and to clear the complexion and purify the breath, mouth and throat; I also believe

the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent preparation, yet believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of

Mr. Blauvelt said prior to 1963 the coal companies of the Erie railroad did not earn enough to pay the cost of operation and the interest on the purchase bonds. In 1903, he said,

the condition was improved, and in 1904 it became normal. At the afternoon session W. N. oral arguments would be heard beginning Thursday, January 5. Internal Revenue Report

The annual report of Commissioner John

freed. W. Yerkes of the internal revenue bureau shows that for the fiscal year ended June 30, 1904, the receipts of the bureau were \$232,904,004, an increase of \$2,164,079 over the collections for the year next preceding. The cost of collection was 1.98 per cent as against 2.07 for the year 1903 and 2.83 per cent, the average cost of collection since the formation of the bureau.

The estimated receipts from all sources of internal revenue for the fiscal year ending June 30, 1905, are \$230,000,000. The leading states in the payment of in

ternal revenue taxes for the past year are Illinois, \$52,464,271; New York, \$26,375,125; Indiana, \$24,102,871; Kentucky, \$21,757,733; Ohio, \$21,091,416; Pennsylvania, \$18,874,540.

In 1903 the total production of distilled spirits was 148,206,875 gallons; in 1904, 139,-505.214 gallons. In 1908, in round numbers 114,000,000 gallons of tax-paid spirits were withdrawn; in 1904, 117,000,000. There has been a decrease in the amount of tobacco manufactured and an increase in snuff manufactures. There was an increase in the production of beer.

The four states having the largest production of distilled spirits during the year are Illinois, 41,785,899 gallons; Kentucky, 23,-070,162 gallons; Indiana, 20,838,868 gallons Ohio, 13,173,537 gallons.

The four states which produced the largest quantity of fermented liquor are New York, 10,691,868 barrels; Pennsylvania, 6,123, 936 barrels; Illinois, 4,632,446 barrels, and Wisconsin, 4,005,292 barrels.
