I am anxious to secure the advice and ST. LOUIS, Dec. 3 .- A special to the Post-Dispatch from Duquoin, Ill., says that comparative quiet reigned at Zeigler throughout the night, though there was some sporadic firing. The guard at the pump house was fired on, four shots coming from the brush. The militiamen and deputy marshals on guard there responded with about thirty shots. I am anxious to secure the advice and operation of General Miles in the ad-inistration of the military affairs of the mmonwealth, and General Miles has

coast by the Vladivostok squadron, decided today that its arrest was unjustified and the judgment of the Vladivostok prise court was set aside. As an appeal was not lodged regarding its cargo the Viadivostok judgment in that respect stands. The owner of the Thea, H. Diedrichsen of Kiel, will present a claim for damages, roughly figured at \$195,000.

#### Russian Sharpshooters Busy.

ST. PETERSBURG, Dec. 3.-General Sakharoff, telegraphing yesterday, reports a successful reconnoissance by sharpshooters Thursday night in the direction of the Japanese entrenchments southwest of Tungoon (Tunganon). The Russians first bayonetted a Japanese outpost of thirty men, surmounted barbed wire entanglements, forced the entrenchments and bayonetted another twenty Japanese. #### Capture of Hill Not Declaive.

ST. PETERSBURG, Dec. 1.-A high offcer of the general staff who is intimately familiar with the fortifications of Port Arthur, insists that the importance of the capture of 203-metre hill has been overestimated. He explains that this hill, which the Russians call Wisokaia, is situated west of the railroad and belongs to the outer and not to the inner line of defenses, which are composed of permanent forts on Canonia hill, or Sungshu mountain; Hawk hill, or, Antas hill, and Wood Creek hill, The Japanese are now only able to attack the main line, just as happened in the case of Dragon hill after the capture of Welf hills. The Japanese took Wolf hills July 30, but it was not until four months later, November 30, that they were able to reach

the permanent forts on the north and sortheast of Port Arthur. "How long the permanent defenses will

The last bastopol had the advantage of never having heen completely invested and continued through the siege to receive reinforcements and supplies. On the other hand the natural strength of the positions at Hebastopol were inferior to those of Port Arthur. Two Hundred and Three-Metre hill is twenty metres higher than the permanent forts on the north side, but it is 2,000 metres distant from them, whereas the distance between the Malakoff and the outer defenses of Sebastopol was only 500 metres. I believe the Japanese will carry the main forts by assaults and, failing in this, they

will revert to sapping and mining."
