OMAHA, Dec. 2, 1994. There was a decidedly firmer tone to the wheat market today. Armour being unques- tionably the factor of the greatest impor- fance, coupled with the reports stabutan- tlated by state and government reports of the damage done through the drouth and Hessian fly. The latter is not the potent infidence for the deferred future. July, which should display the greatest strength on drouth reports, held steady at less ad- the receipts were moderate, but the de- line and this was the cause of much were light, and this was the cause of much of the uncasiness of the shorts. Armour's buying was covered through brokers not heretofore prominent in file interest, and this failed to develop until late in the session. Private wires indicated a firm position for wheat. Liverpool was be	on favorable crop advices from Argentina- News available here from the South Amer- ican wheat fields, however, was conflicting, meteral reports claiming that we weather was interefering with harvest operations. Another buillish factor was the small pri- mary receipts. Strength of cash markets at St. Louis and Kansas City was also an influence here. Throughout the day the market had the support of the leaders of the built crowd. Prices reached the high- est point of the day fust prior to the close, May touching fl. 10%. Final quotations on May were at H10% (216%. Clearances of wheat and flour were equal to 116.800 bu. Exports for the week, as shown by Brad- street's, were equal to 2.101.000 bu. Primary receipts were 925.500 bu., compared with 1.054.300 bu. a year ago. Minneapolis, Du- luth and Chicago reported receipts of 150	cons.de.ab.e falling off fr.m tho.e of yes- te.day. But the acute weakness w to which the market cole, yesterday was io.sly ufsipated. The lack of explanation or that weakness was a cause of some dis- quietuce and had a doccuraging effect on large speculative commitments; hence the smaller dealings. There was no considera- ble recovery in prices out lide a few speca- siocks and the mirenith of picked stocks was reg.rded as a cevice largely to sus ain the rist of the market. Boston Stock Market.Boston Stock and bonds:Adventig of stocks andve Hovement of Gold, BERLIN, Dec. 2.—The gold imports from England have not yet ceased, although the rate of exchange excludes any profil on such transactions. The continuance of the movement is attributed to the trans-ference of the Russian credits to Berlin. So far as the Reichs bank's meeds are concerned, imports should now cease, aince it has the largest gold stock in its history. The stock of metal amounts today to 250. 000,000 marks, of which four-fifths is gold. It is understood that American gold re-cently reached Germany by direct ship-ment, but some eagles have arrived here from England or France. Boston Stock Market. Sugar and Molasses. Wool Market.

Oils and Rosin.

Dry Goods Market. NEW YORK, Dec 2.-DRY GOODE-The market is still in abeyance and is likely to be more or less unseitled until the appear-ance of the government's estimate tomor-row. In the meantime buyers are with-holding certain orders. Yet the sellers at-titude has not changed and general firm-ness characterized practically all lines of goods.
