NEW YORK STOCKS AND BONDS

Violent Slump in Values Makes End of the Bull Campaign.

SPECIALS DROP FROM 4 TO 15 POINTS

Entire List is Off from Two to Three Points-Decline Due to Fact Market Had Reached Top-Heavy Dimensions.

NEW YORK. Dec. 7.—Today's violent slump in the stock market came upon the sanguine speculative element like a boit from the blue sky. The fact that runaway buil markets always overrun themselves never avails to lensen the surprise of the speculators when the airy fabric crumbles. The fabric could not, of course, be blown up to its diaphanous dimensions if there were not enough buyers who continue to buy all stock offerings and bid up prices in unbounded confidence that the upward course will never be interrupted. Neither would it be interrupted if speculators were able to go on buying indefinitely. But when the time comes that distruct obtains an entrance to their consciousness and they attempt to sell their holdings it develops that the buoyant rise has been due to their own buying and there is nothing left to sustain prices when that ceases. That is probably the true explaination of the slump today, which took on fairly panicky proportions at times.

times.

The crumbling of prices led to the usual industricias efforts to assign a cause in some new development in affairs that might be an index of a decline in the prosperous conditions of business and industry. There was no such news forthcoming. There was a rise in the call loan rate late in the day to the highest of the season, but this seemed to be as much an effect as a cause of the fall in prices. It was not learned that there had been any calling of loans or restriction of credits to precipitate the conditions of business and industry. There was a rise in the call loan rate late in the day to the highest of the season, but this seemed to be as much an effect as a cause of the fail in prices. It was not learned the property of the fail in prices. It was not learned to be reak but the expectation of further gold engagements for export was confirmed and there were remittances through the subtreasury of \$1,000,000 to San Francisco and \$200,000 to New Orieans. The drawing of the purses strings and the increased exaction regarding collateral had top full died of its advance, but there has been no premoitory symptom in the present market of money stringency. Much more attention was paid to the flying rumors of the attitude towards the market assumed by important financial powers. The sharp losses which were suffered gave spirit some of the advertised attacks on special properties for the last few days really represented a deeply laid plot which had the backing of great capitalists. The easy manner in which Amalgamated Copper and capitains which took place here last night and which they supposed adopted alarming conclusions over the prospects for the railroads afforded by the president's recommendation to allow the Internate alarming conclusions over the prospects for the railroads afforded by the president's recommendation to allow the Internate alarming conclusions over the prospects for the railroads afforded by the president's recommendation to allow the Internate alarming conclusions over the prospects for the railroads afforded by the president's recommendation to allow the Internate alarming conclusions over the prospects for the railroads afforded by the president's recommendation to allow the Internate alarming conclusions over the prospects for the railroads afforded by the president's recommendation to allow the Internation of the properties of the railroads afforded by the president's recommendation to allow the Internation of the properties of the properties of the properties of the properties of the

There were several cars of cornfed steers on sale, but none of them were strictly choice. Packers, though, took hold fairly well and anything at all desirable changed hands without a great deal of trouble at just about the same prices that were paid vesterday. The comparatively small number on sale scon brought the market to a close.

vesterday. The comparatively small number on sale scon brought the market to a close.

The supply of westera range beef steers was also small. Receipts included a good many shipments from the range country, but very few of the cattle were good enough for killers. The demand was in good shape and anything at all desirable met with ready sale at 1 od, steady prices and something choice would undoubtedly have sold strong.

Cow stuff seemed to make up the bulk of the offerings, but the same as with steers, the quality was common. As compared with yesterday's weak close, there was perhaps, a little improvement, but the market was no better than yesterday morning. Trading was fairly active, particularly on desirable bunches, and the big end of the offerings was disposed of m fairly good season.

Bulls, veal calves and steers sold in just about the same notches they have for some time past.

There were only a few choice stockers and feeders in the yards and, as the demand was brisk for desirable grades, the market ruled active and strong. The medium to common kinds sold at just about steady price-a as compared with yesterday.
