Over in England there a man named Carr. Thirty years ago he made all kinds of Overcoatings. One day he talked the matter over with him-self, and feeling that he knew more about making Meltons than he did about making of any other Overcoating, he came to the conclusion that it would be best for him to make only that thing he knew how to make best-and let the other fellows make the others. Today Carr Meltons are the best Meltons in world-the softest, the firmest, the richest in appearance, and the most durable
